About THAICOM

THAICOM Public Company Limited, a leading Asian satellite operator, was established in 1991. The Company was the first to launch a broadband satellite in the world, and is a leader in developing integrated solutions for satellite broadband and broadcast services. The Company's engineering teams provide leading-edge innovative solutions for satellite-based telecommunications services. Since its establishment the Company has launched eight satellites, with five satellites in operation: THAICOM 4 (IPSTAR) provides a variety of broadband and data services, including cellular backhaul, mobility, government USO support, content delivery, business continuity and emergency services in thirteen countries in Asia Pacific.

THAICOM 6 is to expand the Company's broadcast carrying capacity in SE Asia and Africa (by the name "AFRICOM 1") and is collocated with THAICOM 5 at 78.5 degrees East; the satellites board a combined 700 TV channels both in SD and HD formats. THAICOM 7 was launched in September 2014 to provide media & data services for Asia's and Australasia's entertainment and telecom industries at 120 degrees East. THAICOM 8 was launched in May 2016 to expand Thaicom's servicing capacity and footprint in the region. Thaicom is traded on the Stock Exchange of Thailand (SET) under the trade symbol "THCOM".
