

DIBIOU®

Steel Parcel Delivery Box & Metal Home Storage Cabinets

OEM Manufacturing for Importers, Distributors and Private-Label Sellers

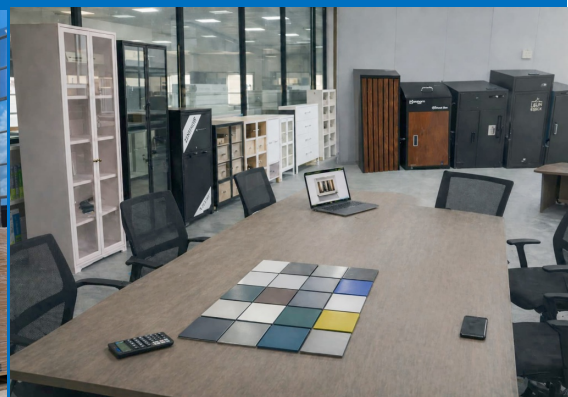

Who We Work With

We collaborate with partners who develop and scale steel storage products for overseas markets.

- Brand owners developing private-label products
- Platform sellers on Amazon, Wayfair, Walmart and other channels
- Importers and distributors
- OEM / ODM partners seeking stable manufacturing support

We focus on OEM projects requiring customization, sampling and scalable production.

Reference Product Categories

All products shown are reference styles for OEM reference and customization.

01 Parcel Delivery Boxes

Secure metal storage for residential last-mile parcel delivery.

02 Metal Shoe Cabinets

Slim metal cabinets for residential entryway shoe storage.

03 Legged Storage Cabinets

Raised metal cabinets designed for modern residential interiors.

04 Knock-down Gun Cabinets

Flat-pack steel gun cabinets for OEM firearm storage projects.

※Size, structure, color and packaging can be customized based on project requirements.

Parcel Delivery Boxes

Steel parcel delivery boxes developed for residential porch delivery, e-commerce resale, importer programs and OEM private-label projects.

Structures, dimensions and configurations can be customized based on target market requirements.

- Outdoor steel cabinet construction
- Upper parcel drop flap and lower retrieval door
- Lockable storage for residential delivery
- OEM size, lock, color and packaging options

Parcel Delivery Box Model Options

Representative structural references for OEM development and scalable production.

Model	Size (W × D × H)	Description
PB-S	430W × 350D × 800H mm	Compact porch parcel box
PB-M	500W × 400D × 980H mm	Standard home parcel box
PB-L	500W × 400D × 1150H mm	Large-capacity parcel box
PB-XL	500W × 400D × 1270H mm	Extra-large parcel box

- Upper parcel drop flap + lower locked retrieval door
- Anti-fishing internal baffle
- Outdoor polyester powder coating, fine-textured matte finish
- Key lock, combination lock or smart lock prepared by OEM
- KD or semi-assembled export carton

Recommended base models: PB-M and PB-L.

Metal Shoe Cabinets

Metal shoe cabinet structures developed as reference styles for OEM projects, designed for space-efficient residential storage and series-based customization.

- Compact cabinet structures for residential entryways
- Slim-depth and vertical cabinet configurations
- Flip-door or pull-down opening
- Steel cabinet construction suitable for flat-pack delivery

Metal Shoe Cabinet Model Options

Representative structural references for OEM development and scalable production.

Model	Size (W × D × H)	Description
MSC-W1	520W × 180D × 390H mm	Wall-mounted single flip bin
MSC-2F	500W × 280D × 930H mm	2 flip drawers
MSC-3F	500W × 280D × 1350H mm	3 flip drawers
MSC-4W	960W × 180D × 900H mm	Wide shallow 4-door cabinet

180 mm depth is suitable for shallow single-row shoe storage. 280 mm depth is suitable for standard flip-drawer shoe cabinets with optional removable 2-tier inserts.

- Ventilation holes
- Anti-tip wall fixing kit
- Smooth satin powder coating
- KD flat-pack export carton

Legged Storage Cabinets

Home-style metal storage cabinets developed as reference structures for modern residential interiors and OEM projects.

- Elevated leg structure for modern residential interiors
- Balanced proportions for living rooms, dining areas and entry spaces▪
- Modular cabinet bodies suitable for series expansion
- Steel construction designed for OEM manufacturing

Legged Metal Storage Cabinet Model Options

Model	Size (W × D × H)	Description
LSC-1L	400W × 400D × 900H mm	2 adjustable shelves
LSC-1T	500W × 450D × 1650H mm	Upper shelf + hanging rod + lower shelf
LSC-2D	800W × 400D × 850H mm	Center divider + adjustable shelves
LSC-3D	1200W × 400D × 850H mm	Three storage bays with adjustable shelves

Home-style design details include soft visual corners, R12-R18 cabinet radius, R8-R12 door radius, 120-150 mm slim metal legs and smooth satin powder coating.

- Single-door, two-door and three-door configurations
- Adjustable shelf or hanging rod layout
- Residential RAL color options
- KD packing with separate legs

Knock-down Gun Cabinets

Flat-pack steel gun cabinets developed as reference structures for OEM firearm storage projects, logistics efficiency and private-label development.

- Knock-down steel panel structure for compact shipping
- Reinforced steel cabinet body
- Top locked box and lower long-item storage space
- Internal layout configurable by project requirements

This product is positioned as a steel gun cabinet or security cabinet, not a certified gun safe. Certification, legal requirements and platform rules should be confirmed by the buyer according to the target market.

OEM Capability & Production Support

We support brands, platform sellers and importers with reference-based product development and scalable steel manufacturing.

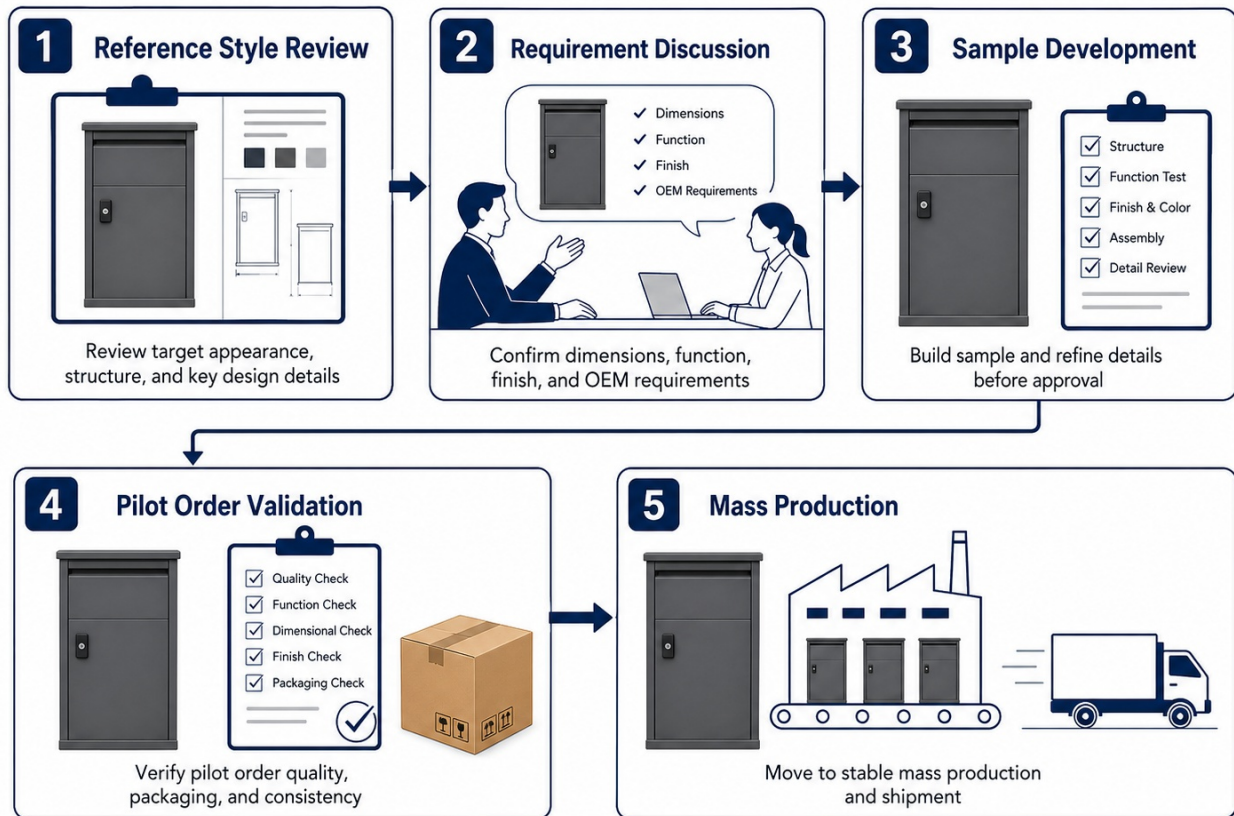

- Structural optimization for flat-pack and logistics efficiency
- In-house sampling and small-batch assembly
- Flexible MOQ for pilot orders
- Scalable production for mass manufacturing
- Customization across dimensions, internal layouts, finishes, packaging and branding

SCALABLE MANUFACTURING

Standardized production systems designed for stable quality control and long-term supply, suitable for growing order volumes.

OEM Development Process

How OEM Projects Start

Please send us your product type, reference photo, target size, target market, estimated quantity, RAL color, lock or handle requirement and packaging requirement.
