

# 5 HP Rotary Screw Compressors

| Item Number | Parts Description                            | Part Number                                                |
|-------------|----------------------------------------------|------------------------------------------------------------|
| A           | 80 Gallon tank                               | IAT-300559 (VERT), IAT-300569 (HORZ)                       |
| B           | High pressure switch                         | IAT-LF10-1H3                                               |
| C           | Pressure gauge                               | IAT-PSB20                                                  |
| D           | Operating pressure switch                    | IAT-LF10-1H3                                               |
| E           | Oil filter                                   | IAT-R-9206                                                 |
| F           | Airend                                       | IAT-NK30                                                   |
| G           | Sump safety valve                            | IAT-ST25-200                                               |
| H           | Airend intake filter                         | IAT-R-9213                                                 |
| I           | Airend separator                             | IAT-R-12476                                                |
| J           | Airend control solenoid                      | NK30 SOLINOID                                              |
| K           | Belt                                         | IAT-3VX500                                                 |
| L           | Belt guard                                   | IAT-BG5X18X32X10                                           |
| M           | Air/Oil Cooler (Elite)<br>Oil Cooler (Basic) | IAT-R-14366                                                |
| N           | Cooler Fan                                   | IAT-026034C441                                             |
| O           | Motor pulley                                 | IAT-2-3V8.00                                               |
| P           | Electric motor                               | IAT-131457 (3 PHASE)<br>IAT-131537 (1 PHASE)               |
| Q           | Compressor temperature switch/gauge          | IAT-20TE2504                                               |
| R           | Magnetic motor starter                       | IAT-8911DPSG13V09 (3 PHASE)<br>IAT-8911DPSG32V09 (1 PHASE) |
| S           | On/Off switch                                | IAT-ZB4-BD2 IAT-ZB4-B2101                                  |
| T           | Electronic auto drain (Elite only)           | IAT-ET20M21TB                                              |

## Compressed Air Systems

Simplicity. It's What We Do.
