

Can-Am Traxter HD10

Built for demanding work applications, this is a versatile and powerful 6x6 side-by-side utility vehicle with exceptional off-road performance.

Overview

The Can-Am Traxter HD10 is engineered for demanding environments, offering exceptional traction, durability, and load-carrying capability across rough and uneven terrain. Powered by a high-performance Rotax® engine, it delivers strong torque and smooth power delivery, making it ideal for heavy-duty tasks in construction, agriculture, and remote site operations. Advanced drive modes and operator assistance features ensure optimal performance, safety, and control in all conditions.

Ideal for: Construction, utilities, agriculture, and remote off-road transport applications.
