Hansel Dobbs

Founder, ValuSignal 2026
Vice President, Anchor Loans

BACKGROUND

VP of Anchor Loans with deep, long-standing ties across the real estate appraisal and valuation industry. Known for connecting people across every corner of the field.

A valuation executive and product leader with 20+ years at the intersection of real estate appraisal, quality control, and technology.

WHY VALUSIGNAL WAS CREATED

- Built for both practicing appraisers and aspiring appraisers exploring the profession.
- First 100% virtual event built specifically for appraisers — no flights, no hotels.
- Helps attendees network, grow their business, and stay ahead on AI and industry trends.

The Valuation Profession Is at an Inflection Point.

Rapid Technological Change

AI tools, automated valuation models, and new data sources are reshaping how appraisers work.

Regulatory Shifts

USPAP updates and evolving compliance requirements demand constant professional development.

Market Pressure

New market dynamics are pushing appraisers to diversify into litigation, advisory, and specialized consulting.

No National Platform

Until ValuSignal 2026, there has been no single national virtual venue built exclusively for this profession.

The profession is
looking for a signal.

ValuSignal 2026 is that platform.

Your brand can be part of the answer.

Virtual Isn't the Compromise.

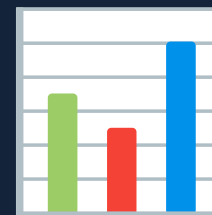

It's the Strategy.

All 50 States

No Geographic Barrier

Appraisers in all 50 states attend. No flights, no hotels, no lost billable time. The largest in-person valuation events draw hundreds. Virtual removes the barrier entirely.

100% Measurable

Every Interaction Is Tracked

Booth visits, session views, content downloads, chat interactions, every action is logged. You'll know exactly who showed up to your booth and what they did there.

Real Data

ROI You Can Calculate

No vague impression counts. After the event, you have real data: contact lists, visit analytics, download counts. Your return is calculable, not estimated.

300-600 Decision-Makers in the Valuation Ecosystem.

The largest dedicated valuation conference to date has drawn ~600 attendees. Our target: 300-600 focused professionals at launch.

Practicing Appraisers

40%

Residential & commercial

Evaluating tools, services, and partnerships for their daily practice. Active buyers in the profession.

Firm Owners & Principals

25%

Decision makers

Setting budgets, selecting vendors, and guiding their teams. Purchasing authority within their organizations.

Valuation Tech Adopters

20%

Early movers

Professionals actively seeking tools to modernize their practice and gain competitive edge.

Adjacent Ecosystem

15%

Lending, fintech, proptech

Stakeholders in sectors that depend on valuation — buying appraisal-adjacent services and solutions.

You're Not Buying a Slot. You're Buying a Founding Position.

FOUNDING SPONSOR

ValuSignal 2026 · Year 1

Year 1 status is not renewable.
First movers own the space.

No Incumbent Owns This Space

No other company has founding sponsor status in a national virtual conference for the U.S. valuation profession. That window exists right now and only right now.

First Mover Becomes the Reference

The brand the industry sees first becomes the brand they associate with the event, in Year 2, Year 3, and beyond. Compounding recognition that no later entrant can replicate.

Pioneer Pricing Reflects Pioneer Risk

Current pricing is set at entry-level because the event is new. In Year 2, with an established track record, these tiers will be priced accordingly.
