

A professional film studio set with various pieces of equipment. In the foreground, there are two cameras mounted on tripods. Behind them, several monitors display technical information. To the right, a clapperboard is visible on a table. The background features a large red wall with the words 'SCENE' and 'TAKE ROLL' in white. The overall scene is brightly lit, suggesting a high-quality production environment.

HigherKey: Elevating the Art of Storytelling

HigherKey combines traditional cinema values with modern filmmaking through creative storytelling and captivating dialogue. With a fully integrated, in-house business model writing, designing, and producing everything under one roof HigherKey delivers a higher quality product while positioning investors to capitalize on the exponential growth of the entertainment industry.

Kumbali Satori Founder & Visionary

The HigherKey Mission

Kumbali and his team have built a full-cycle business model that writes, designs, and produces everything in-house — generating a higher quality product than competitors while enabling investors to capitalize on the entertainment industry's exponential growth.

HigherKey stays on the pulse of global interests, creating meaningful films and series with nimble speed and purpose.

Investment Opportunity

HigherKey's integrated model is designed to accelerate investor wealth through quality, highly requested, and significant content. All investment inquiries are directed to invest@thehigherkey.

Creative Philosophy

By uniting traditional cinema values with modern storytelling, HigherKey ensures every project carries cultural weight and commercial appeal.

Brenda Gilbert Co-Founder, BRON Media Corp.

Nominations and wins combined

Davin Gaskin

HigherKey Studios President & AI Innovator

Award-Winning Leadership

Davin Gaskin is a decorated program manager recognized by the UAE Ministry of Defence with the **2024 Commander's Award** for best HSE program and the **2022 Best HSE Program in the Country** and **2022 Innovation Award** applying technology to minimize risk and preserve health, safety, and the environment.

VisionQC™

As President of HigherKey, Davin is commercializing **VisionQC™** the world's first autonomous, self-learning AI vision system targeting billions lost to manual inspection across Film, Manufacturing, and Robotics.

Learns Autonomously

Trains itself on "normal" and flags deviations automatically no human oversight required.

Zero Human Labeling

Eliminates expensive data science teams and manual training data labeling entirely.

3 Massive Industries

The only platform unifying Film, Manufacturing, and Robotics QC into one ecosystem.

Jason Strickland

Creative Director & Creative Force

Jason Strickland is a multi-hyphenate filmmaker recognized for directing alongside **James Cameron, Keanu Reeves, and Halle Berry** in the acclaimed documentary *2nd Unit: Invisible Action Stars* (2019). He began as an actor notably as Scott Green in Nickelodeon's *Secret World of Alex Mack* before transitioning to directing over the past 15 years, helming commercials for **Baskin Robbins, AT&T, and GoDaddy**.

2nd Unit Hollywood's Hardest Hitters: Women in Action

Featuring Margot Robbie, Jennifer Lawrence, and Zoe Saldana the highly anticipated second installment of his documentary series.

The Friendly

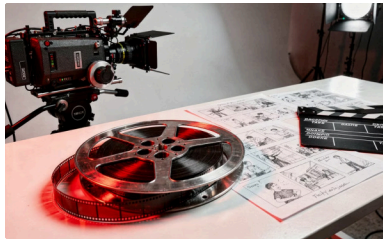

A heartfelt drama about a veteran and his loyal canine companion, addressing mental health and PTSD. Premiered November 11, 2023 Veterans Day.

Universal Studios Horror Project

Jason is writing, directing, and executive producing a horror-themed series for Peacock, set against Universal Studios as a backdrop.

The HigherKey Advantage

HigherKey brings together visionary leadership, cutting-edge technology, and world-class creative talent to build the future of entertainment and industrial intelligence. From award-winning storytelling to autonomous AI quality control, the team is positioned at the intersection of culture and innovation.

Creative Storytelling

Full in-house production delivering quality content that resonates globally.

AI-Powered Innovation

VisionQC™ redefines quality control across film, manufacturing, and robotics.

Investor Opportunity

Capitalize on exponential entertainment industry growth with a proven, integrated model.
