

Avant 860i Tracked

A high-capacity compact articulated loader, the Avant 860i is built for heavy-duty material handling in demanding environments.

Overview

The Avant 860i is built for efficient lifting and loading in construction and industrial environments. Its telescopic boom and articulated steering provide excellent reach and manoeuvrability, making it highly effective in confined spaces.

Ideal for: Wetlands, coastal work, utilities, and soft ground operations

Specifications

- **Lift Capacity:** ~1,900 kg
- **Lift Height:** 3.5 m
- **Engine:** 42 kW diesel
- **Speed:** Up to 30 km/h
- **Track Size:** 35 cm x 90 cm
- **Drive:** Four hydraulic tracks
- **Low Weight**

Key Features

- Low ground pressure operation
- Suitable for sensitive terrain
- Telescopic boom
- Articulated steering
- Compact design
- Wide attachment compatibility
- High lifting performance
