

## Technician

**La Rochelle (Lagord), France**

### **Join Genevos – Powering the Future of Clean Maritime Energy**

At Genevos, we are on a mission to decarbonize the maritime sector. Our cutting-edge fuel cell technologies replace polluting combustion systems with clean, high-efficiency energy solutions, helping the shipping industry move decisively toward net-zero emissions.

We design and industrialize modular power systems that convert alternative fuels such as hydrogen, LNG, and methanol into electricity with exceptional efficiency and dramatically reduced emissions. Joining Genevos means contributing to innovative technology that makes a real-world environmental impact.

### **Why Work with Us**

Genevos is a fast-growing, mission-driven company where ownership, creativity, and collaboration define our culture. You'll work alongside passionate engineers, technologists, problem-solvers, administrators, and leaders tackling high-impact challenges that advance sustainable maritime transport.

If you're motivated by innovation, energized by responsibility, and eager to contribute to meaningful environmental progress, you'll thrive at Genevos.

### **The Role**

As our company continues to expand, we are seeking a motivated production technician with the potential to advance to the role of assistant production manager to support our rapid growth. This is a key position to strengthen the production team and boost our performance. Reporting to the production manager, your main responsibilities will include:

- Ensuring the assembly of products, including electrical, mechanical, and cooling system components
- Receiving packages, as well as preparing and shipping them.
- Managing parts and production using an ERP system
- Potentially managing contractors, particularly for building maintenance
- Providing product installation support and after-sales service at customer sites (both in France and abroad)
- Managing the workshop in the absence of the Production Manager
- Assisting the Production Manager

### **Qualifications & Experience**

- **Education:** Minimum two years of post-secondary education or equivalent (preferably in electrical engineering)
- **Experience:** Initial experience in an industrial setting

▪ **Technical Skills:**

- Strong knowledge of electrical systems (electrical certification is a plus)
- Knowledge of mechanics and cooling systems
- Strong ability to read electrical and mechanical diagrams
- Ability to propose solutions during breakdowns or for improvements
- Manage inventory
- Basic understanding of 5S and/or ATEX
- Proficiency in Microsoft Office
- Knowledge of other languages would be a plus

**Personal Skills Required:**

- High autonomy, rigor, and strong team spirit, with the ability to set priorities and manage time effectively.
- Results-driven with a focus on continuous improvement.
- Strong organizational skills and ability to handle multiple tasks simultaneously.
- Excellent interpersonal skills and strong professional ethics.

**Additional Information**

- Location: Lagord, Charentes-Maritimes, 15 minutes from La Rochelle by bike.
- Contract: Permanent, full-time (open-ended).
- Salary: Starting at €32,000 - €37,000 gross annually over 12 months
- Employment status: ETAM (SYNTEC Collective Bargaining Agreement)

**How to Apply**

Send your CV and cover letter to [careers@genevos.com](mailto:careers@genevos.com). Only qualified applications will be considered. Applications are confidential. Refer to our [privacy policy](#) for details.
