

ACC Bridging Credentialing Pathway Programme

Programme Overview

The ACC Bridging Programme is built around achieving measurable outcomes that align with ICF Professional Standards, Ethics, and Core Competencies. By the end of the programme, participants are equipped not only with foundational coaching skills but also with coach-practitioner level mastery required to drive meaningful, sustained impact.

The programme is structured into three key phases.

- **Phase 1** provides learners with Core Coaching Education, laying a strong foundation in the ethics of coaching, the coaching mindset and the competencies for effective coaching.
- **Phase 2** has learners engage in Mentor Coaching and Coaching Practicum, refining their skills through real-world coaching, peer practice, feedback and feedforwarding.
- **Phase 3** involves the final performance evaluation at the ACC standards, where learners must demonstrate minimum skill requirements of an ACC level proficiency standard to attain eligibility for ACC credentialing.

*This programme is designed for participants who have completed at least **40 hours of coach-specific education**.*
