NEWSLETTER

June 2026

Dear Parents and Guardians,

May was awesome! The students learned a lot by conducting basic research on how animals use their bodies and behaviors to survive. Then they used the information they collected to write an informative/expository essay. They are excited to keep reading and writing. They also wrote a short, friendly letter to a second grader, showing them how to add big numbers by breaking the steps down and making it easy to follow.

Classroom Highlights

Literacy

Students will learn about what it takes to make a successful invention

Math

Students will continue to work on solving addition and subtraction problems with multi-digit numbers using place value

Writing

We began our opinion writing on ways students can improve their schools by reading a variety of texts to find facts and details to support our reasons and claims

Science

Children are learning about the life cycle of worms

Social Studies

- Civics
- America's Independence

Upcoming Events

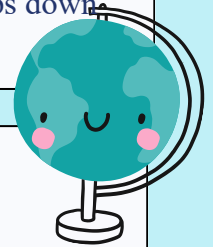

JUNE 1- 3RD GRADE SCIENCE INVESTIGATION PROGRAM

JUNE 2- CAREER DAY FAIR

JUNE 3- KINDERGARTEN TRIP TO LEGOLAND

JUNE 4- SCHOOL CLOSED FOR STUDENTS

JUNE 5- SCHOOL CLOSED FOR STUDENTS

Attendance

Our school takes attendance each morning at 8:10 am.

When a student has not arrived by 8:15 am, the family will be called at 9:00 am, 11:30 am, and 1:00 pm
