

NYC Community School District 13 Vision

In all D13 schools, staff create a learning environment where students feel a strong sense of belonging and welcoming, are celebrated and challenged in their learning, and are held to high expectations.

What D13 Values

Growing Together

Ensure each D13 school is not over- nor under-enrolled and has a student population this is racially and socioeconomically representative of our district.

Equity in the Classroom

Monitor and sustain integration and Culturally Responsive and Sustaining Education (CR-SE) across schools and maintain accountability to stakeholders.

Community Supported Schools

Strengthen connections between D13 schools and local organizations, institutions, and community members to benefit students and our neighbors, creating thriving and interconnected communities.

How We Get There

Championing Public Education Initiative

Work with families, local businesses, and community institutions to connect neighbors to their local school, share information about their programs, and encourage residents to enroll in and/or support public schools with their skills and talents.

Educator and Staff Professional Development

Ensure educators have access to continuous professional development and CR-SE training to foster welcoming and inclusive classrooms, hold students to high academic standards and center equity.

D13 Partnerships Program

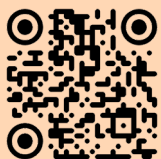

Provide a funding framework with Brooklyn Community Foundation to support local organizations, institutions, and community members in partnering with D13 public schools on STEM, arts, culture, and academic programs.

How You Can Help

Get to know your local public schools.

Share your skills with students and teachers.

Donate to the D13 Partnerships Program.
