Engineering of Homes

Deep Group has a rich history of building spaces, shaping dreams and inspiring lifestyles. Having developed imposing edifices in Ahmedabad, with unique structural engineering and great precision in planning and implementation, the group has always initiated ambitious projects. Since 1980, the veteran group always seeks to develop residential and commercial buildings that define the architectural excellence of the city, while ensuring the happiness of its residents too.

Our stringent business values and ethics have set high standards consistently. We have built high-rise apartments, low-rise flats, bungalows, shopping centres, farm houses and much more, being responsible for housing 5,500+ families with 21,000+ people under a luxurious canopy that they desire. Every element and every facade is rooted in our promise of safety, security and the well being of every family too.

THE ARCHITECT'S VISION

Every residential project that we engineer relies in ideal location for intended residents, serene natural environment, useful amenities and a strong USP highlighting the value behind every innovation.

Our newly-designed Indraprasth Greens, banks on a robust vision that blends the intricate engineering of interior design, choicest of building materials as well as design elements along with the art of hospitality that elevates residential abodes to the level of plush five-star suites.

THE IDEAL PROJECT

Deep Group and its team of engineers and architects always bank on the strength of their engineering ingenuity and vision to mould creative architectural ideas with robust practicality and depth. Indraprasth Greens is testimony to the immense perfection instilled in every structure and edifice, developed within the premises.

LUXURY | LIFESTYLE | PRIDE

Indraprasth Greens is one ultimate residential project that blends three tenets of Deep Group's legacy:

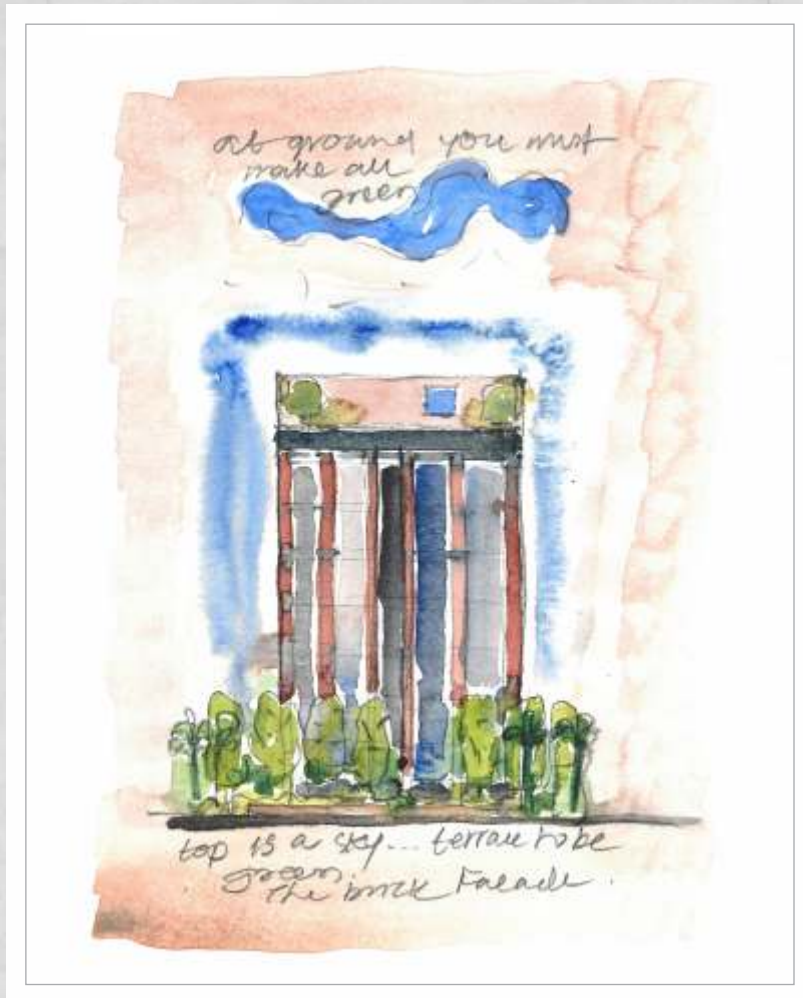

- **PRESENTING AN EMBODIMENT OF LUXURY!**
Every element within our structures, breathes luxury in its refined glory! They inspire those living under the canopy, to embrace rich taste, sophisticated glamour and subtle grandeur.
- **PRESENTING THE LIFESTYLE FOR THE FUTURE...**
Every structure that we erect, solidifies a lifestyle that will stand for future generations and enrich lives too.
- **PRESENTING A SENSE OF PRIDE AND LIVING!**
Our creations instil pride in living, and command respect from others. No structural magnificence is complete until it affects its resident's personality and becomes one with their identity.
