

Salaam alaikum,

Last Friday the 5th graders took a vocabulary and grammar test. Your child received a failing grade on the test. (6/49 or 12%). (Reflected in Gradelink you will see Sabah's grade as 30%. That is only because it is my policy that when a child receives a grade lower than 30%, a grade of 30% is recorded, regardless of the grade the child received). Your child will take the test home with her from school on Monday. Please be sure to review the test and see where you can steps at home to help your child improve.

Each Friday there will be a similar test. The vocabulary words are posted to Google classroom each week. The grammar on the test is covered each week in class, as well as covering previous weeks.

I notice that you have not logged into Gradelink. I would ask that you do so since this email is provided as a courtesy, and going forward the only way for you to receive alerts as to your child's grades will be via Gradelink. If you do not have the login information for Gradelink, please email [admin@muneeracademy.org](mailto:admin@muneeracademy.org)

Please let me know if you have any questions.

Thank you.

Catherine Hamze
