

LIDO

Recessed Adjustable LED Spotlight

LIDO is a precision-engineered recessed LED spotlight range designed for refined architectural interiors. The series covers round and square formats, available in single and double-head configurations to support both focused accent lighting and balanced multi-beam illumination. With selectable beam angles and a clean, minimal trim, LIDO delivers controlled light exactly where it is needed—ideal for residential, hospitality, retail, and gallery environments. The robust heat-sink design ensures thermal stability and consistent performance, while multiple wattage and size options allow seamless integration across ceiling types and layouts. LIDO is built for projects that demand flexibility, visual comfort, and a sharp architectural finish without compromise.

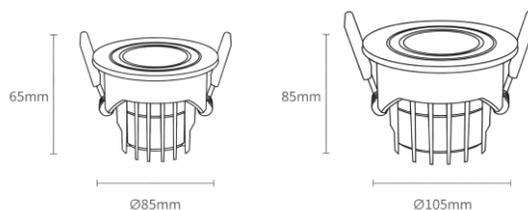

TECHNICAL DATA

| | |
