

LEHNER INVESTMENTS

FOREX TRADING FUND

For eligible ColInvestors only!

Launch Date: 2025-Q3
ISIN: MT7000036067

OBJECTIVE of the LIFTF

The objective of the LEHNER INVESTMENTS FOREX TRADING FUND is to achieve over average returns with a very low correlation to other asset classes on the mid- and long-term view by arbitraging the 3 pairs of the 3 world's major currencies to each other.

STRATEGY of the LIFTF

The strategy of the LEHNER INVESTMENTS FOREX TRADING FUND is to deploy an uncorrelated absolute return strategy to generate income by trading in USD, JPY and EUR on global forex markets, using several algorithms based automated trading systems.

Advisor's PERFORMANCE

The below shows the past "real money" performance (no back testing) achieved with the same algorithm that is applied the very same way to the fund. Past results are never a guarantee of future results. However, they might be an indication of what to expect.
