ACADEMIC PROJECTS

WILSON GO – SPEAKER FOR TENNIS COURT

Summer 2026

ArtCenter College of Design / Pasadena, CA

Designed and developed a fully functional speaker from concept to physical prototype, focusing on form, component integration, and CMF. The process included 3D modeling, iterative prototyping, and final assembly. The finished speaker was selected for exhibition at the ArtCenter student gallery.

JEEP BREEZE REPEL – HIKING PRODUCT DESIGN

Spring 2026

ArtCenter College of Design / Pasadena, CA

designed a portable insect-repellent device for hikers based on user research and outdoor challenges. Through interviews and concept development, I explored how adjustable airflow and flexible attachment methods could improve comfort in different hiking scenarios.
