

**Moving urban tactical  
training forward**

**FlexTact** is the cutting-edge answer to training facility needs. It revolutionizes urban tactical and situational training with a focus on **flexibility**, ease of use, and **durability**.

As a leader in space management, Hufcor's **FlexTact** allows easy layout reconfiguration for **dynamic, effective training**. It boosts knowledge retention and readies trainees for real-life scenarios.

- **Effortless Configuration:** Say goodbye to permanent buildings or time-consuming panel setups. **FlexTact** allows you to reconfigure layouts and scenarios within minutes to meet your specific training objectives.
- **Versatile Design:** **FlexTact's** overhead track system enables a wide range of training scenarios. You can simulate various environments, from glass and traditional walls to doors, jail fronts, and more.
- **Built to Last:** Our rugged panel construction ensures long-lasting durability, making it ideal for a **variety** of training applications, including crime scene investigations.
- **Maximized Training Time:** With quick panel reconfiguration, you can switch between different training scenarios seamlessly, from hotel floors to office layouts, reducing memorization risks.
- **Enhanced Learning:** The overhead design allows for video monitoring, enabling trainers and participants to observe, review, and apply corrections for **improved** learning and retention.
- **Key Panel Features:** **FlexTact** includes features like retractable bottom seals, edge trim, side seals, durable frames, and a flexible track grid layout for **maximum performance**.
- **Premium Options:** Explore our pass door systems and window panels for a realistic training experience that mimics commercial and residential settings.
- **Finishes:** High-pressure laminate surfaces withstand impacts and can be easily cleaned. Optional marker boards or chalkboards can be added for classroom situations.

With **FlexTact**, you can elevate your training programs, develop targeted curriculum, and enhance preparation for real-world scenarios. Experience the future of tactical training with FlexTact – the ultimate solution for dynamic and effective learning environments.
