

Cyera DataWatcher

# Protect Your Data. Free Your Team.

Get data & AI security at scale, without lifting a finger. Cyera DataWatcher provides end-to-end management of the Cyera Data & AI Security Platform. Protect your organization from data breaches with data security monitoring, risk analysis, and expert-led response support that resolves risks to your critical data.

## Leave the heavy lifting to us

Free up your team to focus on more strategic initiatives for the organization. Make our experts an extension of your team and leave managing Cyera to us. Get data and AI security at scale, ensure data compliance, and accelerate the remediation of data incidents before they become a headache.

### Accelerate time-to-value.

Be up and running on Cyera quickly so you can begin identifying data risks and act.

### Improve security posture.

Gain instant access to Cyera's rich data security intelligence and improve resilience.

### Optimize operational efficiency.

Ensure Cyera is performing at maximum efficiency and delivering results without straining your infrastructure or team.

### Understand and respond quickly to a data breach.

Accelerate the mean time to materiality and get recommended next steps.

# What We Deliver

DataWatcher goes beyond the average managed service and provides a holistic data and AI security experience that includes:

## Cyera Data Security Platform management & optimization.

End-to-end management and ongoing administration of the Cyera Data Security Posture Management (DSPM) and Cyera Omni Data Loss Prevention (DLP) solutions.

## Issues management & resolution.

Proactive review of data attack surface, ongoing review and escalation of high risk issues, issue trending and reporting, and remediation guidance and progress tracking.

## Program strategy & enablement.

Get annual program maturity mapping & quarterly roadmap updates, quarterly CISO team briefings and workshops, program build and management services, and program and technology optimization.

## Technical support.

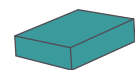

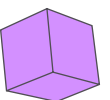

Receive 24x7 support, access to the Knowledge Base and Community, and access to standard and customized training.

## Data breach support.

Receive 24x7 inbound CSIRT support, incident materiality scan, detailed incident data blast radius and materiality analysis, and post data breach support.

## No cost data breach assurance.

Round out your cyber defense strategy and secure peace of mind with our cyber warranty.
