

# Corrus™ Roofing and Cladding

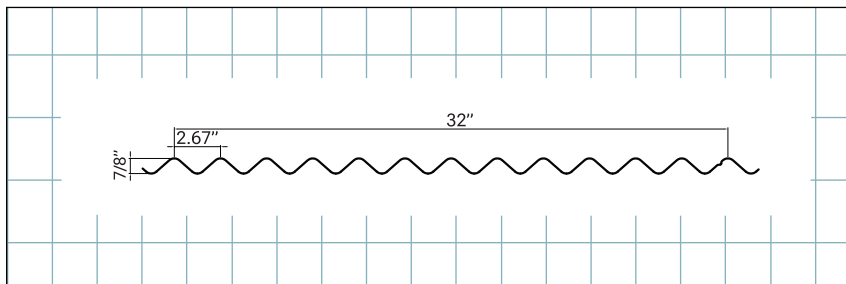

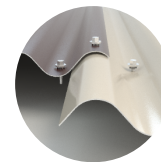

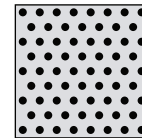

## EXPLANATIONS

The **Corrus™** panels can be used for both roof and wall applications. **Corrus™** profile offers a more pronounced corrugation and increased span capability over most corrugated panels. It is installed horizontally or vertically with exposed fasteners. The panel is available in smooth, stucco embossed, standard and custom perforated texture, depending on material. Ideal applications are walls, mansards, equipment screens, and design projects.
