

The logo for KION is displayed in white against a black background. The word "KION" is written in a bold, sans-serif font. The letter "K" is stylized with three concentric, wavy horizontal lines that curve upwards and outwards. The letter "I" is a simple vertical line. The letters "O" and "N" are formed by a series of concentric, wavy horizontal lines that curve inwards towards the center, creating a circular effect.

# CEILING WALL SUSPENSIONS |

# VIA SLIM

Structure in aluminum.

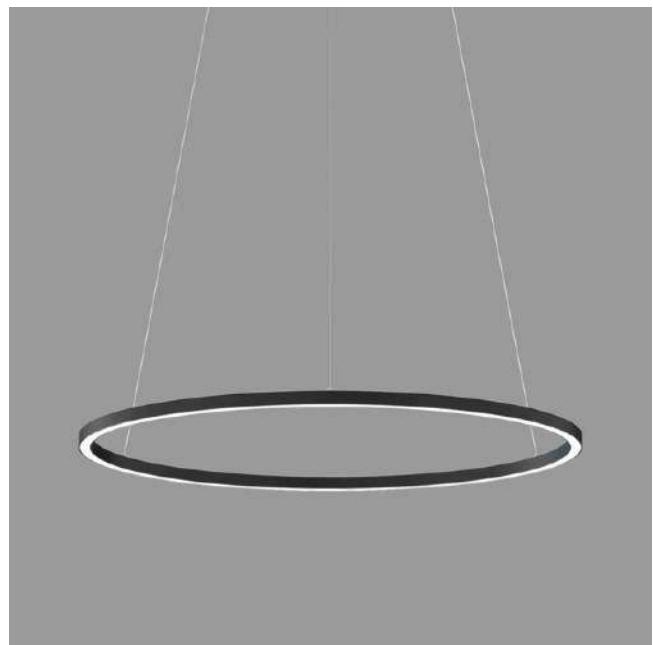

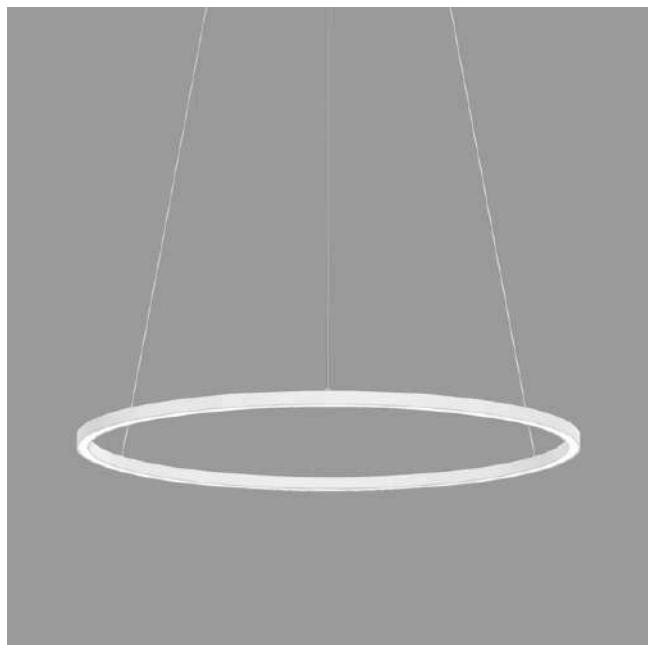

AXION

Remote  
driver

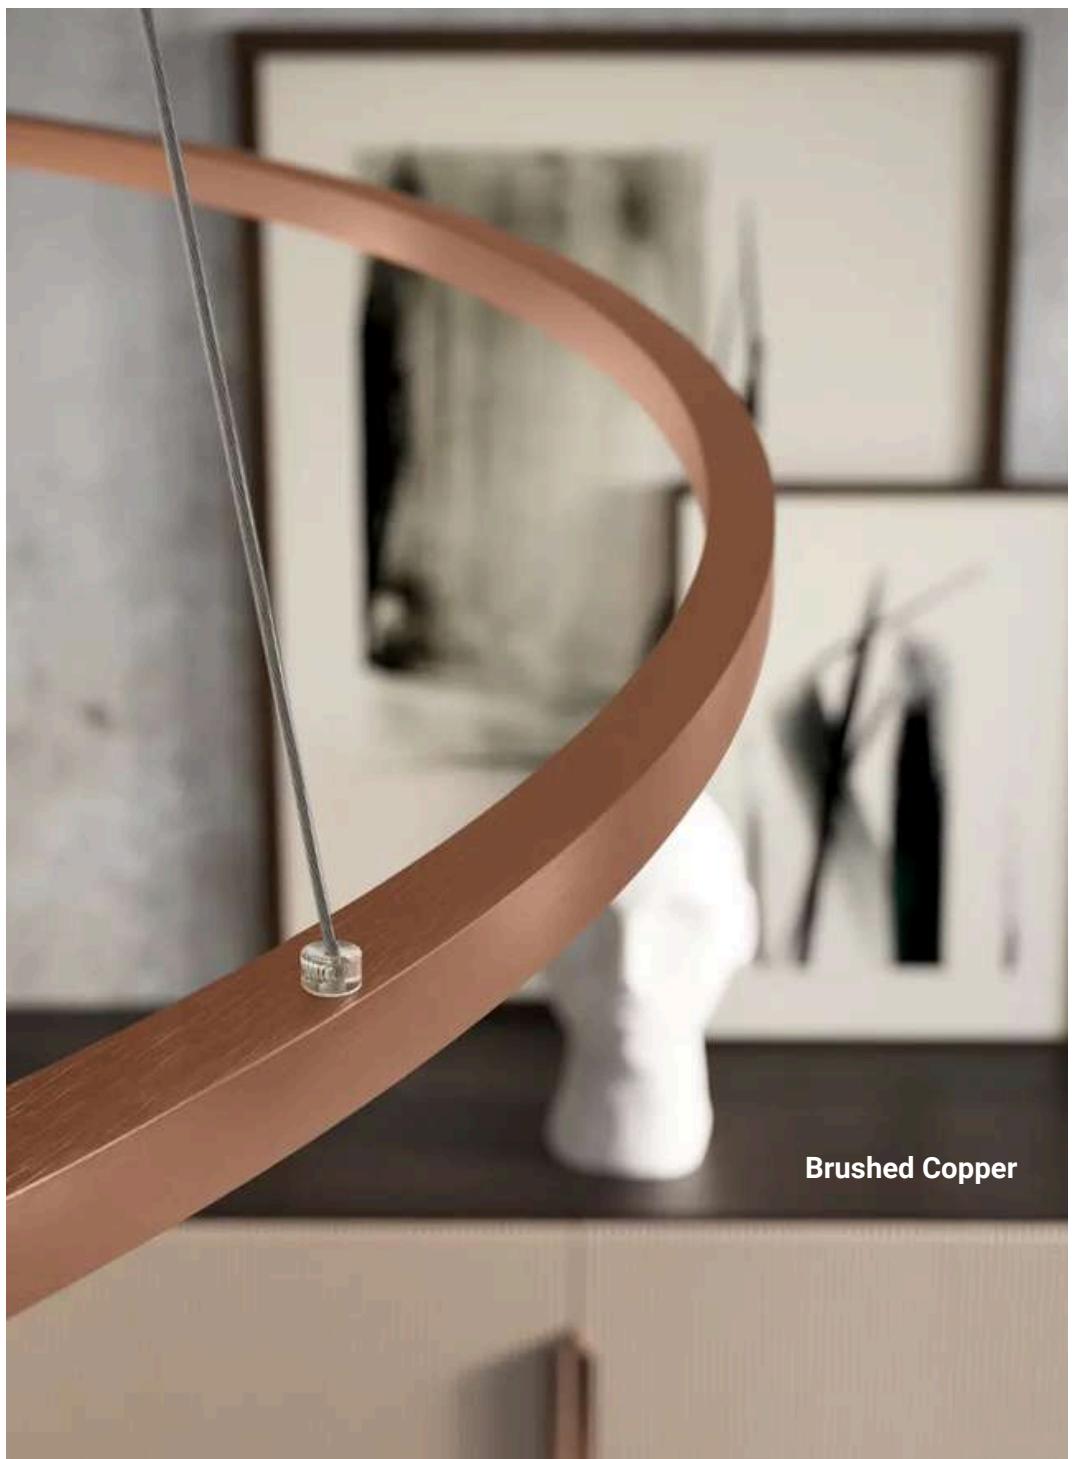

Features a flush opal diffuser for superior visual comfort, eliminating glare and side spill.

REFINED AND MINIMALIST FINISHES: EMBOSSED WHITE, EMBOSSED BLACK, GOLD, AND BRUSHED COPPER.

**Flexible sizes and colors..**

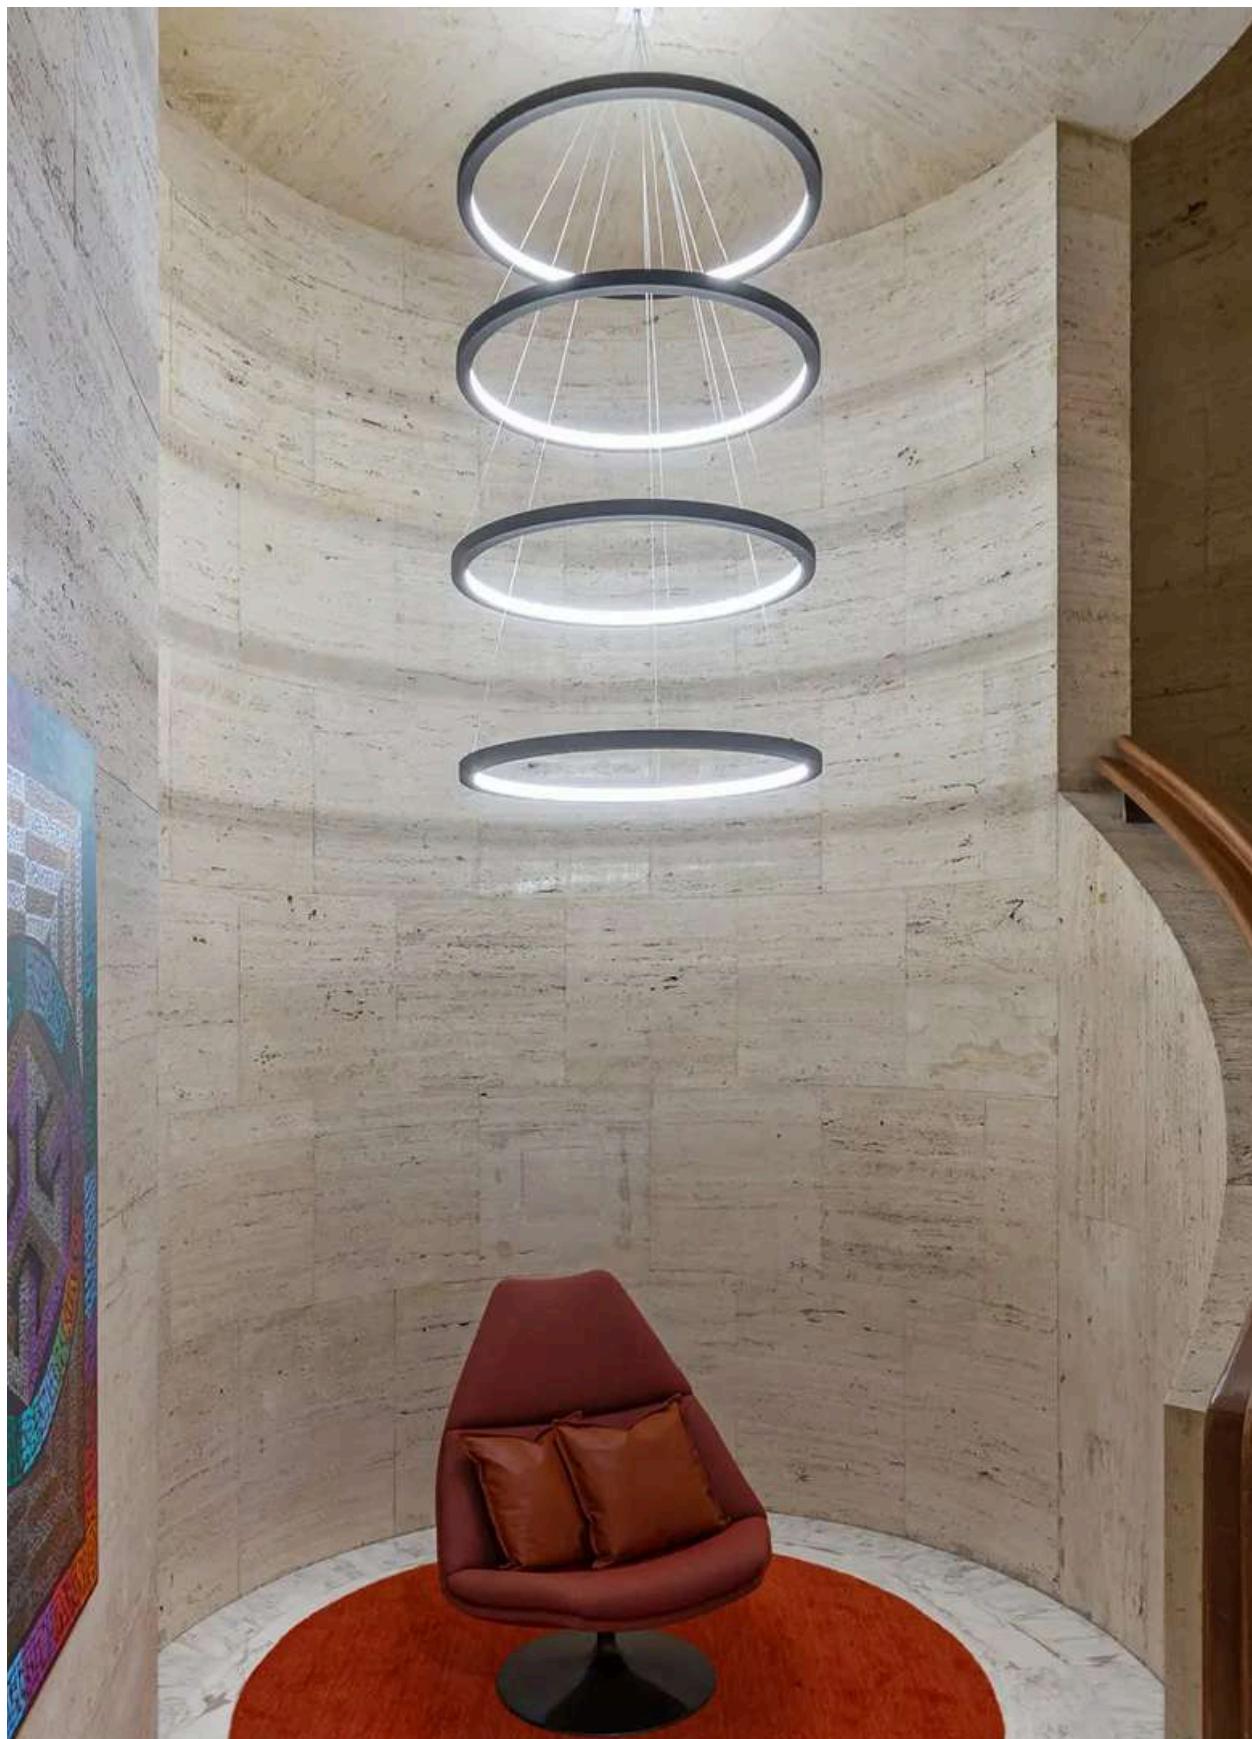

**Brushed Copper**

# VIA

Structure in aluminum.

AXION

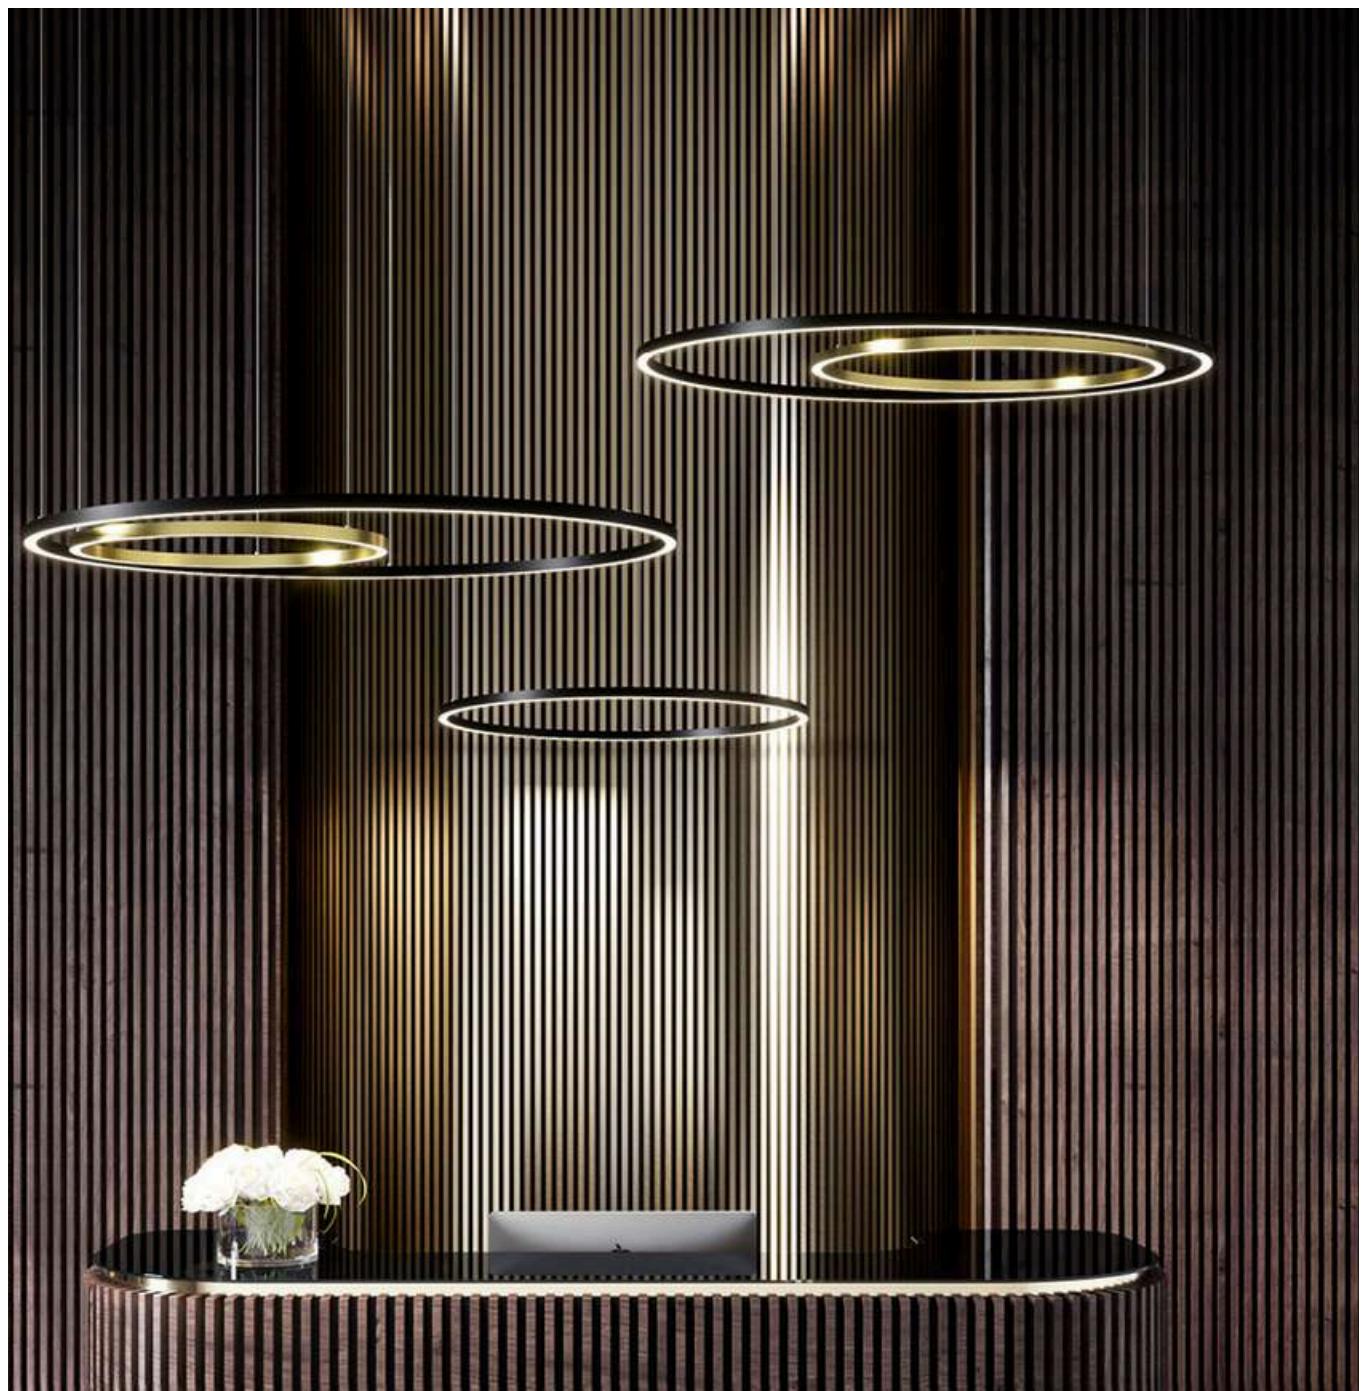

# Emission Range

VIA uses precision cut-off microcells to provide focused, glare-free lighting with high visual comfort. For accent needs, Alure supports add-on projectors, offering flexible and targeted illumination.

The collection includes options for diffuse, direct, indirect, lateral, and dual-emission lighting. These four emission styles can be mixed and matched, allowing designers to create immersive, minimalist lighting environments.

Offers creative freedom through varied heights, angles, diameters, and finishes.

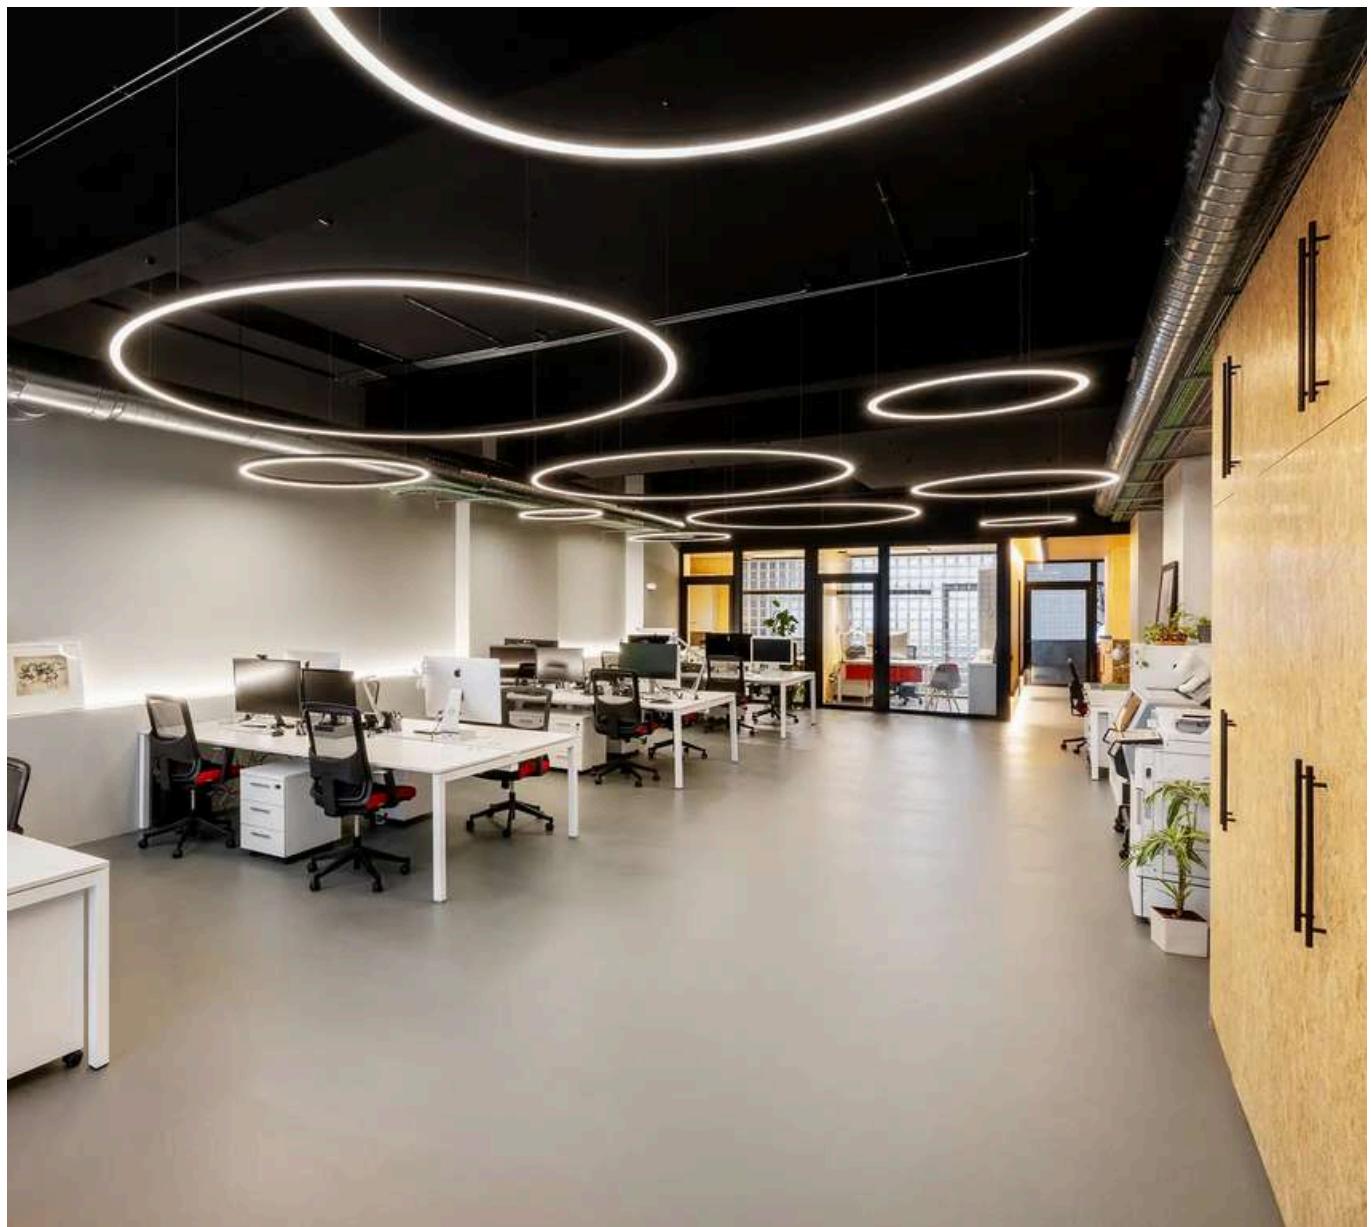

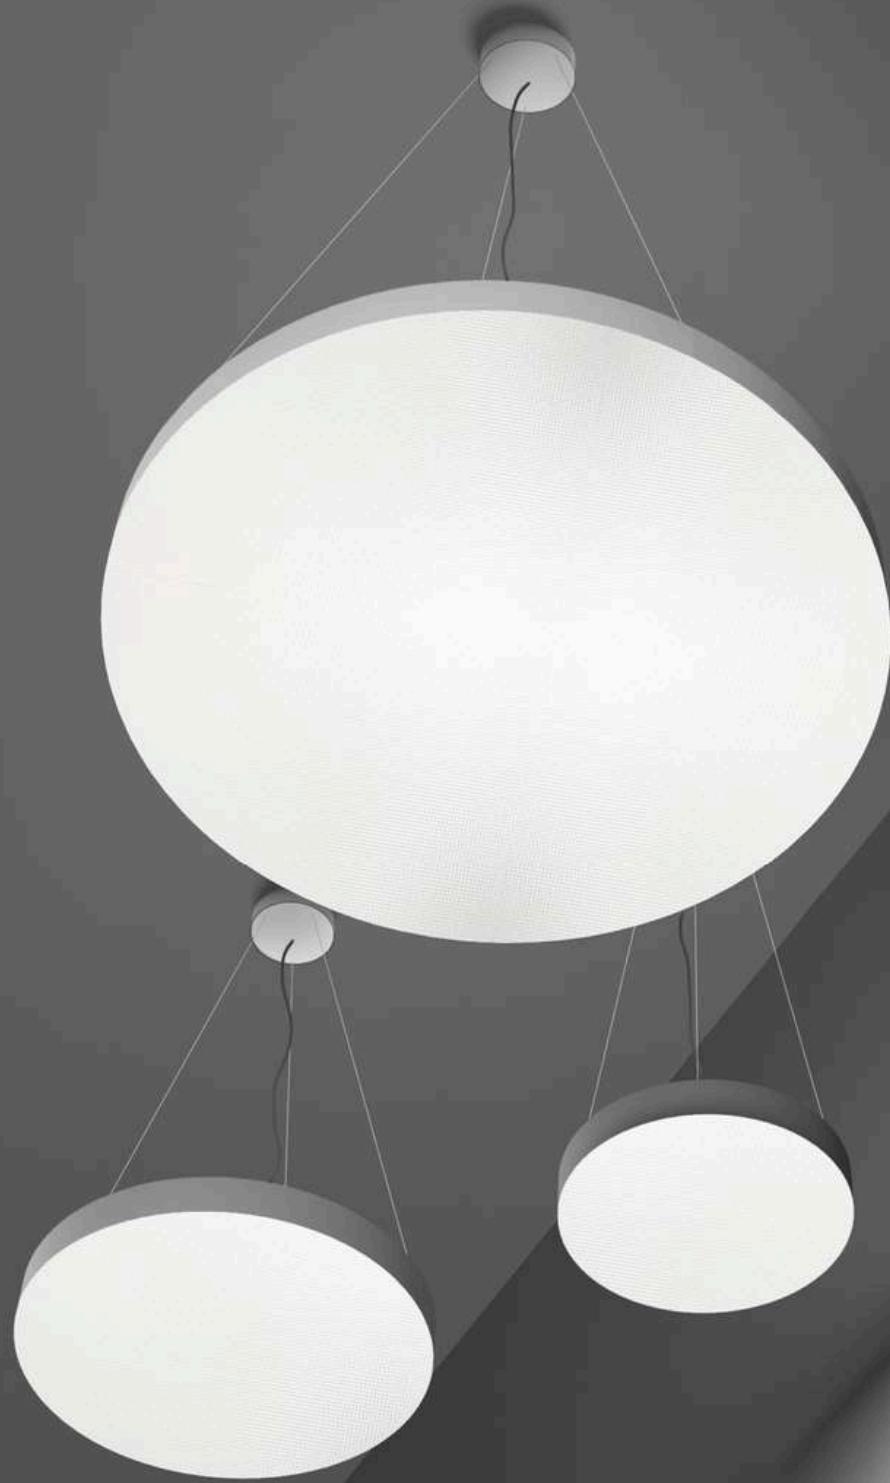

AXION

# VICO: Streamlined Design. Engineered for Performance.

Lighting technology and design precision combine to deliver refined visual comfort through simple, geometric forms that create striking scenography effects.

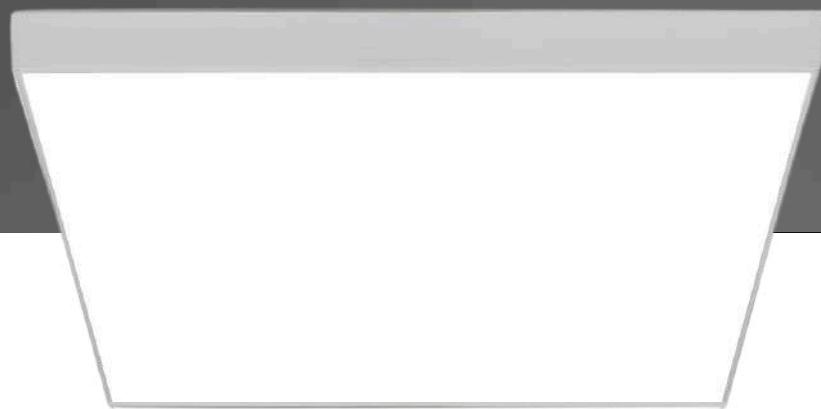

LEDs with efficiency  
up to 170 lm/W.

65 mm frame  
dimension

Diffuser available  
in fabric or micro-  
prismatic with  
UGR > 19.

# Square version

Pure diffused light

## No more horizontal shadows

VICO is a high-definition system delivering flawless, even lighting across its wide surface, with no dark spots and perfectly vertical floor projection.

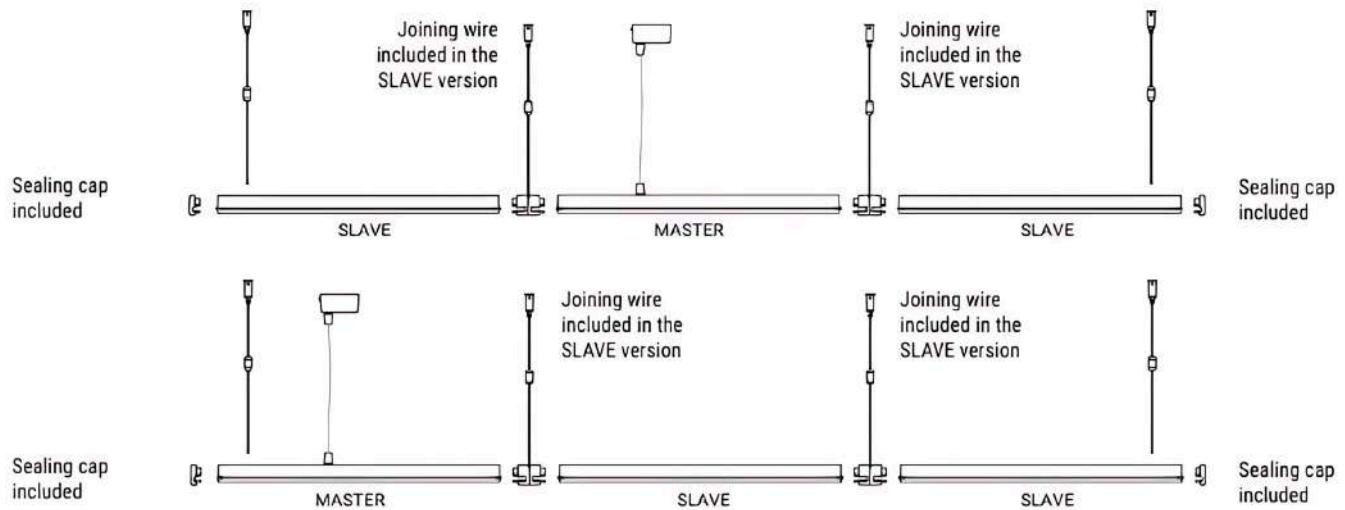

# PASSERO

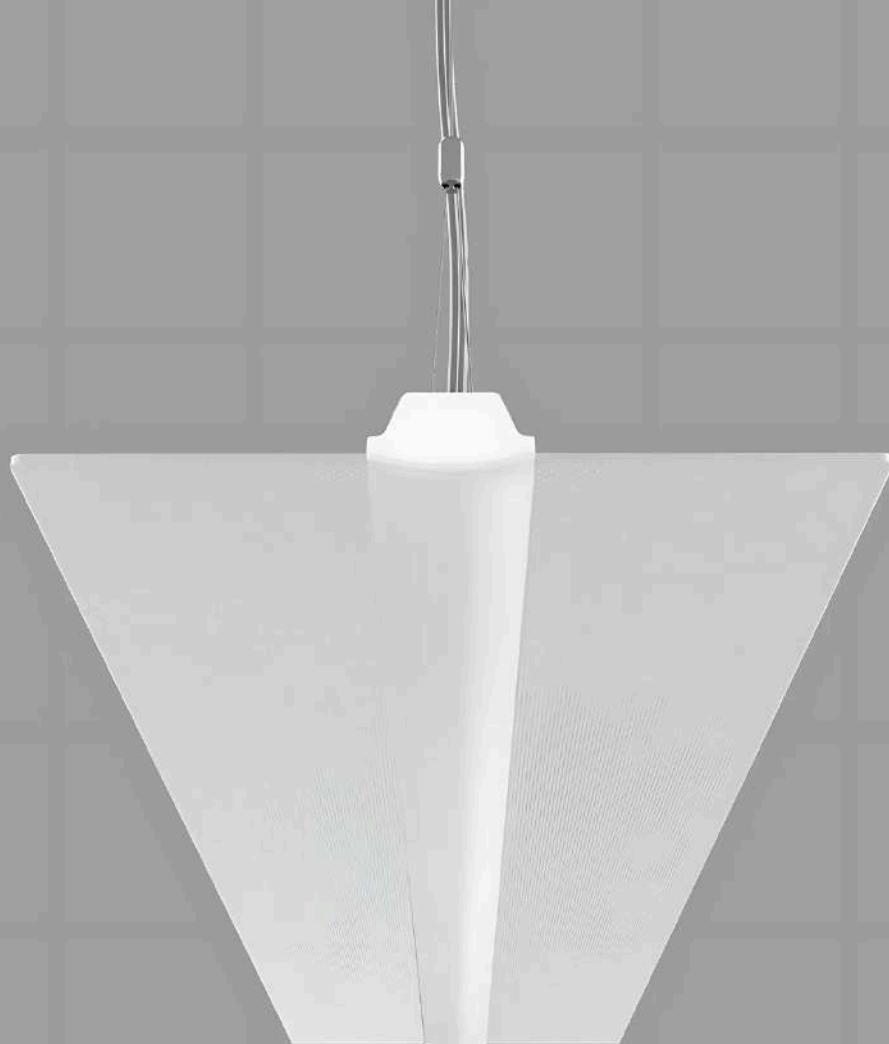

Aluminum body  
PMMA diffuser

AXION

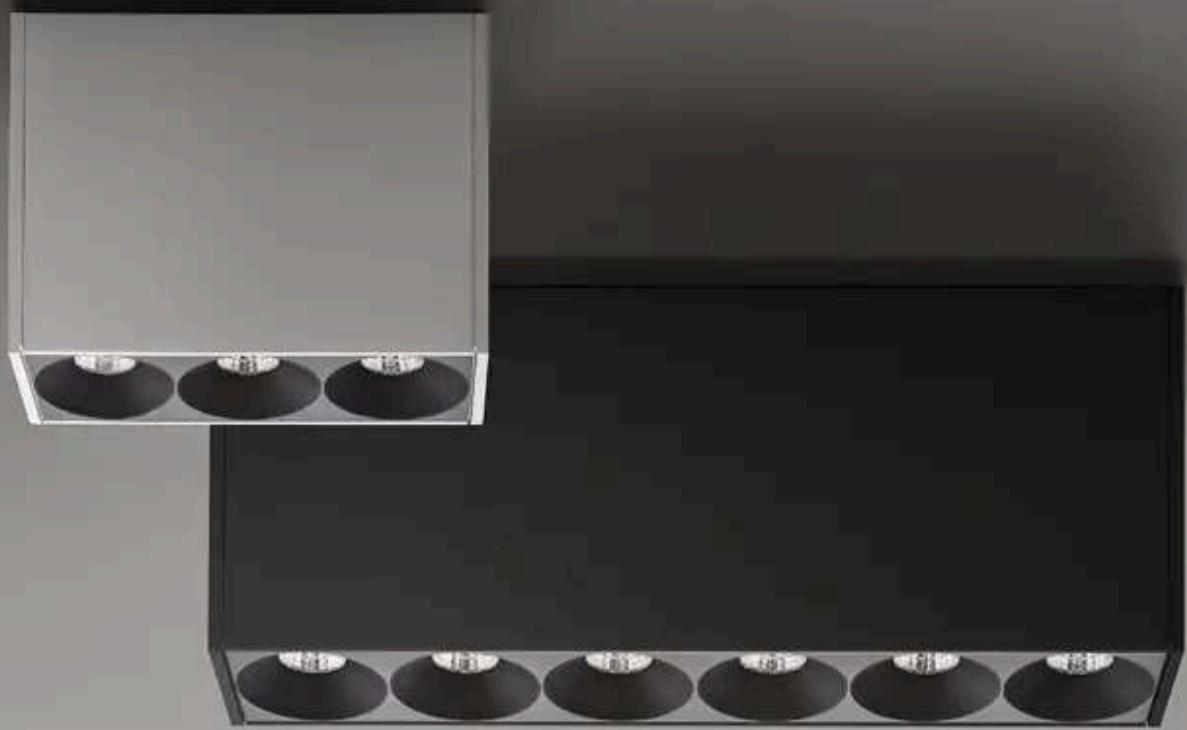

# Installation Example

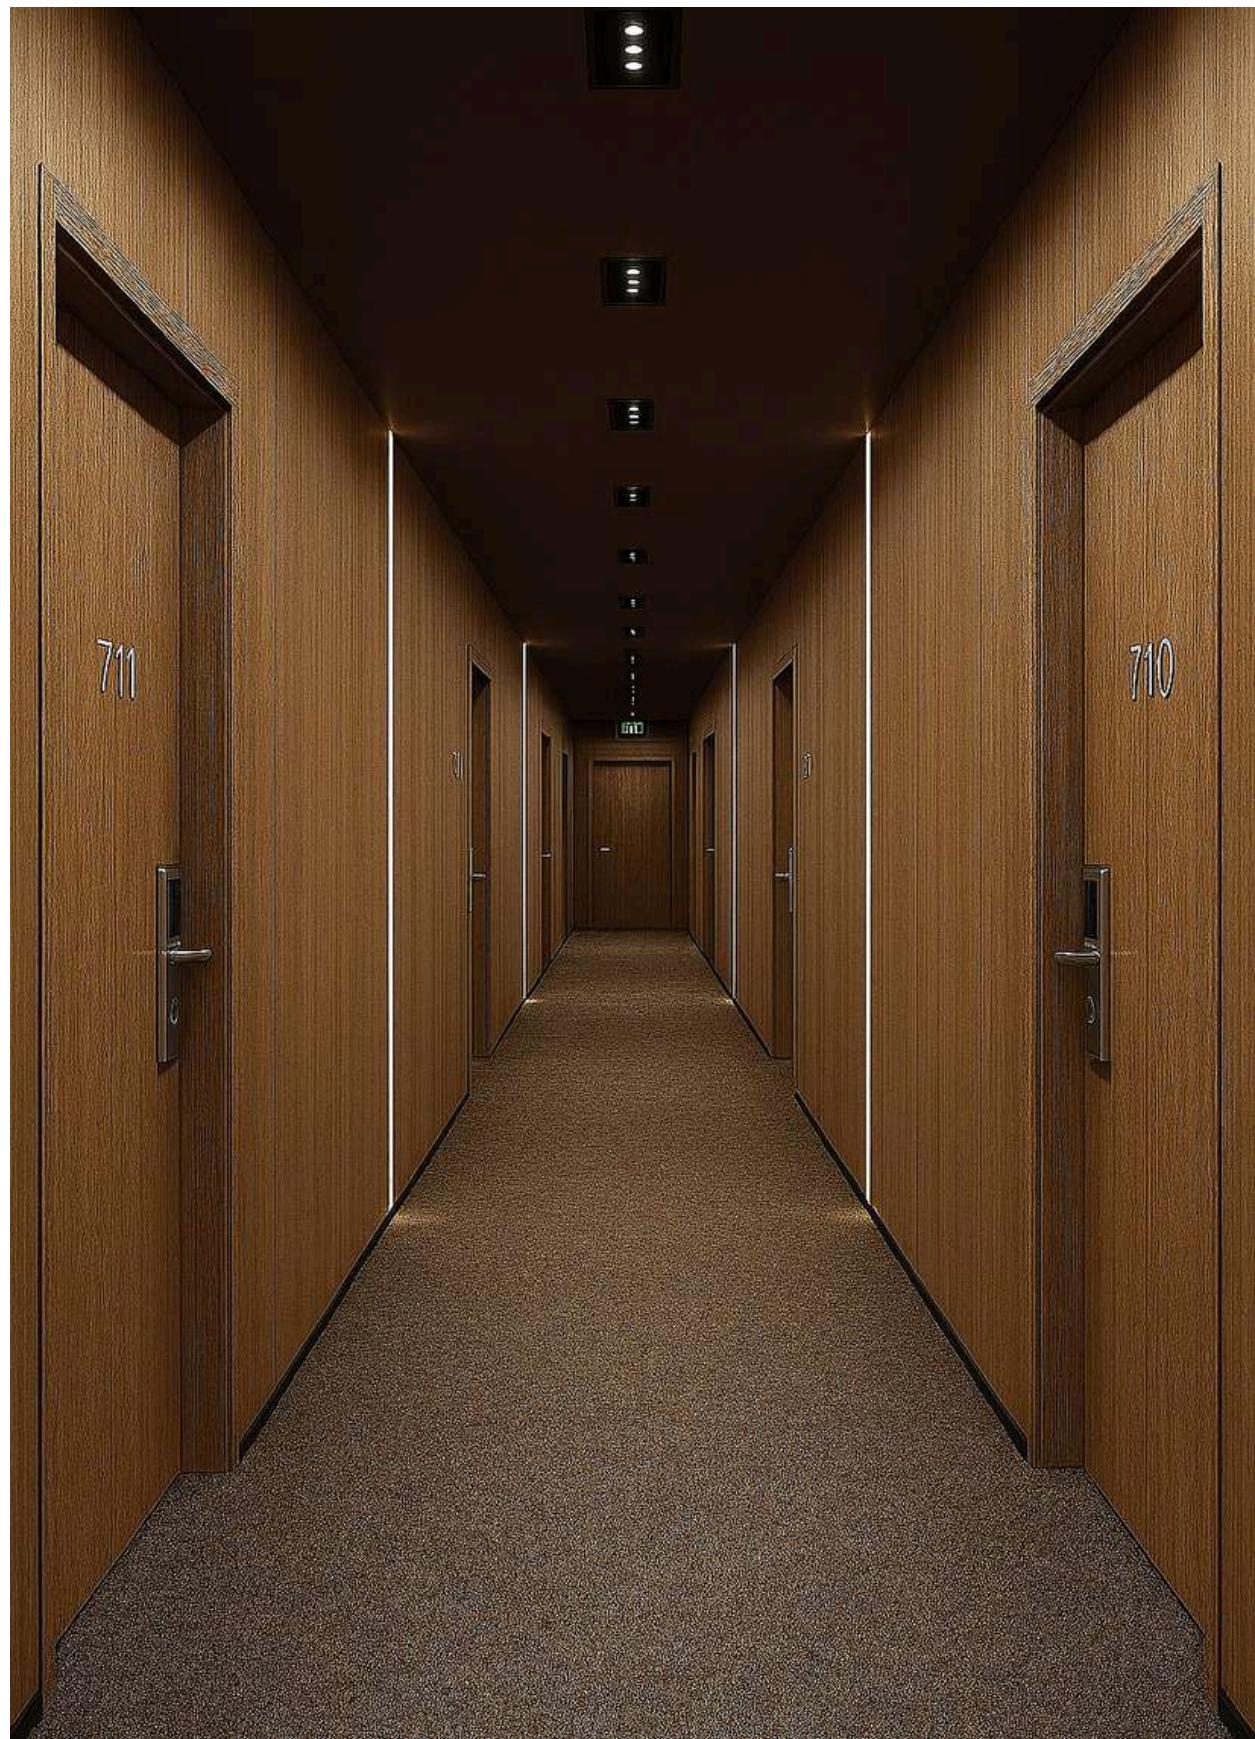

# Direct and indirect emission

The dual-emission design ensures balanced lighting: 55% is directed evenly downward, while 45% provides indirect light for overall ambient illumination.

# MODI-D

Aluminum body

# SOFFI

Aluminum fixtures in matte white or black,  
with reflector optics for high visual comfort.

**Advanced Optics for  
Ultimate Design Flexibility**

# Family Feeling

Explore SOFFI's pendant version—ideal for design consistency and seamless integration.

Matte white or black finishes let the luminaires blend into any space, while subtle black and gold accents inside the optics add a refined, distinctive look.

With its minimalist design, it blends easily into any space. The precision reflector in the optics ensures excellent visual comfort and precise light control.

# CONTROLLED EMISSION

High-contrast lighting with a built-in lens that produces sharp-edged beams to define illuminated subjects.

AXION

# GIO\_P

Aluminum body.

AXION

# FOCUSED POWER

Intense illumination right where you want it.

# CHIODO

Aluminum body.  
Diffuser in polycarbonate.
