

# Nexl at-a-glance

A concise overview of what Nexl is, what it helps firms do, and what it does not do.

## What is Nexl?

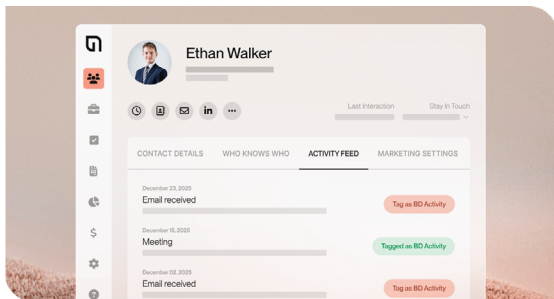

Nexl is the **growth system** for law firms that brings CRM, workspaces, marketing, and relationship intelligence together in one place.

## What Nexl does

- Automatically capture & enrich your contacts.
- Generate valuable relationship insights.
- Empower firm-wide collaboration.

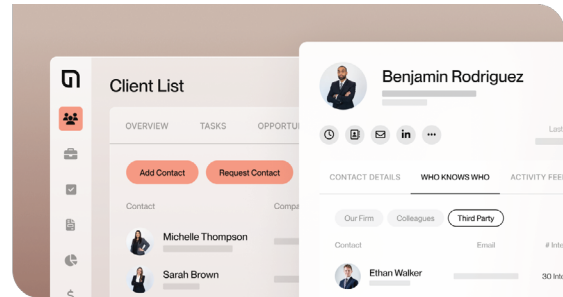

## What Nexl doesn't do

- Read your emails or scrape signatures.
- Expose confidential or privileged information.
- Enable your firm to monitor your behavior.

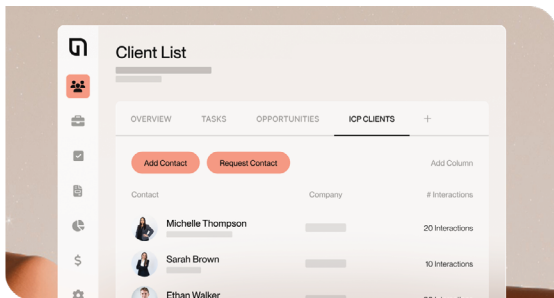

### Never miss a contact with automated data entry

Nexl automatically pulls in information from your email and calendar, then enriches it with social media and other data sources.

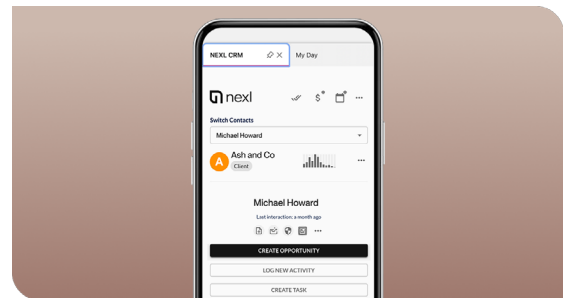

### Loop in the people to get referrals & close deals

See shared contacts by level of interaction to loop in the right people at the right time.

### Manage your relationships

Set automated Stay-In-Touch reminders and discover which contacts are ripe for re-engagement.

### All right from your inbox

Add contacts, create opportunities, and set Stay-In-Touch reminders with Nexl's Outlook add-in.

## How to log in to Nexl

### Preferred Internet Browser

Log in to Nexl using your preferred web browser. We recommend using Edge, Chrome or Safari. Use the corresponding link to your server region:

**AU:** <https://au.nexl.cloud>

**EU:** <https://eu.nexl.cloud>

**US:** <https://us.nexl.cloud>

### Outlook Add-In

Log in to Nexl using the Outlook Add-In. We recommend [downloading this](#) before logging in to the web browser.

### Nexl Mobile App

Download the Nexl 360 mobile app via the [Apple App store](#) of the [Google Play store](#).
