

Elemental Series

SOLA

Product Data Sheet

Sola

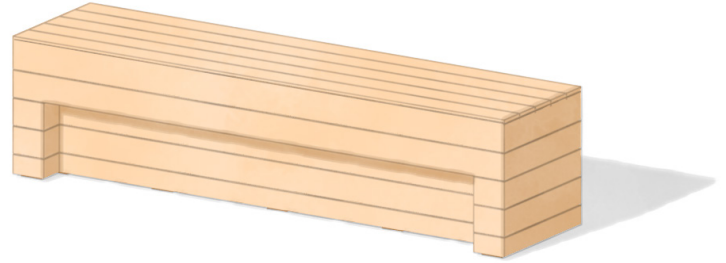

Elemental Series

Sola is an experience of material and form.

Sola is available in two distinct expressions:

- 1) With edging, its lines are crisp, deliberate—an architectural gesture.
- 2) Without edging, it reads softer, seamless—like it has always belonged.

- Designed and fabricated in-house for full control over detail and quality
- Available in an assortment of finishes

Materials and Finishes

Metal

- 1) Powder Coated Aluminum
- 2) Aluminum with Patina Treatment (Zinc, Blackened)
- 3) Corten Steel
- 4) Blackened Stainless Steel
- 5) Bronze (Interior Applications)
- 6) Tnemc Painted Mild Steel

Wood

- 1) Thermally Modified Lumber
- 2) FSC Ipe
- 3) Recycled Plastic Lumber

Profile

Design Story

The Elemental Series, guided by clarity and intention, distills design down to its purest expression. Unembellished yet quietly confident, this series offers a refined presence that feels grounded and open—built to enhance the space around it without overwhelming it.

Recommended Use: Ideal for pathways, plazas, garden settings, and transit areas, public parks, university campuses, healthcare settings, and cultural institutions
