SUMMARY

UI/UX & Visual Designer focused on turning complex problems into clear, accessible systems. Experienced across end-to-end product design, from research and information architecture to high-fidelity prototyping and usability validation. Known for structured thinking, visual restraint, and calm execution in ambiguous environments.

EXPERIENCE

User Experience Designer (Co-op) KnowQuest — Remote, Canada *Sept 2024 - April 2025*

- Designed a native mobile UI prototype for an existing platform to improve trust, clarity, and usability.
- Translated complex, unstructured feedback into clear interaction flows and visual hierarchy.
- Conducted user interviews and iterative testing to validate design decisions.
- Led end-to-end design execution from research synthesis through IA, UI, and interactive prototyping.
- Work received direct endorsement from CEO for quality, leadership, and impact.

Graphic Designer Design Students Organization (DSO) *Sept 2024 - April 2025*

- Created visual assets and layouts for student-led initiatives.
- Balanced brand consistency with fast turnaround needs.
- Strengthened ability to design within tight constraints and shared systems.

UX Intern FreshFind — Remote, Canada *May 2024 - Nov 2024*

- Supported UX and visual design across marketing and product surfaces.
- Contributed to wireframes, interface layouts, and visual refinements.
- Collaborated remotely with cross-functional teammates in a fast-moving environment.

Brand Design Research Assistant MacEwan University — Remote *Jul 2024 - Sep 2024*

- Designed the brand identity and website for Edmonton Edge, a student publication.
 - Conducted stakeholder interviews to align design direction with editorial needs.
 - Delivered a functional, elegant system grounded in research and clarity.
-
