

GALA SMD SLIM 240 10W

SMD Slim Linear Strip Light

GALA SMD SLIM 240 – 10W is a super-narrow LED strip designed for precision lighting in tight and detail-driven installations. Its slim profile allows seamless integration into confined architectural features, while the highly flexible bending radius enables smooth curves and clean lines without visual breaks. Equipped with SDCM ≤ 3 , it delivers consistent color output across the run for a refined, uniform appearance. Supplied as IP20 for indoor applications, it can be upgraded to IP65 for enhanced protection in damp or semi-exposed environments, making it a versatile solution for both decorative and functional lighting needs.
