Independent auditor's report on review of interim financial information

To the Board of Directors of Thaicom Public Company Limited

I have reviewed the accompanying consolidated and separate statements of financial position of Thaicom Public Company Limited and its subsidiaries, and of Thaicom Public Company Limited, respectively, as at 30 June 2013; the consolidated and separate statements of income, and comprehensive income for the three-month and six-month periods ended 30 June 2013 and, the consolidated and separate statements of changes in equity and cash flows for the six-month period ended 30 June 2013; and condensed notes ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with the Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

2 Basis of preparation of the interim financial statements

(a) Statement of compliance

The interim financial statements are prepared on a condensed basis in accordance with Thai Accounting Standard (TAS) No. 34 (revised 2009) *Interim Financial Reporting;* guidelines promulgated by the Federation of Accounting Professions (FAP); and applicable rules and regulations of the Thai Securities and Exchange Commission.

The interim financial statements are prepared to provide an update on the financial statements for the year ended 31 December 2012. They do not include all of the financial information required for full annual financial statements but focus on new activities, events and circumstances to avoid repetition of information previously reported. Accordingly, these interim financial statements should be read in conjunction with the financial statements of the Company and its subsidiaries for the year ended 31 December 2012.

The FAP has issued the following new and revised TFRS and Announcements relevant to the Group's operations and effective for accounting periods beginning on or after 1 January 2013:

TFRS	Topic
TAS 12	Income Taxes
TAS 21 (revised 2009)	The Effects of Changes in Foreign Exchange Rates
TFRS 8	Operating Segments

The adoption of these new and revised TFRS has no effects in the Group's accounting policies.

The accounting policies and methods of computation applied in these interim financial statements are consistent with those applied in the financial statements for the year ended 31 December 2012.

(b) Functional and presentation currency

The interim financial statements are prepared and presented in Thai Baht, which is the Group's functional currency. All financial information presented in Thai Baht has been rounded to the nearest thousand unless otherwise stated.

(c) Use of estimates and judgements

The preparation of interim financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates

Measurement of defined benefit obligations

The calculation of the defined benefit obligation is sensitive to the assumptions on mortality and future salary rates as set out in note 8.

Measurement of share-based payments

The calculation of the share-base payment is sensitive to the assumptions on fair value at grant date, share price at grant date, exercise price, expected volatility, expected dividend and risk-free interest rate as set out in note 10.

Allowance

The calculation of the allowance for doubtful accounts of trade accounts receivable, allowance for obsolete and damaged inventories and others are related to the assumptions on analysis of payment histories and future expectations of customer payments, slow-moving information of inventories and recoverable amounts.

Utilisation of assets

The assumption of the useful lives and residual value of plant and equipment, assets under the Agreements for operations and intangible assets are reviewed on an ongoing basis.

Assessment for income tax in India

The Tax Authority in India ('the Tax Authority'), has held that the payments received by the Company for providing Transponder Services ('TPS') to its Indian Customers and non-resident customers targeting Indian audience ('the Customer') was Royalty under both the Indian Income Tax Act ('the Act'), and the Double Taxation Avoidance Agreement between Thailand and India ('the DTAA') and subject to withholding tax at the rate of 15% on gross basis. But the Company considered income from Transponder Services to be business income, and as the Company does not have permanent establishment in India, such income is not taxable in India.

The Tax Authority still insists on its consideration and has raised the tax demand including surcharge, education cess and interest aggregating to Rs. 804.5 million (approximately Baht 420 million) against the said payment received by it from the customers and also levied penalty of Rs. 566.1 million (approximately Baht 295 million) for the Assessment Year ('AY') 1998-1999 to 2009-2010 (1 April 1997 to 31 March 2009).

So far, the Company had received Withholding Tax Certificates ('WTC') from its customers until Assessment Year ('AY') 2009-2010 net amounting to Rs. 498.4 million (approximately Baht 260 million), in which part of the amount is substituted and paid by the customer on behalf of the Company. The Company had also deposited Rs. 460.2 million (approximately Baht 240 million). The deposit is presented as non-current assets in the statements of financial position.

On 4 March 2011 Income Tax Appellate Tribunal (ITAT) gave its decision that the Company's income from transponder services in India was not a royalty and as the Company has no permanent establishment in India, such income was not taxable in India.

As the consequence, the Company does not have to pay interest and penalty imposed by the Revenue Department of India, and ITAT also decided that the demand for penalty for the assessment year 1998-99, 1999-00, 2000-01, 2001-02 and 2002-03 made by the Revenue Department of India against the Company be cancelled. The Revenue Department of India did not appeal against the ITAT's decision on penalty for the said assessment years to the High Court of Delhi and the ITAT's decision on penalty was final. On 30 December 2011, the Tax authority notified the partial return of deposit placed by the Company against the penalty for the Assessment Year ('AY') 1998-1999 to 2001-2002 and interest, aggregating to Rs. 162.4 million (approximately Baht 85 million.)

Further to ITAT decision as stated in the preceding paragraphs, the Company is in the process of requesting the refund of the remaining deposit and withholding tax from the Tax Authority. Upon the final decision of the Supreme Court and the receipt of refund, the Company will forward the Customer the amount they substituted on behalf of the Company.

On September 28, 2011, the Tax Authority has filed an appeal against the decision of High Court on 17 February 2011 which decided that the Company's income from transponder services in India was not a royalty, to the Supreme Court. At the moment, this issue is still under the consideration of the Supreme Court.

If the Supreme court decides finally that the Company's income is taxable in India, the total tax liability demanded by the said Authority of Rs. 804.5 million (approximately Baht 420 million) will be charged as expense immediately, but the Company has already placed withholding tax and the deposit against part of the tax demand. The Company is liable for tax demand in the amount of Rs. 8.4 million (approximately Baht 4 million).

b) On 19 April 2007, Mr. Supong Limthanakul brought legal actions against the National Telecommunications Commission ("NTC"), the office of the NTC and the Ministry of Information and Communication Technology ("MICT") in the Central Administrative Court ("CAC") on the ground that the three state agencies neglected to perform their duties in overseeing whether the Company has been carrying on its telecommunications business lawfully after the sale of Shin Corporation Public Company Limited's shares to the new shareholder.

   CAC issued an order dated 8 April 2009 making the Company the fourth respondent in order to allow the Company to file the Reply to the petitioner's claim including evidence, documentary or otherwise to CAC and the Company filed the Reply and supporting evidence in July 2009. On 10 September 2011, CAC has dismissed the verdict.

On 8 July 2011, Mr. Supong Limthanakul has filed an appeal with the Supreme Administrative Court ("SAC"). The case is under consideration by SAC. On 23 September 2011, the Company has filed an argument against appeal with the Supreme Administrative Court ("SAC").

The Company is of the opinion that it will not be adversely affected in any way as the actions were brought against NTC, office of the NTC and MICT for neglecting to perform their duties and will not constitute a cause for terminating the operating agreement as the Company has fully complied with the terms and conditions of the operating agreement.
