

Wearable BLE Asset Tag

UNIVERSAL TAG

PRODUCT DESCRIPTION

The Universal Tag Is a BLE tracking terminal designed to keep an eye on your loved ones and to track or even recover lost personal items without the need for a SIM card. With a size akin to a wrist-watch dial and a lanyard or key ring hole, it can be easily worn by pets children or the elderly, or attached to backpacks luggage, key chains etc. Powered by a replaceable 210mAh CR2032 battery, it provides up to 12 months of standby time.

APPLICATIONS

- Pet Tracking and Protection
- Personal Item Tracking
- Keychain Tag

FEATURES

- Compact Size
- Global Connectivity
- Replaceable Battery
- IP 65 Water & Dust Resistance
- Audible Finding
