

WAIVE™ SCHEDULING

THE AI TOOL THAT BUILDS YOUR SCHEDULE FOR YOU

THE PROBLEM

Scheduling is Broken

Building a shift schedule is complex. Last minute call-outs, certification requirements, labor law compliance and individual employee preferences turn planning into a daily headache – one that often falls on a single person who carries all the institutional knowledge in their head. The result? Hours lost to a grueling, manual task every week.

THE SOLUTION

MEET YOUR NEW SCHEDULER

WAive Scheduling is an AI tool built natively in WinTeam that handles the complexity of workforce scheduling automatically, so your managers can stop reacting and start focusing on growth.

From day one, WAive Scheduling accounts for everything a seasoned scheduler would know, without the single point of failure.

What WAive Scheduling Considers:

EVERY SCHEDULE, OPTIMIZED

Jobsite compliance and site-specific requirements

Employee certifications and qualifications

Labor law compliance and hour tracking

Team continuity and experience matching

Employee location and proximity to shift

Individual employee preferences

WAIVE SCHEDULING BY THE NUMBERS

THE PAYOFF

3 MINUTES

to build a complete, optimized schedule

98%

of 250+ real-world shifts scheduled automatically

~300 SHIFTS

processed per 60 seconds

When tested against over 250 real-world shifts, WAive Scheduling covered **98% AUTOMATICALLY IN JUST THREE MINUTES**

accounting for compliance, certifications and proximity every step of the way.
