LED Strip Light

**GALA PRO 140** is a high-efficiency LED strip light designed for continuous, uniform illumination in architectural and linear lighting applications. Featuring 140 LEDs per meter and a 24V DC system, it delivers consistent brightness, excellent color stability, and smooth light distribution with minimal voltage drop. Its flexible construction allows easy integration into coves, profiles, and concealed installations, making it suitable for both residential and commercial environments where clean, precise lighting is required.

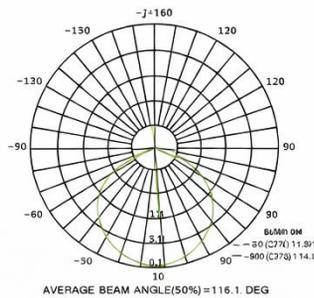

## Dimension

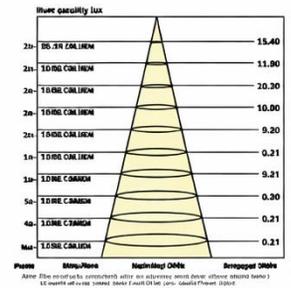

Model No. 7011140

High efficacy lumen output. SDCM≤3 to ensure color consistency.

## Light Distribution Curve

## Average Illuminance

## 2835 LED RA90 120LM/W

All LEDs use copper base and gold wire which provide good heat dispersion, long life span and low luminous decay.
