PROFESSIONAL SUMMARY

Creative and detail-oriented 3D Motion & Visual Designer with 5+ years of experience producing cinematic motion graphics, immersive product animations, and high-end visual storytelling for global brands. Specialized in 3D visualization, dynamic motion systems, and digital brand experiences. Proven ability to transform concepts into visually compelling narratives that elevate brand presence and engagement.

CORE COMPETENCIES

- 3D Motion Design
 - Cinematic Product Animation
 - Visual Storytelling
 - Lighting & Rendering
 - Creative Direction
 - Brand Visual Development
 - Storyboarding & Concept Design
 - Client Collaboration
 - High-End Digital Experiences
-

PROFESSIONAL EXPERIENCE

Independent 3D Motion Designer

Self-Employed | Worldwide
2018 – Present

- Create cinematic 3D animations and motion graphics for premium digital campaigns.
 - Design product-focused visual films that enhance brand storytelling and engagement.
 - Collaborate with creative directors, marketing teams, and brands to deliver visually refined motion experiences.
 - Develop complete animation pipelines including modeling, lighting, rendering, and compositing.
 - Deliver projects on schedule while maintaining high production quality standards.
 - Build long-term client relationships resulting in repeat partnerships and global collaborations.
-

SELECTED PROJECT HIGHLIGHTS

Cinematic Brand Visuals

- Developed immersive 3D motion sequences for luxury and digital-first brands.

Product Launch Animations

- Produced high-end product films designed for marketing campaigns and social distribution.

Digital Motion Campaigns

- Created engaging motion-driven content tailored for web and social platforms.
-

TECHNICAL SKILLS
