

DISCRIPTION

IDEAL ATF LIFE is a high-quality automatic transmission fluid formulated with selected base oils and performance additives to provide reliable shifting performance, good oxidation stability, and effective wear protection. It is suitable for automatic transmissions requiring DEXRON® IIE performance level.

IDEAL ATF LIFE is engineered to deliver dependable performance in automatic transmissions operating under normal service conditions. Formulated with carefully refined base oils and a balanced additive system, it provides stable friction characteristics, smooth gear engagement, and protection against wear and corrosion.

The formulation offers good resistance to oxidation and thermal degradation, helping to minimize sludge and deposit formation. Its balanced viscosity ensures proper lubrication across a wide temperature range, maintaining transmission efficiency and extending component life.

APPLICATION

IDEAL ATF LIFE is recommended for use in

- Automatic transmissions requiring DEXRON® IIE performance level
- Torque converters
- Power steering systems where ATF is specified
- Hydraulic systems requiring ATF type fluid
- Older model vehicles specifying DEXRON® IIE

BENEFITS

- Smooth and reliable gear shifting
- Good oxidation and thermal stability
- Effective wear protection for transmission components
- Protects against rust and corrosion
- Good low temperature fluidity
- Maintains clean transmission system
- Stable friction performance

PRODUCT DATA SHEET

PERFORMANCE

DEXRON II E

Specification

Test Parameter	Units	Test Limits	Test Method
Appearance	-	C&B	Visual
Color	-	RED	
Density @ 15°C	g/cm ³	0.87	ASTM D-4052
Viscosity @ 40°C,	cSt	36 - 40	ASTM D-445
Viscosity @ 100°C	cSt	6 - 9	ASTM D-445
Viscosity Index,min.	-	155	ASTM D- 2270
Flash Point(COC), min.	°C	190	ASTM D-92
Pour Point,max.	°C	-38	ASTM D-97
Foaming character	ml/ml	0/0	ASTM D-892
Copper Strip@ 3 hrs/100°C	-	1B	ASTM D-130
CODE		601
