

The logo for KION is displayed in white against a black background. The word "KION" is written in a bold, sans-serif font. The letter "K" is stylized with three concentric, wavy horizontal lines that curve upwards and outwards. The letter "I" is a simple vertical line. The letters "O" and "N" are formed by a series of concentric, wavy horizontal lines that curve inwards, creating a circular shape for the "O" and a more open, dynamic shape for the "N".

WALL & CEILING |

RUVO

Aluminum body.

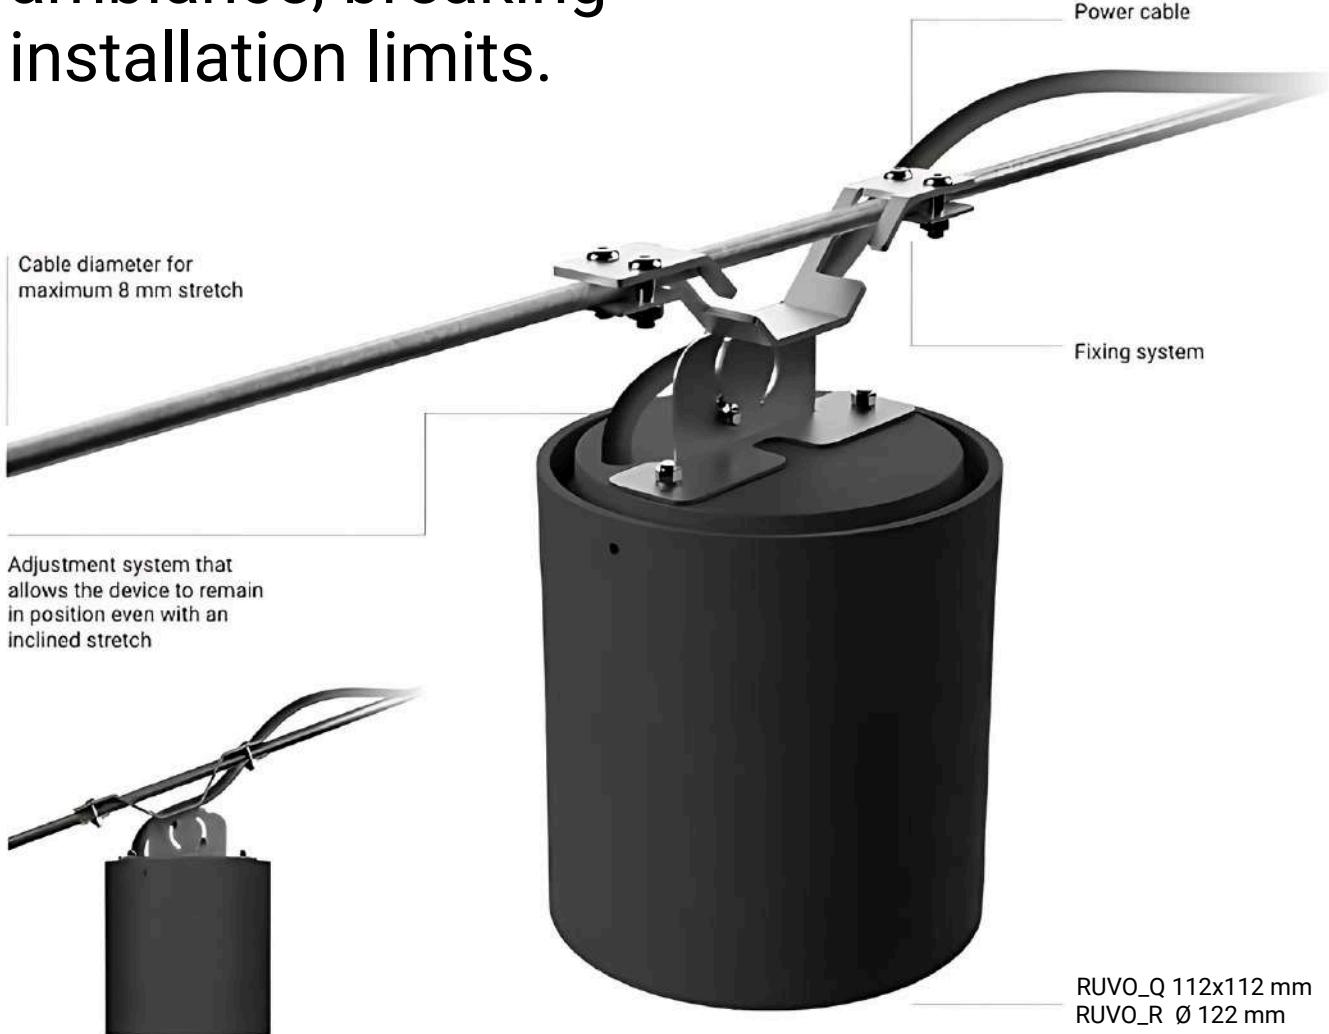

Clean geometric line

Ideal for outdoor lighting in homes, hospitality, and urban areas.

RUVO transforms ambiance, breaking installation limits.

Simple Innovation

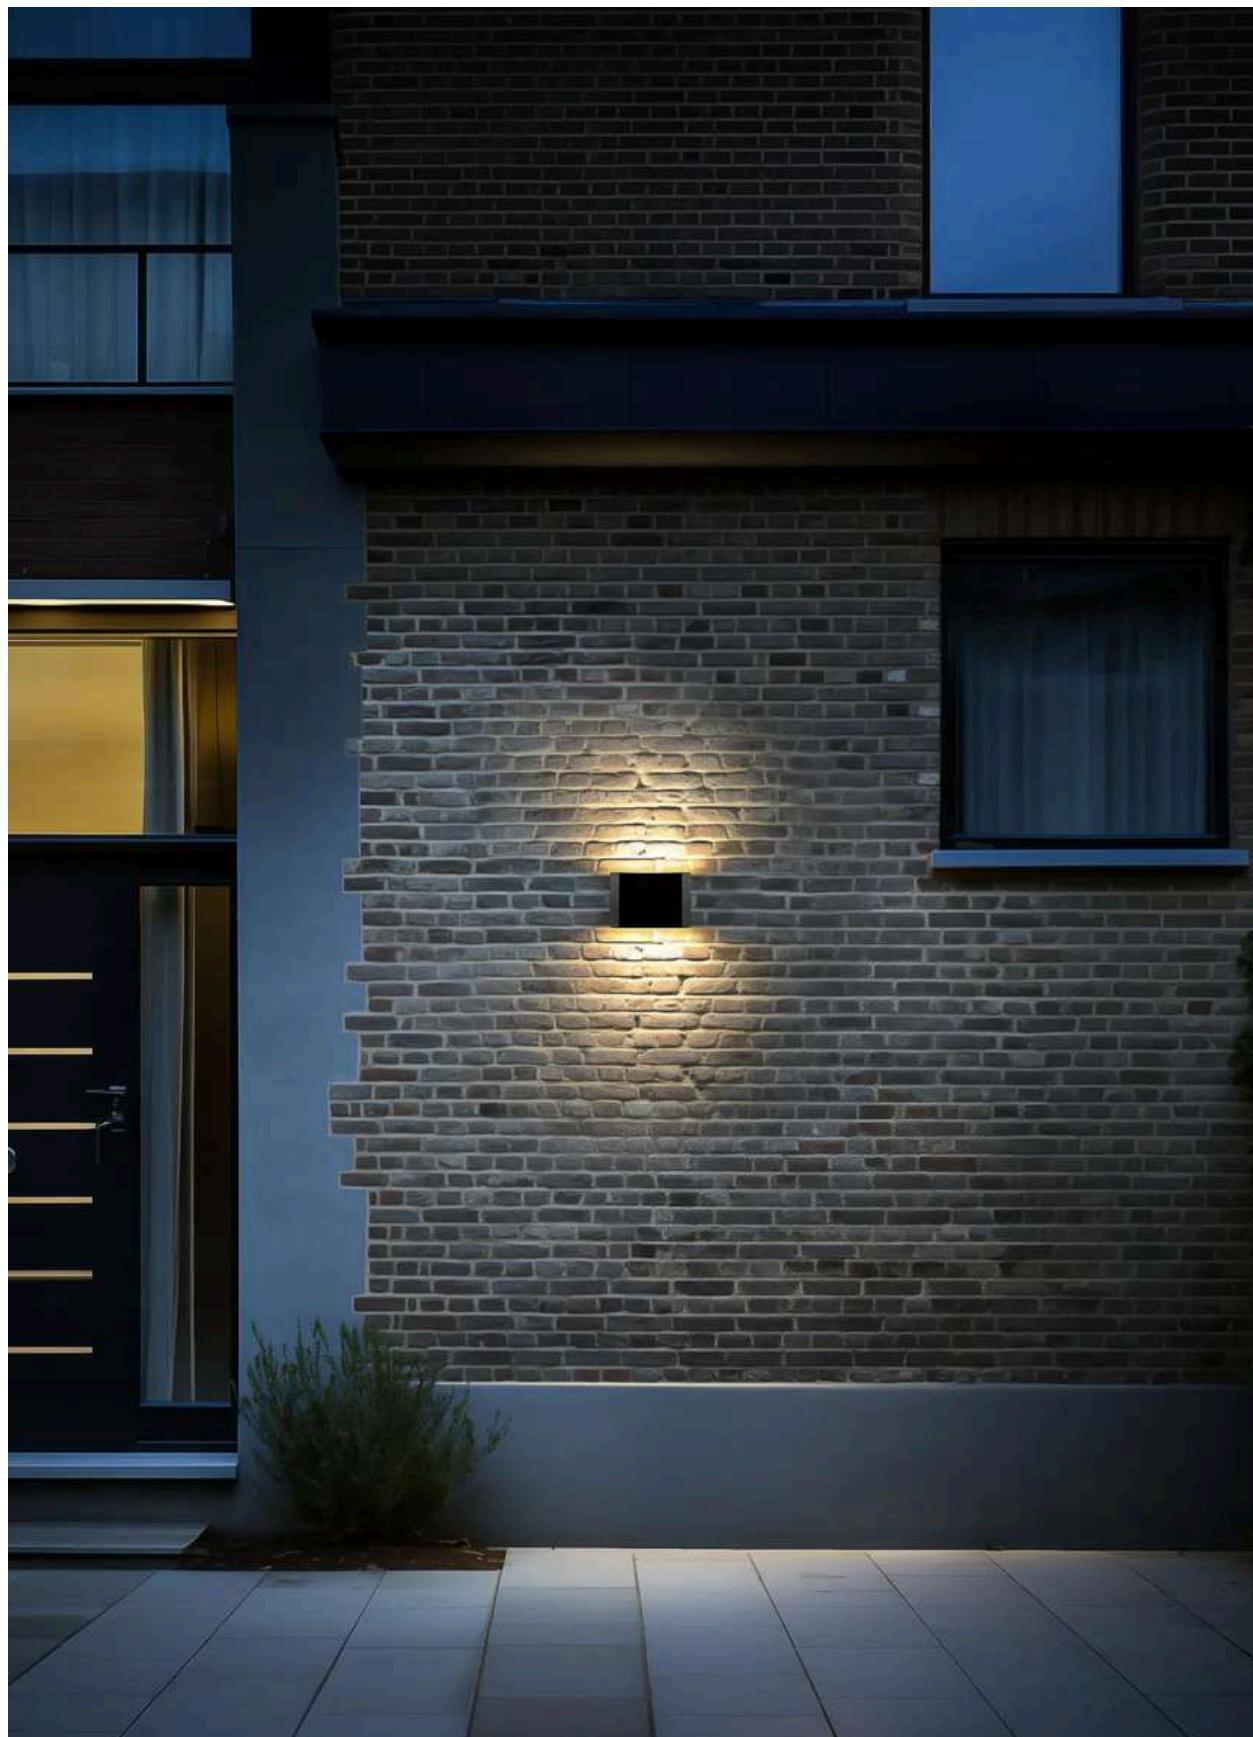

RUVO is a parallelepiped outdoor ceiling light with a clean, linear design that fits any setting. Available in three sizes and power levels, it offers four optics and three finishes.

MODIO

Complete adaptability and seamless integration

MODIO enhances flexibility with an innovative template allowing continuous modules set at precise 10° steps. Modules can tilt up to 60°, guided by the template under the casing. This anchoring system lets you mix fixture configurations, creating striking lighting scenes adaptable to any architecture—even delicate or historic—without major changes, ensuring uniform and respectful illumination.

Extra-clear tempered glass diffuser

Extensive Selection

This product offers versatile mounting options: flush floor, wall, ceiling, semi-recessed, or surface mounted. Skin's luminance-controlled optics come in various finishes. Its embossed black aluminum body is elegant and fits any exposed environment.

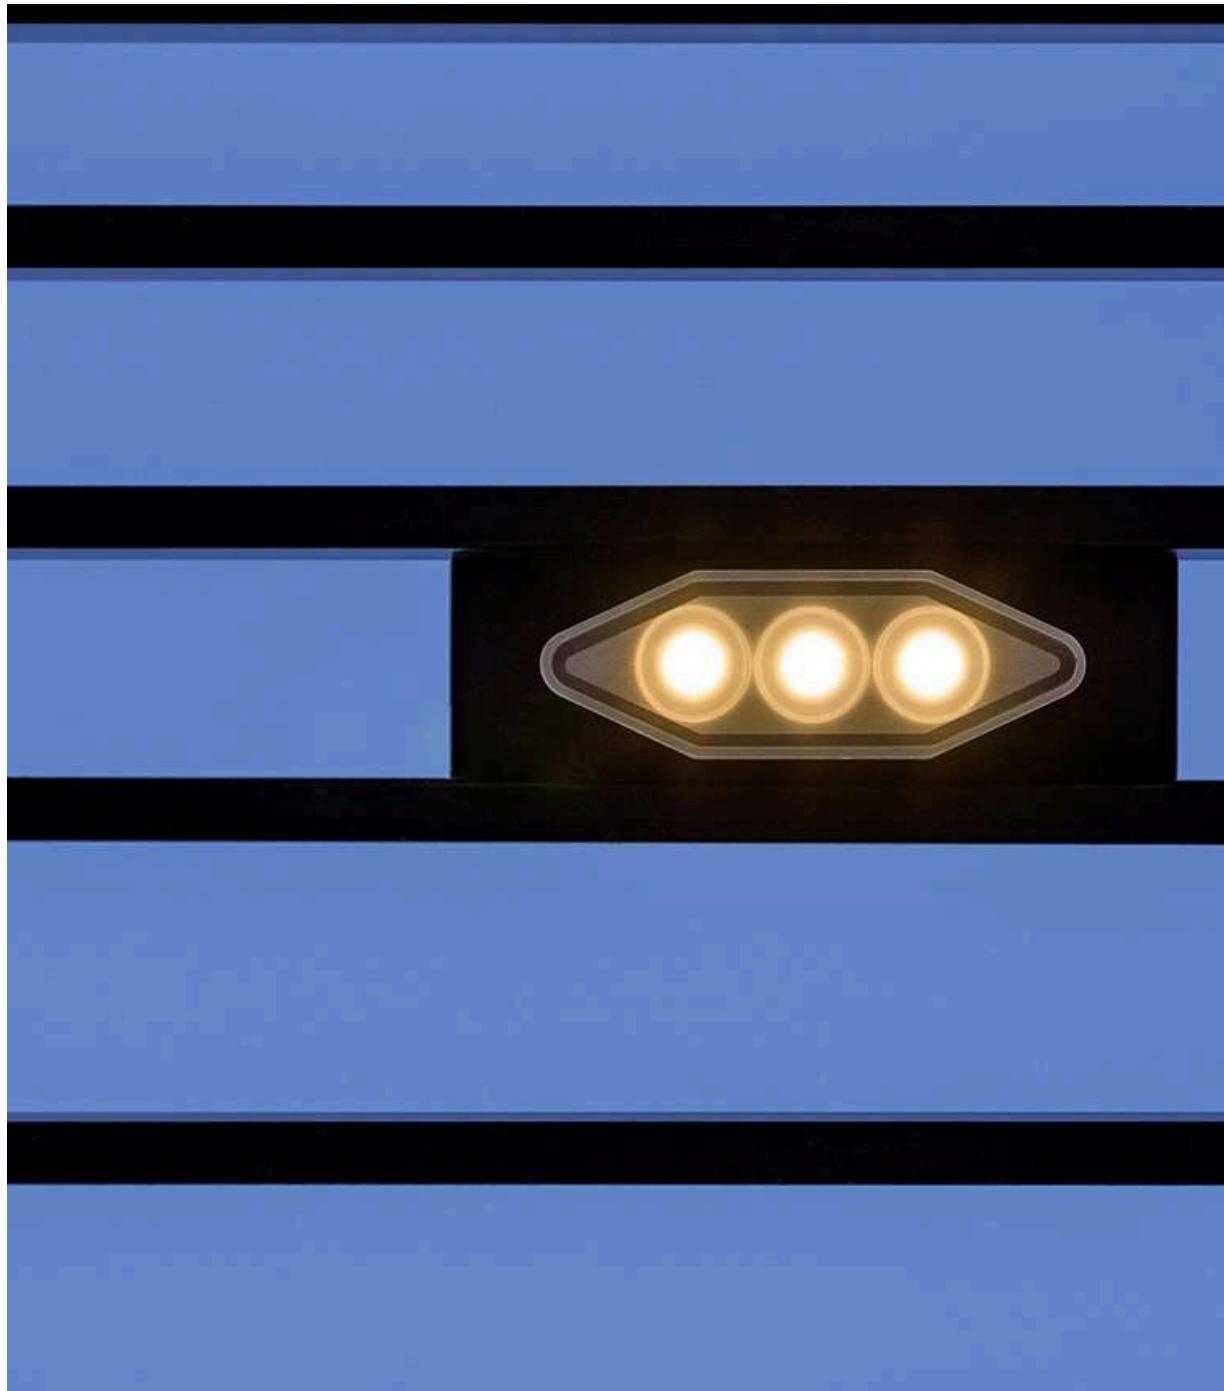

To every project, its own light

MODIO's special template creates smooth or circular light lines that adapt to curved pillars and walls. Precise installation and optic spacing prevent light drops, allowing tailored lighting for each area. With various apertures (spot, flood, wide-flood, general, asymmetric), MODIO suits complex settings. Its small, elongated hexagonal shape enables combining multiple configurations seamlessly.

MODIO: Stylish and Practical

A modular, versatile IP67 outdoor luminaire with an elongated hexagonal shape, ideal for seamless linear designs that highlight complex architectural perimeters.

MODIO Wall: Shape Your Light Your Way

Striking by day, efficient by night

The MODIO collection now includes a wall-mounted version featuring an elongated hexagon shape in two widths (160 and 210 mm) and three light options: symmetrical, asymmetrical, and diffused. MODIO_W offers versatility with various optics and finishes. Its slim design adapts to any setting, with neutral colors that blend or contrast with walls. Together with the SKIN series, it ensures cohesive, harmonious aesthetics in every project.

Blend or Contrast: Finishes That Speak

MODIO W comes in five neutral finishes—White, Grey, Black Grey, Black, and Dark Brown—letting designers either blend it seamlessly into architecture or create striking contrast. This dual approach enhances both the fixture's look and its light

ARTO: The Stars of Your Projects

White (WH)

Grey (GG)

Black (BB)

Dark Brown (DB)

ARTO is a key luminaire that stands out with clean design and advanced lighting technology. Its recessed lower optical cell in the PRO version spreads light widely without glare. With various options, designers can create balanced compositions, highlighting architectural features or adding luminous patterns to urban spaces.

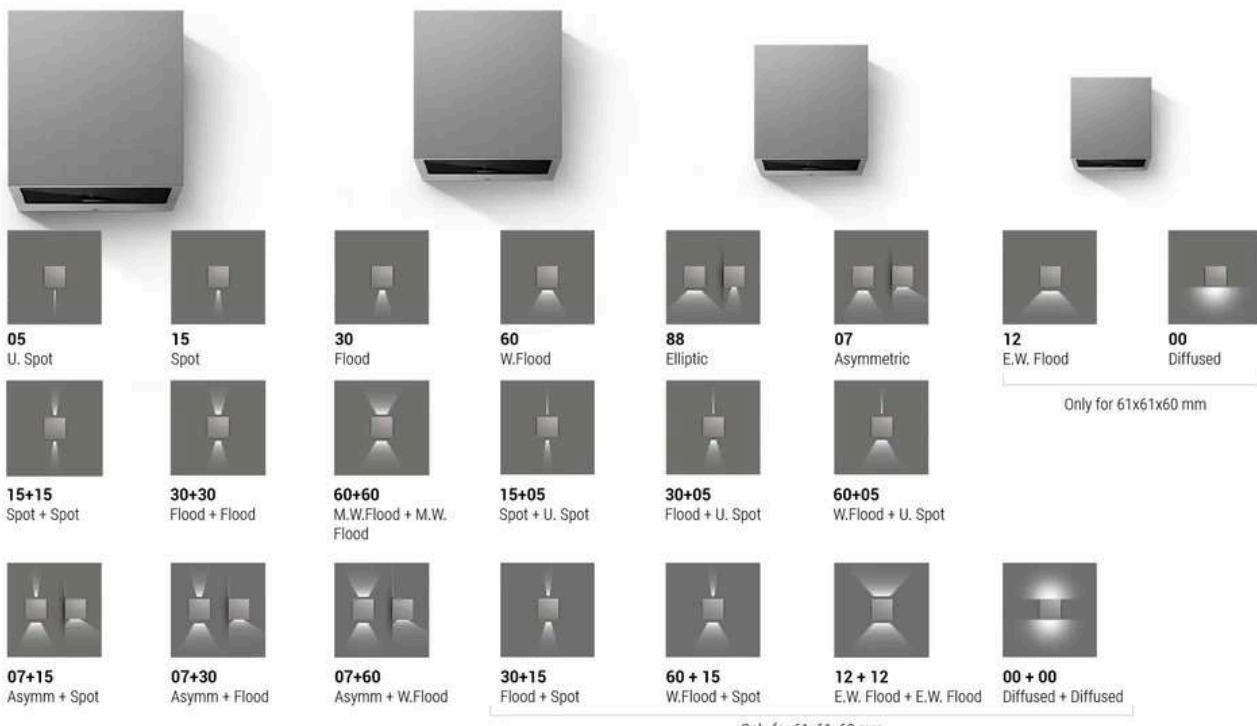

ARTO Pro Cell Optics: recessed, efficient, high-performing

Designed for optimal comfort with black cell optics, this recessed setup reduces glare for better visual comfort. Its unique design permits installation only in a downward position.

Four options for limitless lighting effects

ARTO Pro offers broad optical versatility, adding new lighting effects. Beyond standard spot, flood, wide flood, and diffuse optics, it includes asymmetrical and direct versions with recessed optics featuring darklight microcells, enhancing visual comfort.

Highlight architectural features

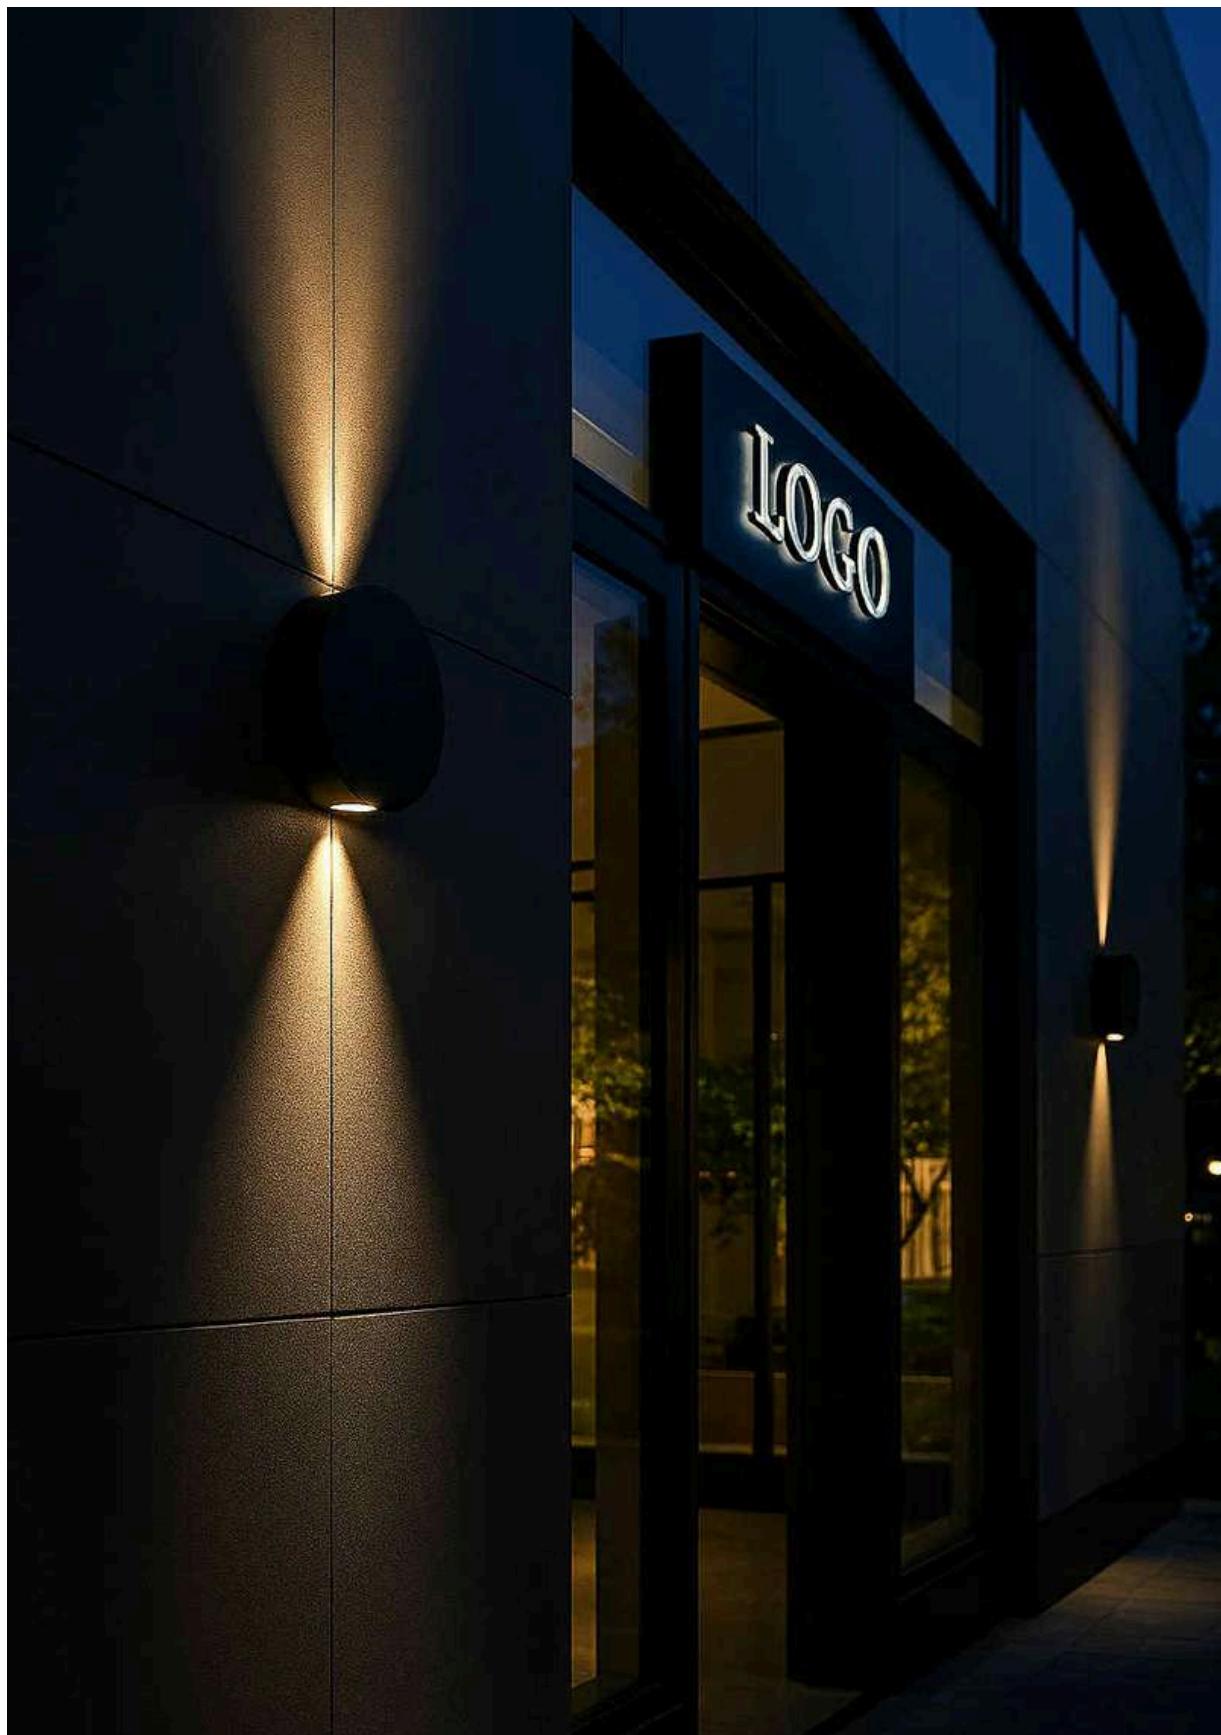

ARTO highlights unique architectural features or transforms urban spaces with glowing signs and patterns on walls.

VERO

Aluminum body.

Square design

VERO is a minimalist wall light in square or circular form, offering single or double emission for striking light effects. Its powerLED comes in four power levels, delivering warm, energy-efficient light. With adjustable optics angles, beam size and aesthetics can be tailored. Features include a resin-coated driver, neoprene cables, and an anodized aluminum body.
