WARRANTY

Trailers sold by NT Trailers are covered by a structural warranty for a period of 12 months (3 months for commercial use). This warranty period is valid from the date of original purchase and covers all products against defective materials or workmanship (jockey wheel, bearings, tires, wheels, brake pads & wearable parts are excluded).

FINANCE

Take advantage of our flexible financing options tailored to your needs—whether for personal use or business. Simply select your preferred method of contact—email, call, or send us a message on Instagram—and our team will guide you to secure the best rates available. We're here to make your trailer purchase as smooth and affordable as possible.

TRAILER DESCRIPTION

The Builders Trailer – Standard is built for tradespeople who need a reliable, no-nonsense workhorse on the job. Constructed with a full-weld Australian-made frame, this trailer is engineered to handle the toughest conditions day after day. Its extended drawbar provides superior towing control, while the angled-top builders rack and ladder racks with 200mm carry area give you ample space for long materials, pipes, and equipment.

Designed with practicality at its core, the Builders Trailer features false floor angles fitted as standard, giving you a solid and versatile base for any trade setup. A new standard jockey wheel and spare wheel are included, so you're always ready to roll. With custom options available, this trailer can be tailored to suit your specific trade needs – whether you're a plumber, electrician, carpenter, or landscaper.

Built to meet Australian Design Regulations (ADR) and fitted with LED lighting and a 7-pin plug, the Builders Trailer – Standard is the ultimate entry-level trade trailer for professionals who demand quality without compromise.
