Nova 8.0	96"	20"	18 1/4"

Profile

Design Story

The **Elemental Series**, guided by clarity and intention, distills design down to its purest expression. Unembellished yet quietly confident, this series offers a refined presence that feels grounded and open—built to enhance the space around it without overwhelming it.

Recommended Use: Ideal for pathways, plazas, garden settings, and transit areas, public parks, university campuses, healthcare settings, and cultural institutions.
