**Finally, network-wide visibility in a single view.**

Without visibility, you're flying blind. Clear changes that. Now, you can see how all your practices are progressing at-a-glance.

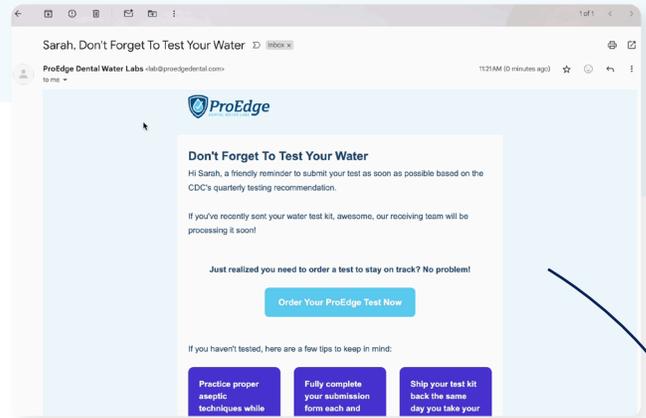

**Tackle the most at-risk offices, together.**

This tool focuses our team's attention on the offices that need extra support, saving you time to focus on what's most important.

**Mobilize regional teams to achieve your goals.**

Nothing is more frustrating than trying to do compliance well on your own. Create buy-in with local operations leaders through the regions tab.

**Clear helps improve compliance, even when you sign off for the day.**

Clear takes reminding practices off your plate. Your offices are receiving automated guidance, moving them toward passing results.

**Take back control of waterline compliance. Book a demo.**
