Finally, network-wide visibility in a single view.

Without visibility, you're flying blind. Clear™ changes that. Now, you can see how all your practices are progressing at-a-glance.

Tackle the most at-risk offices, together.

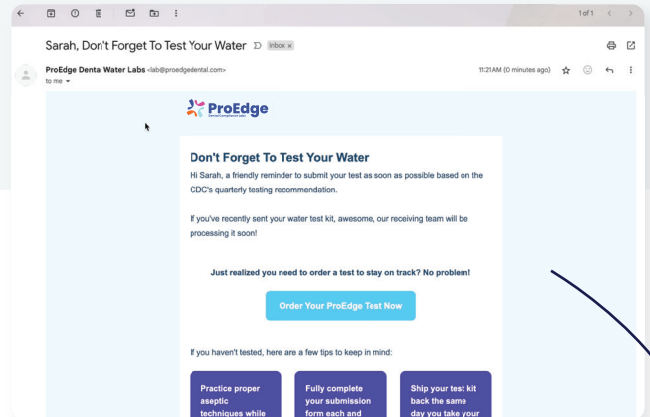

This tool focuses our team's attention on the offices that need extra support, saving you time to focus on what's most important.

The Regions tab allows for detailed analysis of compliance across different geographic areas. The data is as follows:
