

ARTIST EPK

Camden Stewart

COMPOSER · PIANIST · OPERATIC TENOR

Original contemporary classical music

THE ARTIST

Original contemporary classical music, written for piano and voice.

Camden Stewart is a British composer, pianist and operatic tenor of Ghanaian and Jamaican heritage.

His musical life began with Libera and continued at Junior Guildhall, where he developed from a classical vocalist and pianist into a composer with a language of his own.

His work moves between intimacy and dramatic scale: reflective piano writing, an ethereal sense of space and colour, and the expressive force of the operatic voice.

Performances at London's public pianos carried his music to millions internationally. He writes, produces and performs his own catalogue.

Original compositions only.
