

# LUCINO-B2

Surface Ceiling-Mounted LED

**Lucino B2** is a robust, IP65-rated surface-mounted LED ceiling light engineered for reliable performance in both indoor and exposed environments. Built with an aluminum body and opal PC diffuser, it delivers uniform, wide-beam illumination while maintaining a clean, contemporary appearance. Designed to withstand dust and water ingress, Lucino B2 is ideal for corridors, entrances, balconies, wash areas, stairwells, and semi-outdoor applications where durability is critical. Equipped with efficient OSRAM SMD LEDs and a stable internal driver, it provides consistent light output with low maintenance requirements. Available in multiple wattages and sizes, Lucino B2 offers a practical, long-lasting lighting solution for residential, commercial, and hospitality projects requiring dependable IP-rated performance.
