Solution Overview

Real-time Insights and Alerts on Service Part Deliveries

Get accurate delivery dates and real-time alerts to manage inventory, reduce loaner expenses and deliver an exceptional service experience.

Your dealership's service department is the foundation of your customer experience and increasingly, a valuable source of margin. Yet, when services staff and parts managers order parts--and don't know when the deliveries will arrive--they're left in the dark…which leads to increased loaner expense and unhappy customers.

Introducing PartView, real-time updates and insights on part deliveries. PartView provides order-level visibility and auto-generated "intelligent ETA's" from the supplier or point of order, along with proactive notifications on short, backorder or damaged shipments.
