Scheme near canal!

OMBRE' is a colours of shades of Greens' and they all are same at the same time different! let's carry this 'Notion' to all beautiful Gardens in this beautiful plotting scheme.

Architect &  
Landscape Designer

This sketch shows how the architect sees Ombre.

The plots are set along the canal and shaped like shades of green—each one slightly different, yet part of the same landscape. The layout moves with the canal, not against it, keeping things natural and open.

It's not just land, it's a quiet space to grow, breathe, and feel at home. The idea was clear: every plot should feel connected, yet free to be itself.
