Independent Auditor's Report

To the Shareholders of Thaicom Public Company Limited

Opinion

I have audited the consolidated and separate financial statements of Thaicom Public Company Limited and its subsidiaries (the "Group") and of Thaicom Public Company Limited (the "Company"), respectively, which comprise the consolidated and separate statements of financial position as at 31 December 2024, the consolidated and separate statements of profit or loss, profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of material accounting policies and other explanatory information.

In my opinion, the accompanying consolidated and separate financial statements present fairly, in all material respects, the financial position of the Group and the Company, respectively, as at 31 December 2024 and their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards (TFRSs).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements* section of my report. I am independent of the Group and the Company in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Profession (Code of Ethics for Professional Accountants) that is relevant to my audit of the consolidated and separate financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of my audit of the consolidated and separate financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

KPMG Phoomchai Audit Ltd., a Thai limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

Allowance for expected credit loss of trade receivables	
Refer to Note 7 to the consolidated and separate financial statements.	
The key audit matter	**How the matter was addressed in the audit**
TFRS 9 requires the Company and subsidiaries to recognize impairment losses based on expected credit losses. The allowance for expected credit loss for trade receivables was considered collectively (collective assessment) and individually (individual assessment). For collective assessment, it represents management's estimation of allowance for expected credit loss resulting from all possible default events over the expected life of trade receivables. For individual assessment, the Group considered based on the payment histories and the ability to make payments in the future for each individual customer. I identified the measurement of expected credit losses as a key audit matter because trade receivables are material to the Group and the recognition of expected credit loss requires the exercise of significant management judgement.	My audit procedures included: - Understanding the allowance for expected credit loss consideration process and related internal control procedures. - Testing the design and implementation of the relevant internal control procedures. - For collective assessment, assessing the appropriateness of key assumptions and information that management used in assessing the allowance for expected credit loss. - For the individual assessment, performing the following procedures; (1) assessing the appropriateness of the process of identifying indicators of impairment (2) assessing the appropriateness of estimation of allowances for a selected sample of exposures with identified evidence of impairment with respect to the appropriateness of the assumptions concerning cash flows. - Testing the calculation of the allowance for expected credit loss. - Considering of the adequacy of the Group's disclosures in accordance with TFRSs.

Emphasis of Matter

We draw attention to Note 30 to the financial statements. The Company has a dispute with the government sector under either an operating agreement on domestic communication satellites or licenses to provide telecommunication services. At present, these disputes are under court proceedings. The outcome depends on future judicial proceedings and cannot be determined at this time. Our conclusion is not qualified in respect of these matters.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated and separate financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the consolidated and separate financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the consolidated and separate financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the correction be made.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1 General information

Thaicom Public Company Limited, the "Company", is incorporated in Thailand and has its registered office at 349 SJ Infinite 1 Business Complex, 28th Floor, Vibhavadi Rangsit Road, Chompol Sub-district, Chatuchak District, Bangkok 10900.

The Company was listed on the Stock Exchange of Thailand in January 1994.

The immediate and ultimate parent companies during the financial year were Gulf Edge Company Limited (formerly: Gulf Ventures Company Limited) (41.14% shareholding) and Gulf Energy Development Public Company Limited, respectively, which are incorporated in Thailand.

The Company, its subsidiaries and joint ventures (collectively referred to as "the Group") are primarily involved in transponder services for domestic and international communications, sale of user terminals of iPSTAR, broadband content services, sale of direct television equipment, internet data center services, internet services, satellite uplink-downlink services, providing technical support in relation to its satellite business, broadcasting television service, telecommunication, telephone network services, mobile content, and engineering and development services for communication technology and electronics, which are mainly operated under operating agreements.

The Group has operations in 9 countries; Thailand, Singapore, Lao PDR, Australia, New Zealand, Mauritius, the British Virgin Islands, Japan and India.

The Group received licenses from the National Broadcasting and Telecommunications Commission ("NBTC"), to provide telecommunication services for domestic and international communications.

Details of the Company's subsidiaries and joint ventures as at 31 December 2024 and 2023 were as follows:

Joint ventures				
Shenington Investments Pte Limited	Holding company for investment in international telecommunications	Singapore	51*	51*
Nation Space and Technology Co., Ltd.	Providing service of communication satellite and the service relating to the satellite business	Thailand	75*	75*
Joint venture of Shenington Investments Pte Limited				
Lao Telecommunications Public Company	Providing fixed line, mobile phone, public phone, public international facilities and Internet services	Lao PDR	24.99	24.99
Joint ventures of Thai Advance Innovation Company Limited				
ATI Technologies Company Limited	Developing, producing, and distribution unmanned aerial vehicle (drone) for Thailand's agricultural sector	Thailand	50	50

* The Group holds ordinary shares in these companies over 50% but classifies such investments as joint ventures of the Group since there are co-operation under shareholders agreement in these companies.

Material intercompany transactions between the Company and its subsidiaries have been eliminated from these consolidated financial statements.

2. Basis of preparation of the financial statements

The financial statements are prepared in accordance with Thai Financial Reporting Standards ("TFRS"), guidelines promulgated by the Federation of Accounting Professions and applicable rules and regulations of the Thai Securities and Exchange Commission. The financial statements are presented in Thai Baht, which is the Company's functional currency. The accounting policies, described in note 3, have been applied consistently to all periods presented in these financial statements. In addition, for the financial statements for the year ended 31 December 2024, TAS 29 *Financial Reporting in Hyperinflationary Economies* has been applied for the first time for the foreign operations whose functional currency is Lao Kip (LAK) as disclosed in note 5.

The preparation of financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of the Group's accounting policies. Actual results may differ from these estimates. Estimates and underlying assumptions that are described in note 3 are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

In addition, the Group has not early adopted a number of new and revised TFRS, which are effective for the period starting on or after 1 January 2025 in preparing these financial statements. The Group has assessed that the application of the new and revised TFRS has no material impact to the financial statements.

3. Material accounting policies

(a) Basis of consolidation

The consolidated financial statements relate to the Company and its subsidiaries (together referred to as the "Group") and the Group's interests in joint ventures.

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

At the acquisition date, the Group measures any non-controlling interest at its proportionate interest in the identifiable net assets of the acquiree. In addition, when there is a change in the Group's interest in a subsidiary that does not result in a loss of control, any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received from the acquisition or disposal of the non-controlling interests with no change in control is accounted for as other surplus/deficit in shareholders' equity.

When the Group loses control over a subsidiary, it derecognises the assets and liabilities, any related non-controlling interests and other components of equity of the subsidiary. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

The Group recognised investments in joint ventures using the equity method in the consolidated financial statements. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's dividend income and share of the profit or loss and other comprehensive income of equity–accounted investees, until the date on which joint control ceases.

If an investment in a joint venture becomes an investment in an associate, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, when the group ceases to have joint control over a joint venture, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when joint control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset.

Intra-group balances and transactions, and any unrealised income or expenses arising from intra-group transactions, are eliminated on consolidation. Unrealised gains arising from transactions with joint ventures are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Business combinations

The Group applies the acquisition method when the Group assess that the acquired set of activities and assets include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. The acquisition date is the date on which control is transferred to the Group, other than business combinations with entities under common control. Expenses in connection with a business combination are recognised as incurred.

Goodwill is measured as the fair value of the consideration transferred including the recognised amount of any non-controlling interest in the acquiree, less net fair value of the identifiable assets acquired and liabilities assumed. Any gain on bargain purchase is recognised in profit or loss immediately.

Consideration transferred includes assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, any contingent consideration and equity interests issued by the Group.

Any contingent consideration is measured at fair value at the date of acquisition, and remeasured at fair value at each reporting date. Subsequent changes in the fair value are recognised in profit or loss.

A contingent liability of the acquiree is assumed in a business combination only if such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group estimates provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

Business combination under common control are accounted for using a method similar to the pooling of interest method, by recognising assets and liabilities of the acquired businesses at their carrying amounts in the consolidated financial statements of the ultimate parent company at the transaction date. The difference between the carrying amount of the acquired net assets and the consideration transferred is recognised as surplus or deficit from business combinations under common control in shareholder's equity. The surplus or deficit will be written off upon divestment of the businesses acquired. The results from operations of the acquired businesses will be included in the consolidated financial statements of the acquirer from the beginning of the comparative period or the moment the businesses came under common control, whichever date is later, until control ceases.

(b) Investments in subsidiaries and joint ventures

Investments in subsidiaries and joint ventures in the separate financial statements are measured using the equity method. Dividend income is recognised in profit or loss on the date on which the Group's right to receive payment is established. If the Company disposes of part of its investment, the deemed cost of the part sold is determined using the weighted average method. Gains and losses on disposal of the investments are recognised in profit or loss.

(c) Foreign currencies

Transactions in foreign currencies including non-monetary assets and liabilities denominated in foreign currencies are translated to the respective functional currencies of each entity in the Group at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate at the reporting date. Non-monetary assets and liabilities measured at fair value in foreign currencies are translated at the exchange rates at the dates that fair value was determined.

Foreign currency differences are generally recognised in profit or loss.

Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to Thai Baht at the exchange rates at the reporting date. The revenues and expenses of foreign operations are translated to Thai Baht at the weighted average foreign exchange rates for the year.

All amounts (i.e. assets, liabilities, equity, income and expenses) of foreign operations whose functional currencies are the currencies of a hyperinflationary economy are translated to Thai Baht at exchange rates at the reporting date. Prior to translating the financial statements of those foreign operations, the financial statements are restated to account for changes in the general purchasing power of the local currency. Gain (loss) on the net monetary position is recognised in profit or loss. The restatement is based on relevant price indices at the reporting date.

Foreign exchange differences are recognised in other comprehensive income and accumulated in the translation reserve until disposal of the investment.

When a foreign operation is disposed of in its entirety or partially such that control or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of a joint venture while retaining joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation and are recognised in other comprehensive income, and presented in the translation reserve in equity until disposal of the investment.

(d) Financial instruments

(d.1) Classification and measurement

Financial assets and financial liabilities (except trade accounts receivables (see note 3(f)) are initially recognised when the Group becomes a party to the contractual provisions of the instrument, and measured at fair value plus or minus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (FVOCI); or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified prospectively from the reclassification date.

On initial recognition, financial liabilities are classified as measured at amortised cost using the effective interest method or FVTPL. Interest expense, foreign exchange gains and losses and any gain or loss on derecognition are recognised in profit or loss.

Financial assets measured at amortised costs are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by expected credit losses. Interest income, foreign exchange gains and losses, expected credit loss and any gain or loss on derecognition are recognised in profit or loss

Debt investments measured at FVOCI are subsequently measured at fair value. Interest income, calculated using the effective interest method, foreign exchange gains and losses and expected credit loss are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments measured at FVOCI are subsequently measured at fair value. Dividend income is recognised as income in profit or loss on the date on which the Group's right to receive payment is established, unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

(d.2) Derecognition and offset

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

The difference between the carrying amount extinguished and the consideration received or paid is recognised in profit or loss.

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and the Group intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(d.3) Derivatives

Derivative are recognised at fair value and remeasured at fair value at each reporting date. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss

(d.4) Impairment of financial assets other than trade accounts receivables

The Group recognises allowances for expected credit losses (ECLs) on financial assets measured at amortised cost and debt investments measured at FVOCI.

The Group recognises ECLs equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition or credit-impaired financial assets, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

ECLs are a probability-weighted estimate of credit losses based on forward-looking and historical experience. Credit losses are measured as the present value of all cash shortfalls discounted by the effective interest rate of the financial asset.

The Group considers a financial asset to have low credit risk when its credit rating is equivalent to the globally understood definition of 'investment grade'. The Group recognises ECLs for low credit risk financial asset as 12-month ECLs.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due, significant deterioration in credit rating, significant deterioration in the operating results of the debtor and existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

The Group considers a financial asset to be in default when:
- the debtor is unlikely to pay its credit obligations to the Group in full, without recourse by the Group takes action such as realising security (if any is held); or
- the financial asset is more than 360 days past due.

(d.5) Write offs

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering. Subsequent recoveries of an asset that was previously written off, are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(d.6) Interest

Interest income and expense is recognised in profit or loss using the effective interest method. In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability.

(e) Cash and cash equivalents

Cash and cash equivalents comprise cash balances, call deposits and highly liquid short-term investments which have maturities of three months or less from the date of acquisition.

(f) Trade accounts receivable

A trade receivable is recognised when the Group has an unconditional right to receive consideration. A trade receivable is measured at transaction price less allowance for expected credit loss. Bad debts are written off when incurred.

The Group always recognises lifetime ECL for trade receivables. For collective assessment of trade receivables, the expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

For individual assessment of trade receivables, the expected credit loss is the present value of the entire amount that is not expected to be received throughout the expected life of the financial asset, with a discount at the effective interest rate, which is calculated from the estimation of risk positions in the event of default, multiplied by the probability of default and the percentage of damage that may occur when there is a default, discounted by the effective interest rate, calculated under each possible situation.

(g) Inventories

Inventories are measured at the lower of cost and net realisable value. Cost is calculated using the weighted average cost principle. Cost includes direct costs incurred in acquiring the inventories. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

(h) Property, plant and equipment

Owned assets

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes capitalised borrowing costs, and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Differences between the proceeds from disposal and the carrying amount of property, plant and equipment are recognised in profit or loss.

Assets for rent

Assets leased out under operating leases are included in property and equipment in the statements of financial position. They are depreciated over their expected useful lives on a basis consistent with similar fixed assets.

Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item when the future economic benefits embodied within the part will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Depreciation

Depreciation is calculated on a straight-line basis over the estimated useful lives of each component of an asset and recognised in profit or loss. No depreciation is provided on freehold land and assets under construction.

The estimated useful lives are as follows:

Buildings and improvements	3-10 years
Equipment	5-18 years
Vehicles and office equipment	2-10 years

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(i) Licenses

Licenses that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and impairment losses.

Licenses comprise the right to use the orbital slots and are amortised using the straight-line method over the period of their expected benefits for a period of 20 years.

(j) Goodwill

Goodwill that arises upon the acquisition of subsidiaries is included in intangible assets. The measurement of goodwill at initial recognition is described in note 3(a). Subsequent to initial recognition, goodwill is measured at cost less accumulated impairment losses. In respect of an equity-accounted investee, the carrying amount of goodwill is included in the carrying amount of the investment.

(k) Other intangible assets

Other intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and impairment losses.

Other intangible assets comprise the development of IPSTAR technology, expenditure on acquired software, patents and trademarks and are amortised using the straight-line method over the period of their expected benefits for a period of 5 to 15.75 years.

Specific software is recognised as assets when acquired and operated for its intended purposes and is amortised using the straight-line method over its expected benefits for a period of 3 - 10 years.

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(l) Leases

At inception of a contract, the Group assesses that a contract is, or contains, a lease when it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

At commencement or on modification of a contract, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices of each component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date, except for leases of low-value assets and short-term leases which are recognised as expenses on a straight-line basis over the respective lease terms.

A right-of-use asset is measured at cost, less any accumulated depreciation and impairment loss, and adjusted for any remeasurements of lease liability. The cost of a right-of-use asset includes the initial amount of the lease liability adjusted for any prepaid lease payments, plus any initial direct costs incurred and an estimate of restoration costs, less any lease incentives received. Depreciation is charged to profit or loss on a straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment.

The lease liability is initially measured at the present value of all lease payments that shall be paid under the lease. The Group uses the rate implicit in the lease to discount the lease payments to the present value. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a lease modification. When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero. The Group elected not to assess that the rent concessions are lease modification, the Group remeasured lease liabilities using the original discount rate and recognised the impact of the change in lease liability in profit or loss.

As a lessor

At inception or on modification of a contract, the Group allocates the consideration in the contract to each component on the basis of their relative standalone selling prices.

At lease inception, the Group considers to classify a lease that transfers substantially all of the risks and rewards incidental to ownership of the underlying asset to lessees as a finance lease. A lease that does not meet this criteria is classified as an operating lease.

When the Group is an intermediate lessor, the Group classifies the sub-lease either as a finance lease or an operating lease with reference to the right-of-use asset arising from the head lease. In case of a head lease is a short-term lease, the sub-lease is classified as an operating lease.

The Group recognises finance lease receivables at the net investment of the leases, which includes the present value of the lease payments, and any unguaranteed residual value, discounted using the interest rate implicit in the lease. Finance lease income reflects a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

The Group recognises lease payments received under operating leases in profit or loss on a straight-line basis over the lease term as part of revenue from rendering of services. Initial direct costs incurred in arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue from rendering of services in the accounting period in which they are earned.

(m) Impairment of non-financial assets

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. For goodwill and intangible assets that have indefinite useful lives or are not yet available for use, the recoverable amount is estimated each year at the same time.

An impairment loss is recognised in profit or loss if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount.

The recoverable amount is the greater of the asset's value in use and fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss of asset recognised in prior periods is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(n) Employee benefits

Defined contribution plan

Obligations for contributions to the Group's provident funds are expensed as the related service is provided.

Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligations is discounted to the present value, which performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, actuarial gain or loss are recognised immediately in OCI. The Group determines the interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise.

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the end of the reporting period, then they are discounted.

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(o) Share-based payments

The grant-date fair value of equity–settled share-based payment awards granted to employees is generally recognised as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognised is based on the number of awards that meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

In case of cash settlement

The fair value of the amount payable to employees in respect of share appreciation rights, which are settled in cash, is recognised as an expense with a corresponding increase in liabilities, over the period that the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date. Any changes in the fair value of the liability are recognised as personnel expenses in profit or loss.

(p) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as a finance cost.

Warranties

A provision for warranties is recognised when the underlying products or services are sold. The provision is based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

(q) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs for the asset or liability that are based on unobservable input.

If an asset or a liability measured at fair value has a bid price and an ask price, then the Group measures assets and asset positions at a bid price and liabilities and liability positions at an ask price.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received. If the Group determines that the fair value on initial recognition differs from the transaction price, the financial instrument is initially measured at fair value adjusted for the difference between the fair value on initial recognition and the transaction price and the difference is recognised in profit or loss immediately. However, for the fair value categorised as level 3, such difference is deferred and will be recognised in profit or loss on an appropriate basis over the life of the instrument or until the fair value level is transferred or the transaction is closed out.

(r) Revenue from contracts with customers

Revenue recognition

Revenue is recognised when a customer obtains control of the goods or services in an amount that reflects the consideration to which the Group expects to be entitled, excluding those amounts collected on behalf of third parties, value added tax and is after deduction of any trade discounts and volume rebates.

Revenue from sale of goods that includes revenue and cost of sales of equipment with installation is recognised in profit or loss when control of the goods or equipment with installation have been transferred to the buyer. That may be indicated when the buyer has obtained the ability to direct the use of the goods or equipment with installation, and obtain substantially all of the remaining benefits of the goods or equipment with installation. Also, the Group has a right to receive payment for those goods and equipment with installation. No revenue is recognised if there is continuing management involvement with the goods or there are significant uncertainties regarding recovery of the consideration due, associated costs or the probable return of goods.

Revenue from rendering transponder services and services related to the satellite business, internet services, and other business related to the internet business, and telephone services is recognised when the said services are provided to customers and there are certainties regarding recovery of the consideration due.

Revenue from leases of equipment is recognised over the lease period and at the rate of the leasing contract.

(s) Income tax

Income tax expense for the year comprises current and deferred tax, which is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is recognised in respect of the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the temporary differences: the initial recognition of goodwill; the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and differences relating to investments in subsidiaries and joint ventures to the extent that it is probable that they will not reverse in the foreseeable future.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Current deferred tax assets and liabilities are offset in the separate financial statements.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(t) Earnings per share

Basic earnings per share (EPS) is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held and for the effects of all dilutive potential ordinary shares, which comprise share options granted to employees.

4. Related parties

A related party is a person or entity that has direct or indirect control or joint control, or has significant influence over the financial and managerial decision-making of the Group; a person or entity that is under common control or under the same significant influence as the Group; or a person or entity over which the Group has direct or indirect control or joint control or has significant influence over the financial and managerial decision-making.

Relationships with parent, subsidiaries and joint ventures are described in notes 1 and 9.

Significant transactions for the years ended 31 December 2024 and 2023 with related parties were as follows:

	Consolidated financial statements		Separate financial statements	
	2024	2023	2024	2023
	Baht'000	Baht'000	Baht'000	Baht'000
Income				
Revenue from sale of goods and rendering of services				
Subsidiaries	-	-	456,537	448,774
Joint ventures	22,513	24,846	21,174	17,135
Other related parties	30,976	31,208	4,404	21,320

Loans to subsidiary

Short-term loans are promissory notes. The loans bear interest at fixed rates and based on market rate referenced to SOFR plus interest rate spread as specified in the agreements and are repayable on demand and unsecured.

Loans to joint ventures

The Company has an unsecured long-term loan agreement for the period of 10 years with a related party with the credit facility of USD 60.18 million. This loan bears interest based on market rate referenced to SOFR plus interest rate spread.

The Company has an unsecured long-term loan agreement for the period of 3 years with a related party with the credit facility of Baht 15 million. This loan bears interest based on market rate referenced to MLR plus interest rate spread.

Movements during the years ended 31 December 2024 and 2023 of loans to a subsidiary and joint ventures were as follows:

Total	**68,325**	**63,071**	**67,950**	**62,722**

Directors' remuneration

The directors' remuneration represents monthly compensation, annual remuneration, meeting fees, and other benefits. The directors' remuneration was approved by the shareholders of the Company at their annual general meetings. The directors' remuneration was presented as part of directors and management benefit expenses presented in the statement of profit or loss.

Significant agreements with related parties

The Company entered into agreements with subsidiaries, joint ventures and other related parties, under which the Company is committed to provide transponder and advisory services. As at 31 December 2024, subsidiaries, joint ventures and other related parties were committed to pay the Company for the services under the agreements approximately USD 0.6 million and Baht 49.8 million (31 December 2023: approximately USD 0.8 million and Baht 24.0 million). The service fees of contracts vary according to the actual usage or number of installed user terminals at the rates stated in the contract.

5. Hyperinflation

In October 2024, the IMF estimated that the three-year cumulative inflation rate of Lao P.D.R. has exceeded 100%, as a result Lao P.D.R. should be considered an hyperinflationary economy for the annual reporting period ending 31 December 2024. Consequently, the consolidated and separate financial statements for the year ended 31 December 2024 have applied TAS 29 *Financial Reporting in Hyperinflationary Economies* for the first time for the foreign operations whose functional currency is LAK. The consolidated and separate financial statements were restated to reflect the change in the general purchasing power retrospectively since 1 January 2024 and the comparative consolidated and separate financial statements have not been restated according to TAS 21 *The Effects of Changes in Foreign Exchange Rates.* This resulted in an opening balance adjustment of Baht 23.2 million to consolidated and separate equity.

Under TAS 29, the financial statements of foreign operation, whose functional currencies is LAK, prepared based on historical cost are restated to be presented in the measuring unit current at the end of the reporting period. In that connection, non-monetary items are restated to reflect the purchasing power at the reporting date and all items in the statement of comprehensive income are restated to reflect the inflation during the period. Monetary items do not need to be restated as they already reflect purchasing power at the reporting date. The financial statements of the foreign operation are translated to Thai Baht using selling rates at the reporting date.

The general price index for purposes of measuring inflation movements, the Consumer Price Index (CPI) published by the Bank of Lao P.D.R. was 243.5 at 31 December 2024 *(2023: 208.4)*.

The normal credit term granted by the Group to general customers is 30 days.

The Group always measures the loss allowance for trade receivables at an amount equal to lifetime ECL. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position. The Group has recognized a loss allowance of 100% against all receivables from other parties over 360 days past due because historical experience has indicated that these receivables are generally not recoverable.

The Group has not changed its estimation method and key assumptions during the current reporting period.

The following table details the risk profile of trade receivables based on the Group's provision matrix.

	Consolidated financial statements

Significant movements in investments in subsidiaries and joint ventures for the year ended 31 December 2024 were as follows:

Subsidiaries

Dissolution of TC Global Services Company Limited ("TCGS")

At the board of directors meeting of the Company held on 8 September 2023, the meeting passed a resolution to dissolve TCGS. The reason for the dissolution is that this subsidiary is not operational and has no future operational plans. The dissolution of this subsidiary does not have significant impact on the Group's operations and financial position. The liquidation process shall be carried out according to the applicable legal and regulatory requirements.

In January 2025, the Company has finalized the liquidation process according to the applicable legal and regulatory requirements.

Dividend revocation of subsidiaries

At the Board of Directors' meetings of subsidiaries held on 29 March 2024, the Directors of the subsidiaries approved dividend revocations, amounting to Baht 70 million.

Additional call-up share capital and capital increase of TC Broadcasting Company Limited ("TCB")

On 13 May 2024, the meeting of Board of director of TCB passed the resolution to approve an additional call-up share capital for 100,000 shares at a par value of Baht 7.5, totaling Baht 0.75 million which the Company already received the subscription.

At the Shareholders' Extraordinary meeting held on 29 May 2024, the shareholders approved the resolution to increase the authorised share capital of TCB from Baht 1 million to Baht 60 million by increasing 5,900,000 shares at a par value of Baht 10 each, totaling Baht 59 million. TCB received the subscription and registered the increase in share capital with Ministry of Commerce on 29 May 2024.

Registration of TC 142 Company Limited ("TC 142")

On 13 November 2024, the Company established TC 142 Co., Ltd. with a registered capital of Baht 10 million, at par value Baht 10 per share with paid-up registered capital of Baht 2.5 million. The Company holds a 99.99% stake in the share capital.

Registration of TC 51 Company Limited ("TC 51")

On 13 November 2024, the Company established TC 51 Co., Ltd. with a registered capital of Baht 10 million, at par value Baht 10 per share with paid-up registered capital of Baht 2.5 million. The Company holds a 99.99% stake in the share capital.

Joint ventures

Dividend payment of Lao Telecommunications Public Company ("LTC")

At the annual general meeting of the shareholders of LTC held on 5 March 2024, the shareholders approved the appropriation of dividend, amounting to USD 4 million.

At the extraordinary general meeting of the shareholders of LTC held on 6 August 2024, the shareholders approved the appropriation of interim dividend, amounting to USD 8 million.

Commitment

According to the joint venture agreement between the Group and the Government of the Lao People's Democratic Republic, the Group must transfer all of the Lao Telecommunication Public Company's shares to the Government of the Lao People's Democratic Republic, without any charges or compensation, on the expiration date of the joint venture agreement in 2046.

Satellite Capacity Agreement

On 1 August 2022, the Company entered into a Satellite Capacity Agreement with a business partner under which it is granted the right to use satellite transponders and received revenue from its business partner. The agreement is for a period of 5 years and the Company is required to comply with the conditions, as specified in the agreement. As at 31 December 2024, the Company has recorded the right to use the satellite transponders as right-to-use assets, amounting to Baht 186 million and deferred income, which is included in other current liabilities, amounting to Baht 72 million, and other non-current liabilities, amounting to Baht 114 million, in its statement of financial position *(31 December 2023: right-to-use assets amounting to Baht 258 million, other current liabilities amounting to Baht 72 million and other non-current liabilities amounting to Baht 186 million).*

The Group leases several assets including plant, buildings, transponders and vehicles. The lease terms are 1.5 – 11.3 years.

The Group has options to purchase certain equipment for a nominal amount at the end of their lease terms. The Group's obligations are secured by the lessors' title to the leased assets for such leases.

Total	**262,508**	**251,776**	**230,350**	**222,794**

Defined benefit plan

The Group and the Company operate a defined benefit plan based on the requirement of Thai Labour Protection Act B.E 2541 (1998) to provide retirement benefits to employees based on pensionable remuneration and length of service. The defined benefit plans expose the Group to actuarial risks, such as longevity risk, currency risk, and interest rate risk.

Present value of the defined benefit obligations	Consolidated financial statements		Separate financial statements	
	2024	2023	2024	2023
	Baht'000	Baht'000	Baht'000	Baht'000
At 1 January	251,776	246,699	222,794	218,862
Recognised in profit or loss:				
Current service cost	13,417	14,493	11,852	12,990
Interest on obligation	6,383	7,189	5,590	6,360
	19,800	**21,682**	**17,442**	**19,350**
Recognised in other comprehensive income:				
Actuarial loss				
- Financial assumptions	7,583	4,556	6,620	3,978
- Experience adjustment	4,563	18,663	3,258	16,372
	12,146	**23,219**	**9,878**	**20,350**
Benefit paid	(21,214)	(39,824)	(19,764)	(35,768)
At 31 December	**262,508**	**251,776**	**230,350**	**222,794**

Principal actuarial assumptions at the reporting date (expressed as weighted averages):

	Consolidated financial statements		Separate financial statements	
	2024	2023	2024	2023
	%	%	%	%
Discount rate	2.38	2.74	2.38	2.74
Future salary increases	5.00	5.00	5.00	5.00

Assumptions regarding future mortality have been based on published statistics and mortality tables.

At 31 December 2024, the weighted-average duration of the defined benefit obligation was 11 years *(2023: 11 years)*.

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	Consolidated financial statements		Separate financial statements	
Effect to the defined benefit obligation	Baht'000	Baht'000	Baht'000	Baht'000
At 31 December 2024	Increase	Decrease	Increase	Decrease
Discount rate (0.5% change in assumption)	(10,494)	11,895	(9,200)	10,434
Future salary growth (1.0% change in assumption)	21,080	(18,996)	18,484	(16,646)
At 31 December 2023				
Discount rate (0.5% change in assumption)	(9,909)	11,265	(8,649)	9,839
Future salary growth (1.0% change in assumption)	20,134	(18,085)	17,605	(15,803)

18. Other non-current liabilities

Total		**1,015,788**	**374,181**	**557,198**	**364,432**

19. Surpluses and reserves

Surpluses comprise:

Share premium

Section 51 of the Public Companies Act B.E. 2535 requires companies to set aside share subscription monies received in excess of the par value of the shares issued to a reserve account ("share premium"). Share premium is not available for dividend distribution.

Reserves comprise:

Appropriations of profit and/or retained earnings

Legal reserve

The Public Companies Act B.E. 2535 Section 116 requires that a company shall allocate not less than 5% of its annual net profit, less any accumulated losses brought forward (if any), to a reserve account ("legal reserve"), until this account reaches an amount not less than 10% of the registered authorised capital. The legal reserve is not available for dividend distribution.

Other components of shareholders' equity

Currency translation differences

The currency translation differences account within equity comprises all foreign currency differences arising from the translation of the financial statements of foreign operations.

Fair value changes in financial assets

The fair value changes in financial assets account within equity comprise the cumulative net change in the fair value of financial assets until the financial assets are derecognised or impaired.

20. Segment information and disaggregation of revenue

Segment information is presented in respect of the Group's business. The primary format, business segments is based on the Group's management and internal reporting structure.

Business segments

The Group comprises the following main business segments:

Segment 1 Services relating to the satellite business and the transponder services segment
Segment 2 Sales and services relating to the internet and media business
Segment 3 Sales and services relating to the telephone network business

Disaggregation of revenue

The Group derives its revenue from sale of goods and rendering of services to customer over time and at a point in time for the years ended 31 December 2024 and 2023 was as follows:

	Consolidated financial statements	
	2024	2023
	Baht'000	Baht'000
Segment revenues		
Satellite business services	2,374,425	2,588,069

Revenue by geography

Revenue by geography is based on the geographic location of customers.

The areas of operation in Thailand are principally transponder services and other services relating to satellite business services, internet and media services. Australia, India, Myanmar and Malaysia's main activities are sales and services relating to satellite business.

Revenue by geography in the consolidated financial statements for the years ended 31 December 2024 and 2023 was as follows:

	2024	2023
	Baht'000	Baht'000
Revenue by geography		
Thailand	1,494,146	1,583,757
Australia	329,166	318,992
India	188,624	208,036
Myanmar	95,783	112,341
Malaysia	-	48,976
Others	305,036	354,410
Total	**2,412,755**	**2,626,512**

Major customers of the Group

For the year ended 31 December 2024 and 2023, the Group has revenue transactions with a single external customer amount to 10 percent or more of the Group's revenues, amounting to Baht 274 million and Baht 270 million, respectively.

Non-current assets by geography in the consolidated financial statements as at 31 December 2024 and 2023 were as follows:

	2024	2023
	Baht'000	Baht'000
Non-current assets		
Thailand	7,280,469	5,336,706
Australia	92,791	117,650
India	24,249	4,148
Singapore	2,147,951	2,230,436
Others	391,745	328,442
Total	**9,937,205**	**8,017,382**

21. Other income

For the years ended 31 December	Consolidated financial statements		Separate financial statements	
	2024	2023	2024	2023
	Baht'000	Baht'000	Baht'000	Baht'000
Gain on sale of equipment	806	3,680	316	3,655
Compensation	-	309,686	-	309,686
Others	6,786	6,246	38,402	13,883
Total	**7,592**	**319,612**	**38,718**	**327,224**

In June 2023, the highest court of Hong Kong unanimously dismissed the appeal of a business partner, resulting in the compensation of USD 8.5 million which is equivalent to Baht 309.7 million, received by the Company in 2022 under the arbitration award, was final and could no longer be challenged. The Company thus recognized the mentioned compensation as other income in its statement of profit or loss for the year ended 31 December 2023.

22. Expenses by nature

The statements of profit or loss include analyses of expenses by function. Expenses by nature disclosed in accordance with the requirements of various TFRS were as follows:

For the years ended 31 December	Consolidated financial statements		Separate financial statements	
	2024	2023	2024	2023
	Baht'000	Baht'000	Baht'000	Baht'000

24. Earnings (loss) per share

	Consolidated financial statements		Separate financial statements	
	2024	2023	2024	2023
	(in thousand Baht / thousand shares)			
Profit (loss) attributable to ordinary shareholders of the Company (basic)	(22,836)	353,647	(22,836)	353,647
Weighted average number of ordinary shares	1,096,102	1,096,102	1,096,102	1,096,102
Earnings (loss) per share (basic) *(in Baht)*	**(0.02)**	**0.32**	**(0.02)**	**0.32**

The Company has no potential dilutive ordinary shares during the years ended 31 December 2024 and 2023. Therefore, diluted earnings (loss) per share is the same as basic earnings (loss) per share.

25. Dividend

	Approval date	Payment schedule	Dividend rate per share *(in Baht)*	Amount *(in million Baht)*
2024				
2023 Annual dividend	28 March 2024	April 2024	0.13	142
2023				
2022 Annual dividend	7 April 2023	April 2023	0.50	548

26. Financial instruments

(a) Carrying amounts and fair values

Most of financial assets and liabilities of the Group were short-term. The fair value of financial assets and liabilities is taken to approximate the carrying value as determined in the statement of financial position.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy, but does not include fair value information for financial assets and financial liabilities measured at amortised cost if the carrying amount is a reasonable approximation of fair value.

		Consolidated financial statements			
		Fair value			
	Carrying amount	Level 1	Level 2	Level 3	Total
	Baht'000	Baht'000	Baht'000	Baht'000	Baht'000
As at 31 December 2024					
Investment in debt securities measured at fair value through other comprehensive income	795,666	-	795,666	-	795,666
As at 31 December 2023					
Investment in debt securities measured at fair value through other comprehensive income	1,152,611	-	1,152,611	-	1,152,611

		Separate financial statements			
		Fair value			
	Carrying amount	Level 1	Level 2	Level 3	Total
	Baht'000	Baht'000	Baht'000	Baht'000	Baht'000
As at 31 December 2024					
Investment in debt securities measured at fair value through other comprehensive income	795,666	-	795,666	-	795,666
As at 31 December 2023					
Investment in debt securities measured at fair value through other comprehensive income	1,152,611	-	1,152,611	-	1,152,611

The following tables present valuation technique of financial instruments measured at fair value in the statements of financial position:

Type	Valuation technique
Investment in debt securities measured at fair value through other comprehensive income	The Group determines Level 2 fair values for debentures have been determined based on quoted selling prices from The Thai Bond Market Association at the close of the business on the reporting date.

(b) Financial risk management policies

Risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the board of directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group audit committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

(b.1) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers.

(b.1.1) Trade accounts receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate. Detail of concentration of revenue are included in note 20.

Management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's commercial terms and conditions are offered. The Group's review includes external ratings, if they are available, financial statements, credit agency information, industry information and in some cases bank references. Sale limits are established for each customer. Any sales exceeding those limits require approval from the authorised person.

The Group limits its exposure to credit risk from trade accounts receivables by establishing a maximum payment period of 30 days. Outstanding trade receivables are regularly monitored by the Group. An impairment analysis is performed by the Group at each reporting date. The provision rates of expected credit loss are based on days past due for individual trade receivables and groupings of various customer segments with similar credit risks to reflect differences between economic conditions in the past, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

Information relevant to trade accounts receivables are disclosed in note 7.

(b.1.2) Investment in debt securities

The Group considers that all debt investments measured at FVOCI have low credit risk. Then the credit loss allowance assessed during the year was therefore limited to 12 months expected losses or 'low credit risk'. Marketable bonds are considered to be an investment grade credit rating published by external credit rating agencies. The credit risk of other instruments is considered to be low when the risk of default is low and the issuer has a strong capacity to meet its contractual cash flow obligations.

(b.1.3) Cash and cash equivalent

The Group's exposure to credit risk arising from cash and cash equivalents is limited because the counterparties are banks and financial institutions which the Group considers having low credit risk.

(b.2) Liquidity risk

The Group monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows.

The following table shows the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted and include contractual interest payments and exclude the impact of netting agreements.

	Consolidated financial statements			
At 31 December	1 year or less	More than 1 years but less than 5 years	More than 5 years	Total

Amounts due to related parties	7,746	-	-	7,746
Long-term accounts payable -Property and equipment	-	237,274	-	237,274
Long-term borrowings from financial institutions	460,412	-	-	460,412
Lease liabilities	32,535	8,359	-	40,894
	892,321	**245,633**	-	**1,137,954**

(b.3) Market risk

The Group is exposed to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is as follows:

(b.3.1) Foreign currency risk

The Group is exposed to foreign currency risk relating to purchases and sales which are denominated in foreign currencies.

As at 31 December 2024 and 2023, the Group was exposed to foreign currency risk in respect of financial assets and liabilities denominated in the following currencies:

	Consolidated financial statements			
	2024		2023	
	Foreign currency million	Baht million	Foreign currency million	Baht million
Assets				
US Dollars	148.68	5,029.82	143.08	4,873.17
India Rupee	446.35	164.70	446.35	172.69
New Zealand Dollars	0.88	16.58	0.88	18.81
Total		5,211.10		5,064.67
Liabilities				
US Dollars	16.45	561.73	29.33	1,008.71
India Rupee	948.42	408.20	264.26	117.12
New Zealand Dollars	0.02	0.36	0.04	0.95
Australia Dollars	0.04	0.84	0.02	0.39
Total		971.13		1,127.17

	Separate financial statements			
	2024		2023	
	Foreign currency million	Baht million	Foreign currency million	Baht million
Assets				
US Dollars	149.37	5,053.21	152.33	5,188.12
Euro	71.64	2,512.78	25.40	956.68
India Rupee	446.35	164.70	446.35	172.69
Total		7,730.69		6,317.49
Liabilities				
US Dollars	14.63	499.41	28.86	992.37
India Rupee	848.73	365.29	264.26	117.12
Total		864.70		1,109.49

Foreign currency assets mainly represent cash at bank and trade receivables and other current receivables. Foreign currency liabilities mainly represent trade payables, accrued expense and accounts payable - plant and equipment.

Sensitivity analysis

A reasonably possible strengthening (weakening) of Thai Baht against US Dollars at the reporting date would have affected the measurement of financial instruments denominated in US Dollars. This analysis assumes that all other variables, in particular interest rates, remain constant.

		Consolidated financial statements		Separate financial statements	
Impact to profit or loss	Movement	Strengthening	Weakening	Strengthening	Weakening
	(%)	*(in million Baht)*			
2024					
US Dollars	10	(449.42)	449.42	(457.95)	457.95
2023					
US Dollars	10	(389.29)	389.29	(422.56)	422.56

(b.3.2) Interest rate risk

Interest rate risk is the risk that future movements in market interest rates will affect the results of the Group's operations and its cash flows because loan interest rates (see note 14) are mainly fixed. So the Group has low interest rate risk. The sensitivity impact to the increase or decrease in interest expenses from borrowings, as a result of changes in interest rates is immaterial on financial statements of the Group.

27. Capital management

The Board of Directors' policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board regularly monitors the return on capital, by evaluating result from operating activities divided by total shareholders' equity and also monitors the level of dividends to ordinary shareholders.

28. Commitments with non-related parties

28.1 Shareholder agreement

Lao Telecommunications Public Company ("LTC") (formerly named Lao Telecommunications Company Limited) was established under the terms of a Joint Venture Contract dated 8 October 1996, signed by the Government of the Lao People's Democratic Republic ("LAOGOV") and Intouch Holdings Public Company Limited (formerly named Shinawatra Computer and Communications Public Company Limited). According to the aforementioned Joint Venture Contract, LTC has the right to provide telecommunication services - fixed line phone, mobile phone, international facilities, internet and paging - within the Lao PDR for 25 years. Currently, Shenington Investments Pte Limited ("SHEN"), which is a joint venture of the Company, owns 49% of LTC's registered shares.

On 23 October 2015, SHEN and LAOGOV have officially reached the agreement to extend the Joint Venture Agreement and the Master Agreement for the Development of Telecommunications Services in the Lao PDR. As a result, LTC obtain the right to operate communication services in Lao PDR for a further period of 25 years until 2046. According to the amended agreements, LTC is required to invest at least USD 400 million in the projects specified in the agreements within the 25-year period.

At the end of the 25th year, in 2046, the Group has to transfer all of LTC's shares to LAOGOV without any charges (Note 9).

28.2 Broadcasting and Telecommunications business licenses under National Broadcasting and Telecommunications Commission's regulation

Currently, the National Broadcasting and Telecommunications Commission ("NBTC") is responsible for granting licenses to provide broadcasting and telecommunications services in Thailand. The Company, its subsidiaries and its joint venture operate the business to provide broadcasting and telecommunication services under licenses granted by NBTC as follows:

Type of license	Issued Date	Period
License of the Company		
Telecom Operation License Type I	16 August 2011	Throughout the service period
Telecom Operation License Type III	26 June 2012	20 years
License of Thai Advance Innovation Company Limited		
Broadcasting Operation License	21 January 2013	15 years
Telecom Operation License Type I	12 July 2019	Throughout the service period
License of TC Broadcasting Company Limited		
Broadcasting Operation License	4 March 2013	15 years
Telecom Operation License Type III	10 November 2015	15 years
License to use foreign satellite transponder to provide domestic services, Satellite I	8 September 2021	31 March 2026 or as prescribed by NBTC
License to use foreign satellite transponder to provide domestic services, Satellite II	15 November 2022	5 years
License to use foreign satellite transponder to provide domestic services, Satellite III	3 May 2023	31 March 2026 or as prescribed by NBTC
License to use foreign satellite transponder to provide domestic services, Satellite IV	3 May 2023	31 March 2026 or as prescribed by NBTC

Type of license	Issued Date	Period
License of Nation Space and Technology Co., Ltd.		
Telecom Operation License Type I	5 October 2020	Throughout the service period
Telecom Operation License Type III	10 February 2021	15 years
License of Space Tech Innovation Company Limited		
License to use the Satellite orbital slot for Filing package 2	16 May 2023	20 years
License to use the Satellite orbital slot for Filing package 3	16 May 2023	20 years
Telecom Operation License Type III	16 May 2023	20 years
License of TC Space Connect Company Limited		
License to use the Satellite orbital slot	21 October 2024	20 years

Revenue of the Company under the NBTC's regulation

Revenue from rendering of services and equipment rentals of the Company for the years ended 31 December 2024 and 2023 was classified as follows:

	Separate financial statements	
	2024	2023
	Baht'000	Baht'000
Telecom Operation License Type I*	34,511	40,696
Telecom Operation License Type III	401,524	429,757
Other service income	919,062	898,312
Total	**1,355,097**	**1,368,765**

*Revenue from Telecom Operation License Type I comprised of Revenue from Telecom Operation License Type I and Internet Operation License Type I according to section 18 of NBTC Notification on Criteria and Procedure for Granting Telecommunication Business License B.E 2563.

28.3 Operating lease and service agreement commitments

The Group has future aggregate minimum lease and service payments under non-cancellable operating leases as follows:

		Consolidated financial statements		Separate financial statements	
	Currency	31 December 2024	31 December 2023	31 December 2024	31 December 2023
		thousands	thousands	thousands	thousands
Within 1 year	THB	2,711	24,532	2,311	7,549
	IDR	13,272	109,890	13,272	109,890
	YEN	1,200	1,200	-	-
	PHP	706	52	706	52
	AUD	3	3	-	-
Total equivalent Baht		3,501	25,193	2,768	7,837
After 1 year but within 5 years	AUD	1	4	-	-
	PHP	59	-	59	-
Total equivalent Baht		59	104	36	-
Grand total equivalent Baht		**3,560**	**25,297**	**2,804**	**7,837**

Nonetheless, the said operating lease agreements were short-term leases and leases of assets which have low-value amount, the Group recognizes the lease payments for these leases as an expense on a straight-line basis over the lease term.

28.4 Capital commitments

The Group has capital commitments as follows:

	Consolidated financial statements		Separate financial statements	
	31 December 2024	31 December 2023	31 December 2024	31 December 2023
	Million Baht	Million Baht	Million Baht	Million Baht
Satellites, construction, and equipment.	7,363	5,477	-	-

28.5 Bank and other guarantees

The Group has arrangements with banks, whereby the banks issued letters of guarantee, letters of credit and other guarantees in respect of business contracts, for the following amounts:

	Currency	Consolidated financial statements		Separate financial statements	
		31 December 2024	31 December 2023	31 December 2024	31 December 2023
		thousands	thousands	thousands	thousands
Minimum operating agreement fee payable to Ministry of Digital Economy and Society	THB	497,000	497,000	497,000	497,000
Satellite space leasing by customers	USD	1,417	1,343	1,409	1,338
	THB	63,610	50,315	63,610	50,315
Permission of right to use the orbital slot	THB	767,922	835,613	-	33,846
Preservation of the Orbital slots	THB	623,940	613,940	-	-
Others	THB	26,264	12,725	25,144	11,778

29. Contingent liabilities

Assessment of income tax in India

The Company and the Revenue Department of India (the "Tax Authority") have different perspectives on the type of income and tax burden for the income from Transponder Services. The Tax Authority in India considered that the income from Transponder Services, which was provided to Indian and non-Indian customers whose contents can be viewed and understood by Indian audiences (the "Customers") was "Royalty" under both the Indian Income Tax Act (the "Act"), and the Double Taxation Agreement between Thailand and India (the "DTA") and therefore was subject to withholding tax at the rate of 15% on a gross basis. In contrast, the Company considered the income from Transponder Services to be business income, and, as the Company does not have a permanent establishment in India, such income is not taxable in India.

The Tax Authority insisted on its opinion and raised tax demands including surcharge, education tax and interest aggregating to INR 859.4 million against the said payment received by the Company from the Customers, and also levied a penalty of INR 566.1 million, for the Assessment Years ("AY") 1998-1999 to 2012-2013 (1 April 1997 to 30 March 2012).

So far, the Company has received Withholding Tax Certificates ("WTC") from Indian Customers up to AY 2012-2013 amounting to INR 593.8 million, for which part of the amount is substituted and paid by the Customers on behalf of the Company and used as deposits for tax, surcharge, education tax and interest including penalties and its relevant interest. The Company has also deposited INR 480.4 million. The deposit is presented as other non-current assets in the statements of financial position.

On 16 October 2009, the Income Tax Appellate Tribunal ("ITAT") ruled that the income from transponder services shall be categorized as "Royalty" and subjected to withholding tax at the rate specified by the law. Nonetheless, the appellate ruling only concerned the income tax and the interest derived therefrom and not about the penalty and its related interest.

The Company appealed the ITAT's ruling to the High Court of Delhi in December 2009.

On 17 February 2011, the High Court of Delhi judged that the ruling of the ITAT which decided that the income could be categorized as "Royalty" was incorrect as it was against the High Court's judgement in a precedent case. The High Court ordered ITAT to reconsider the matter by applying the principle contained in the precedent case's judgement.

On 4 March 2011, ITAT gave its decision that the Company' s income from transponder services in India was not a royalty and, as the Company has no permanent establishment in India, such income was not taxable in India.

As a consequence, the Company did not have to pay the interests and penalties imposed by the Tax Authority, and ITAT cancelled the demands for penalty for AY 1998-1999, 1999-2000, 2000-2001, 2001-2002 and 2002-2003 made by the Tax Authority against the Company. The Tax Authority did not appeal against the ITAT' s decision on the penalty for the said assessment years to the High Court of Delhi and the ITAT' s decision on the penalty was final. On 30 December 2011, the Tax Authority notified the partial return of the deposit placed by the Company against the penalty for AY 1998-1999 to 2001-2002 and interest, amounting to INR 162.4 million.

Further to the ITAT decision as stated in the preceding paragraphs, the Company is in the process of requesting the refund of the remaining deposit and withholding tax from the Tax Authority. Upon the final decision of the Supreme Court and the receipt of refund, the Company will return the Customers the withholding tax they paid for the Company.

On 28 September 2011, the Tax Authority has filed a Supreme Court appeal against the decision of High Court on 17 February 2011 which decided that the Company's income from transponder services in India was not a royalty. The matter is under the Supreme Court of India's consideration.

During the year 2024, the Company was partially refunded a portion of withholding tax from the Tax Authority in the amount of INR 611 million. The Company recorded the said transaction under other non-current liabilities in the statement of financial position for the year ended 31 December 2024.

30.1 Dispute over THAICOM 7 and THAICOM 8 satellites under Operating Agreement on Domestic Communication Satellites

On 5 October 2017, the Company received a letter from the Ministry of Digital Economy and Society ("MDES") stating that THAICOM 7 and THAICOM 8 satellites were the satellites under the Operating Agreement on Domestic Communication Satellites dated 11 September 1991 between Intouch Holdings Public Company Limited ("Intouch") and MDES (formerly known as the Ministry of Information and Communication Technology) (the "Operating Agreement"). Intouch established the Company to operate works under the Operating Agreement. In this regard, the letter from MDES stated a request for the full compliance with the Operating Agreement on an urgent basis; e.g. transfer of ownership and delivery of assets, procurement of the backup satellite(s), payment of overdue revenue sharing, and property insurance.

The Extra-Ordinary Board of Directors' Meeting of the Company on 24 October 2017, considered the letter and after consulting with its legal advisor determined that THAICOM 7 and THAICOM 8 satellites were not the satellites under the Operating Agreement since THAICOM 7 and THAICOM 8 satellites were operated under the license received from the NBTC. The Company has fully complied with the terms and conditions of the Operating Agreement without breaching any terms therein. Therefore, the Company had a different opinion from MDES on THAICOM 7 and THAICOM 8 satellites. Accordingly, the meeting resolved that the Company submit the dispute to arbitration in accordance with Clause 45.1 of the Operating Agreement. The Company submitted the dispute to the Thai Arbitration Institute ("TAI") on 25 October 2017, as the Black Case No. 97/2560.

However, in August 2019, MDES filed a petition to the Central Administrative Court ("CAC") to consider the authority of the TAI to consider the Black Case No. 97/2560, and requested a temporary suspension of the arbitration process. On 24 October 2019, the CAC issued an order refusing to suspend the arbitration process. MDES appealed the order to the Supreme Administrative Court ("SAC"). SAC has judged that the arbitration panel has the authority to consider the case.

On 6 October 2022, the Company received the arbitration award dated 29 September 2022 indicating that THAICOM 7 and THAICOM 8 satellites are not satellites under the Operating Agreement and the counter claim of the respondent shall be dismissed. By the award, it is clear that THAICOM 7 and THAICOM 8 are not under and/or related in any way to the Operating Agreement and thus the Company bears no obligation to proceed as demanded by the MDES in the dispute.

On 28 December 2022, MDES filed a case to the CAC to revoke the arbitration award. The Company received a copy of the plaint on 17 March 2023 and thus, the case is under the consideration of the CAC.

On 11 January 2024, the Company filed its statement of defense with the CAC.

As of 31 December 2024, MDES and the Company have submitted all required documents to the CAC and the case is still under the consideration of the CAC with the hearing date to be further determined. The Company believes that the chances of winning the case are probable.

30.2 Dispute of Thaicom 5 Satellite

On 6 November 2020, the Company received a notice of arbitration and the statement of claim regarding a dispute concerning THAICOM 5 satellite ("THAICOM 5") from MDES requesting the Company (1) to build and deliver the replacement satellite for THAICOM 5 or pay the money equivalent to the value of the satellite amounting to Baht 7.79 billion together with interest at the rate of 7.5% per annum for the period from 30 October 2020 until the payment completion date; (2) to pay a fine of Baht 4.98 million (calculated from 25 February 2020 to 30 October 2020) together with interest at the rate of 7.5% per annum; and (3) to pay a fine from 1 November 2020 until the replacement is delivered or the compensation is paid.

The Company, after considering the facts of such dispute, opined that the Company has always complied with the Operating Agreement on Domestic Communication Satellite and thus, the Company did not have any obligation to respond to such MDES's requests. Moreover, the Company viewed that MDES's submission of the dispute to the Thailand Arbitration Center ("THAC") did not comply with the terms and conditions of the Operating Agreement which allowed the parties to resolve their dispute at the Thai Arbitration Institute ("TAI") under the Court of Justice, where the THAICOM 7 and THAICOM 8 dispute went to.

Hence, the Company has submitted the dispute to TAI. As each party held a different opinion on the jurisdiction matter, each party filed a motion to the Central Administrative Court requesting the court to specify the arbitration institute with the authority to accept and consider the case and also issue a temporary injunction(s) to suspend the proceedings at THAC and TAI.

On 27 March 2024, the CAC decided that TAI has the jurisdiction over THAICOM 5 dispute. On 25 April 2024, MDES appealed against the CAC's order to the SAC.

On 18 July 2024, MDES requested the SAC for a temporary injunction to suspend the arbitral proceedings at TAI. On 30 August 2024, the SAC issued a temporary injunction to suspend the proceedings at TAI until the SAC issues a judgment or order otherwise.

The management of the Company believes that the outcome of the injunction will not have a material impact to the Company's financial statements as it relates to the appeal regarding which arbitration institute would handle the arbitral proceedings.

On 5 September 2024, MDES filed the statement of appeal to the SAC and on 7 January 2025, the Company filed the answer to the appeal of MDES to the SAC. Currently, the case is under consideration of the SAC.

30.3 On 5 June 2021, the Company received a letter dated 2 June 2021 from the Office of the National Broadcasting and Telecommunications Commission ("NBTC") informing its resolution that the Company was entitled to use the orbital slots for THAICOM 7 and THAICOM 8 satellites according to the Operating Agreement on Domestic Communication Satellite ending on 10 September 2021. However, if there would be an arbitration award or a court's order which would change the fact that served as the basis of the permission, NBTC will reconsider the Company's rights to use the orbital slots.

The Company opined that the resolution was unlawful because THAICOM 7 and THAICOM 8 satellites are not satellites under the Operating Agreement on Domestic Communication Satellite but are satellites under NBTC's license. Therefore, the Company has the right to use the orbital slots for

THAICOM 7 and THAICOM 8 satellites until the end of the license. The Company filed a case to the Central Administrative Court ("CAC") on 5 August 2021 and the CAC has granted an injunction on 9 August 2021 protecting the Company's rights to use the orbital slots until the case is final or the court orders otherwise. On 3 September 2021, NBTC appealed to the Supreme Administrative Court ("SAC") against the injunction of CAC. On 1 June 2022, SAC upheld the CAC's temporary injunction and the Company can continue using the orbital slots for THAICOM 7 and THAICOM 8 satellites.

During the court proceedings, MDES filed a motion to intervene with the CAC to participate in the case as a party (as an intervenor) on the ground that the outcome of the case may affect its rights as the rightsholder of orbital slots of THAICOM 7 and THAICOM 8.

On 6 March 2024, CAC ruled that NBTC's resolution regarding use of THAICOM 7 and THAICOM 8 until the end of concession shall be revoked. In April 2024, NBTC and MDES (intervenor) appealed to the SAC. Currently, the case is under the consideration of the SAC.

On 14 January 2025, the Company filed the answer to NBTC's and MDES' appeal with the SAC. Currently, the case is under the consideration of the SAC.

Nevertheless, the Company is still entitled to use the orbital slots of THAICOM 7 and THAICOM 8 until the SAC issues an order otherwise.
