

DISCRIPTION

POWER ATF LIFE is a high-quality automatic transmission fluid formulated with refined base oils and carefully selected additives to provide reliable shifting performance, good oxidation stability, and effective protection against wear and corrosion. It is suitable for automatic transmissions requiring DEXRON® IID performance level.

POWER ATF LIFE is designed to provide dependable performance in automatic transmissions operating under normal service conditions. Formulated with high-quality mineral base oils and a balanced additive system, it ensures smooth gear engagement, stable friction characteristics, and reliable power transmission.

The formulation offers good resistance to oxidation and thermal breakdown, helping to reduce sludge and varnish formation. It protects transmission components against wear, rust, and corrosion while maintaining appropriate viscosity over a wide operating temperature range.

APPLICATION

POWER ATF LIFE is recommended for use in

- Automatic transmissions requiring DEXRON® IID performance level
- Torque converters
- Power steering systems where ATF is specified
- Hydraulic systems requiring ATF-type fluid
- Older model vehicles specifying DEXRON® IID

BENEFITS

- Smooth and reliable gear shifting
- Good oxidation and thermal stability
- Effective wear protection for transmission components
- Protects against rust and corrosion
- Good low temperature fluidity
- Maintains clean transmission system
- Stable friction performance

PRODUCT DATA SHEET

PERFORMANCE

DEXRON IID

Specification

Test Parameter	Units	Test Limits	Test Method
Appearance	-	C&B	Visual
Color	-	RED	
Density @ 15°C	g/cm ³	0.87	ASTM D-4052
Viscosity @ 40°C,	cSt	28 – 32	ASTM D-445
Viscosity @ 100°C	cSt	5.6 – 6.8	ASTM D-445
Viscosity Index,min.	-	185	ASTM D- 2270
Flash Point(COC), min.	°C	210	ASTM D-92
Pour Point,max.	°C	-46	ASTM D-97
Foaming character	ml/ml	0/0	ASTM D-892
Copper Strip@ 3 hrs/100°C	-	1B	ASTM D-130
CODE		607
