Education

Rutgers University   **May 2026**
B.S. in Computer Science | GPA: 3.1   *Newark, NJ*
Relevant Coursework: Software Engineering, Mobile App Development, Advanced Data Structures, Machine Learning & AI

Work Experience

UI Developer   **Jan 2025 – Present**
Freelance   *Plainfield, NJ*
- Designed and developed business and personal websites for clients from concept to launch, managing entire project lifecycle
- Created both low and high fidelity wireframes, mockups, prototypes, and designs using tools such as Figma, Canva, and Adobe
- Hand-coded websites using HTML and CSS, implementing responsive design for seamless cross-device functionality

CVS Pharmacy   **Sep 2022 – Nov 2024**
Operations Supervisor   *Middlesex, NJ*
- Supervised daily operations and staff task assignments to ensure smooth workflow execution
- Tracked operational data and supported process improvements while maintaining financial accuracy

Projects

Full Stack Student Web Platform |*Project Management, Agile, React, Supabase, Figma*   **Dec 2025**
- Led a 4-person cross-functional team to design and deliver a full-stack collaboration platform supporting 7+ core features, including project posting, applications, filtering, and user profiles
- Managed project planning, timelines, and task distribution using Agile methods, delivering multiple feature iterations from wireframes to final showcase
- Coordinated usability testing, synthesizing feedback that directly informed UI redesigns and accessibility filters
- Established and managed the GitHub to Heroku deployment pipeline, coordinating releases and ensuring the platform was successfully deployed for the final live demo

Bar Website Redesign | *Figma, Wix*   **May 2025**
- Led end-to-end redesign for a local bar website, collaborating directly with the business owner to define requirements, branding goals, and content strategy
- Drove measurable growth post-launch, resulting in 1,050+ site sessions and 790+ unique visitors, with 73% of traffic from mobile users and strong organic search discovery in the first 3 months

Activities

COLORSTACK   **Feb 2024 – Present**
National Member   *Newark, NJ*
- Engagement within a community supporting underrepresented students in tech through networking and professional development events.

ENGin   **Nov 2021 – Present**
Alumnus Volunteer   *Kyiv, UA*
- Coordination of free online conversation practice for Ukrainians learning English in a supportive environment.
