

manatee qr code stands:

no-hassle referrals

Place our stands in your exam rooms or at the front desk. Families can start enrollment before they leave your office.

How it works

Parents scan the QR code with their phone.

A pre-filled text pops up, confirming referral from your practice.

They hit 'send' and Manatee takes it from there. Our team follows up directly and gets the family into care.

Hi - my pediatrician referred me to Manatee and I am interested in getting started with care.

Thank you for reaching out! Here's your first step to getting registered with Manatee...

Why it matters

More kids in care

Referrals in the moment means families don't slip through the cracks.

Zero admin for your staff

No faxes, no forms— just one QR code scan and the referral is complete.
