

**DENALI**  
**SERVICES FOR  
YOUR BUSINESS**

# Expired fruits and vegetables. Recalled or uneaten food. Used cooking oil and grease. Wastewater, renderings, and spent grains.

For years, such items resulting from your operations have been considered “waste,” leaving you with the challenge of disposing of them. Traditionally, such disposal utilized conventional waste management methods, resulting in sending those items to a local landfill.

Now, however, you can help unlock hidden value in those “waste” items by providing them for recycling and repurposing in a responsible, ethical — and economical — way. In many instances our disposal services cost less than traditional waste collection, with the added benefit of helping you achieve your sustainability objectives.

# SOLUTIONS FOR YOUR OPERATION

Denali Corp., the nation's leading full-service organic recycling/repurposing company, provides a number of solutions to divert your organic byproducts from landfills and convert them into useful products.

## YOUR UNUSABLE ORGANIC MATERIAL CAN BE CONVERTED INTO:

Animal feed

Mulch

Organic fertilizer

Soaps

Biofuel

Soils

Compost

Clean water

Lubricants

Electricity

## WE OFFER SERVICES SPECIFICALLY DESIGNED FOR:

Municipalities

Food Manufacturers/  
Processors

Grocers

Restaurants

Industrial Kitchens

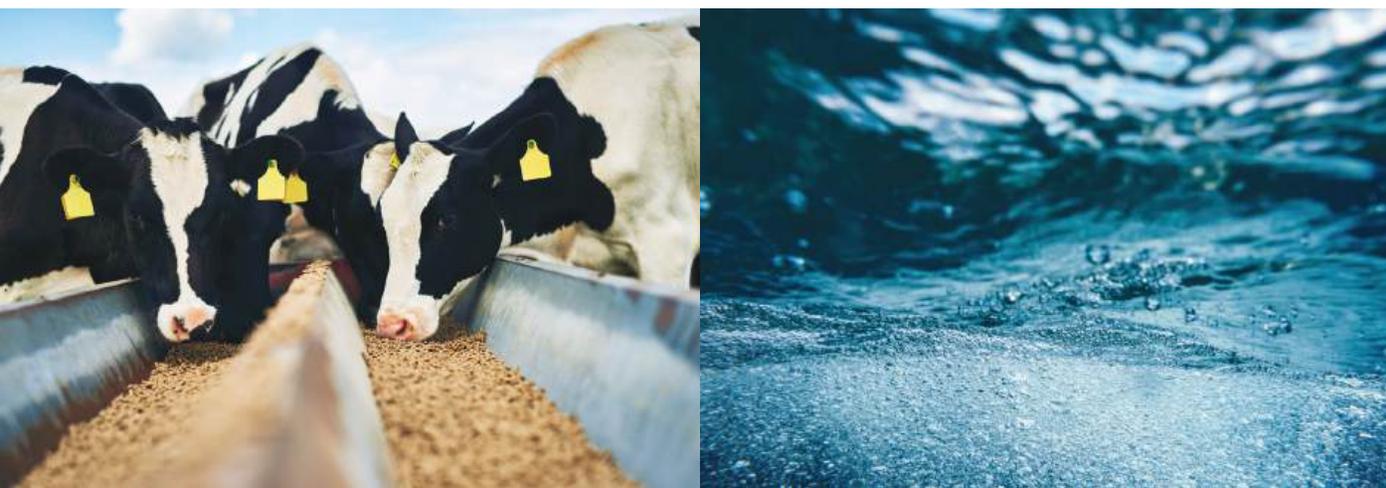

Hotels

Breweries

Wineries

Schools

Entertainment Venues

# SOLUTIONS FOR YOUR OPERATION

## OUR SOLUTIONS INCLUDE:

### **Data for Future Planning/Forecasting:**

Access reports to gain insights into collection volume and historical trends

**Unused Food Collection:** On-site receptacles with a regularly scheduled collection and cleaning program

**Food Depackaging:** Mechanical process to separate food from packaging to enable easier recycling

**Biosolid Management:** Collection of treated wastewater to process into biosolids for land application

**Grease Trap Services:** Removal of all liquids and scraping the walls of grease traps/interceptors, as well as trap inspection to identify maintenance issues and prevent clogs and overflows

**Used Cooking Oil Collection:** All-inclusive program including customized equipment to capture used cooking oil, regular removal and hydro-jetting

**Industrial Cleaning:** Specialized, eco-friendly cleaning services using specialized tools and techniques with attention to detail and flexibility to meet your specific needs

**Lagoon & Digester Cleaning:** Managing cleanouts, closeouts and maintenance of lagoons, basins, digester tanks, storage tanks, holding tanks, ponds and water tanks using the most advanced technology and equipment

**DAF Skimming:** Collection of organic materials from dissolved air flotation systems, from collection and transportation to sludge dewatering

**Dewatering:** Water removal services, water drainage and a variety of dewatering solutions using a fleet of mobile belt filter presses, centrifuges and geo-textile tubes

## WHY DENALI?

With operations in the 48 contiguous United States plus Puerto Rico, we can easily service your operation on a regular schedule, ensuring your organic material does not accumulate and create an unpleasant experience for your clients and employees.

We take our role as environmental stewards seriously with regard to recycling organic material and converting it into valuable end products. Regardless of the path the recyclables take — feed, fuel or fertilizer — we ensure it is managed to the highest standards, in compliance with all regulations, and is a quality product that is beneficial to the environment.

In 2022, Denali recycled/repurposed **3.7 million pounds of organic material per day** — that's the equivalent of filling the Statue of Liberty **8 times.**

## WHY DENALI?

### BY THE NUMBERS

---

**1,000** trucks

**24** compost, mulch & soil facilities

**53**

compost partners

---

**11**

anaerobic digester partners

**38** 

processing facilities in 14 states

---

**5** 

animal feed manufacturing sites

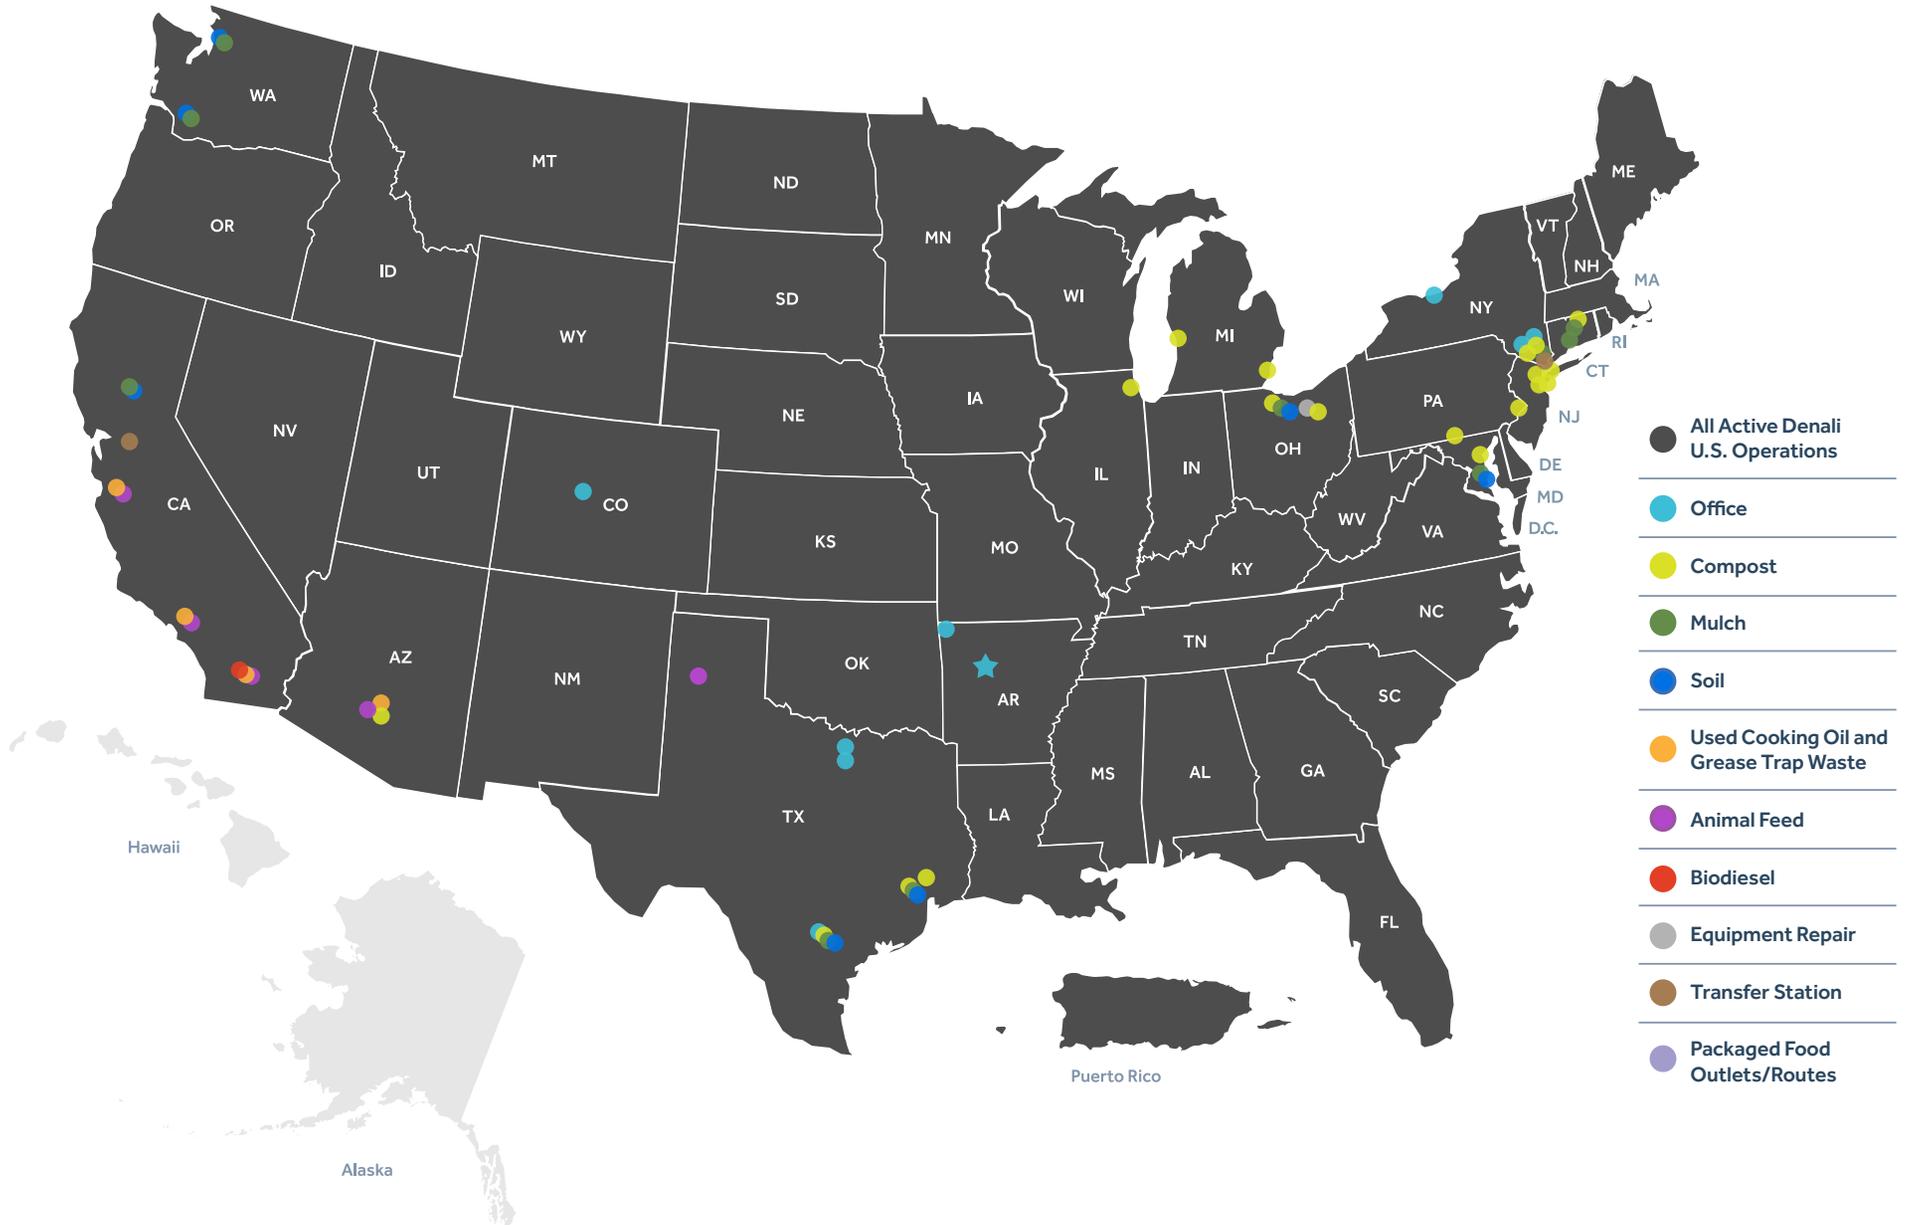

---

**235** 

farms for animal feed
