

FLAT POLISH & MITER CUTTING MACHINE ALL-IN-ONE

# MITERSPLASH

EDGE POLISHER

IT'S TIME FOR LESS COST AND MORE MACHINING

## ELITE ENGINEERING

Made for convenience with Italian components, the MiterSplash ensures easy operation. It polishes 4" backsplashes, handling pieces up to 120" by 100" countertops with miter cutting efficiency.

## MAX+ PRODUCTIVITY

The MiterSplash is a unique flat edge polisher and miter seam cutting machine. It accommodates up to 3" thick materials and operates at a standard speed of 2-3 linear feet per minute.

## ASSURANCE

Fabricators trust the MiterSplash for quality and efficiency. It boasts polishing rates 8-10 times faster than manual polishing.

## GO BIG OR GO HOME

Designed for 4" backsplashes or huge islands, it includes a floater system for a completely polished flat edge. The V-Groove model adds a second miter cutting motor for strip and groove cutting in the mitered surface.
