

# 7.5 HP Heavy Duty Reciprocating Compressor Parts

| Item Number | Parts Description             | Part Number                                                |
|-------------|-------------------------------|------------------------------------------------------------|
| A           | Air Receiver                  | 80 Gal vertical IAT-300559<br>80 Gal Horizontal IAT-300569 |
| B           | Pressure gauge                | IAT-PSB20                                                  |
| C           | Belt guard after cooler       | IAT-M-15AL                                                 |
| D           | Low Oil monitor               | IAT-3353102-D                                              |
| E           | Inner cooler safety valve     | IAT-ST25-70                                                |
| F           | Compressor Pump               | IAT-CA2 (SEE PUMP DIAGRAM)                                 |
| H           | Compressor pump intake filter | IAT-ST25-250                                               |
| I           | Belts                         | IAT-B70                                                    |
| J           | Drive motor pulley            | IAT-LP2B875                                                |
| K           | Drive motor pulley hub        | IAT-LPH1/18                                                |
| L           | Drive motor                   | IAT-L1510T 1 PHASE<br>IAT-EM3311T 3 PHASE                  |
| M           | Magnetic starter              | IAT-8911DP5G23V09 3 PHASE<br>IAT-8911DP5G42V09 1 PHASE     |
| N           | Operating pressure switch     | IAT-LF10-1H3                                               |
| O           | Tank Safety valve             | IAT-ST25-200                                               |
| P           | Automatic tank drain          | IAT-WV1                                                    |

## Compressed Air Systems

Simplicity. It's What We Do.
