MAN 4X4 HIAB

Where the terrain is tough, the MAN 4x4 HIAB delivers — a robust all-terrain truck-mounted crane built for heavy-duty lifting.

Overview

The MAN 4x4 HIAB combines off-road capability with powerful lifting performance, making it ideal for remote and demanding sites. Its rugged design ensures reliability in harsh conditions while maintaining precise control for safe operation.

Ideal for: Remote construction, utilities, forestry, and infrastructure work
