

RUVOS

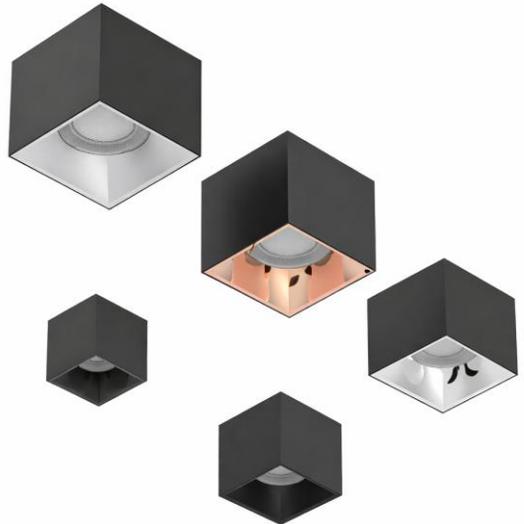

Surface-Mounted Square LED Downlight

RUVOS is a compact, IP65-rated surface-mounted LED downlight designed for clean architectural integration and reliable performance in demanding environments. Constructed from die-cast aluminum with a deep recessed optic, it provides excellent glare control while delivering precise, comfortable illumination for both accent and general lighting applications. Powered by high-quality COB LED technology, RUVOS offers consistent output, high efficiency, and long operational life. Available in multiple wattages, beam angles, and square housing sizes, it is ideal for residential, hospitality, retail, and semi-outdoor applications where durability, visual comfort, and minimalist design are required.
