

TALENT POINT IS NOW MOMENTUM GLOBAL

London, United Kingdom – February 2026

Talent Point today announces its official rebrand to Momentum Global.

Effective immediately, the business previously known as Talent Point will operate under the name Momentum Global. This is a direct rebrand and evolution of the same company, with the same leadership, ownership, team and client commitments.

There has been no change to the structure, ownership or operating model of the business. The rebrand reflects the expansion of our global footprint and the increasingly strategic nature of the work we deliver for clients.

Since inception, Talent Point has focused on helping organisations build capability in a smarter way, challenging traditional recruitment and outsourcing models. As our work has evolved into building global Centres of Excellence, embedded talent partnerships and AI-enabled workforce transformation programmes, it became clear that our brand needed to evolve to reflect that growth.

Momentum Global better represents who we are today and where we are going.

Simon Mortimer, Chief Executive Officer, said:

“This is not a new company, it is the next chapter of Talent Point.

Our mission remains the same: to help ambitious organisations build intelligent global teams.

Momentum Global reflects the scale, ambition and international impact of the work we now deliver. It represents growth: for us and for our clients.”

Clients, partners and employees will experience no disruption. All existing agreements, relationships and services continue as normal under the Momentum Global name.

Talent Point’s LinkedIn presence will transition to Momentum Global as part of this rebrand.
