We're here to make your trailer purchase as smooth and affordable as possible.

TRAILER DESCRIPTION

The Combo Tipper Tradie Trailer takes practicality to the next level with a built-in hydraulic tipper system, designed to make unloading faster, cleaner, and completely effortless. Built on the same tough foundation as our heavy-duty galvanized RHS frame and independent suspension system, the Combo Tipper is engineered to perform wherever the job takes you.

With its spacious extended tray, dual axles, and four-wheel electric brakes, it delivers both stability and strength under load. The hydraulic tipper in the rear tray allows you to empty materials such as soil, gravel, or debris in seconds, saving time and reducing manual labour on site.

Every feature is designed with real-world use in mind, from the sixteen-inch off-road rims and LED lighting to the reinforced load points and lockable storage compartments. The Combo Tipper gives you the freedom to load more, work smarter, and move on to the next task with ease.

Built for performance and efficiency, the Combo Tipper is the trailer that makes every job smoother, faster, and easier. When your work demands more than just strength, it delivers the power of smart design with the convenience of a hydraulic lift system.

SPECIFICATIONS

Model:	Combo Tipper
Style:	Galvanised Steel & Powdercoat Finish
Aggregate Trailer Mass (GVM):	3400KG
Tare Mass:	2050KG
Body Colour:	White Black or Silver
Tow Ball Diameter:	φ50mm
Safety Chain:	2 x 12mm - AKR 4177.4 - 1994 Compliant
Tyres:	265/75R16 All-Terrain
Rims:	Alloy XD Series 16"
Suspension:	8-leaf Rocker Roller Suspension
Axle:	High-strength 50mm Solid Axle (Rated 3.5T)
Tradesman Rack Dimensions:	1400mm L x 1400mm W
Extended Tradesman Rack Dimensions:	4800mm L x 1000mm W
4 Wheel Electric Drum Brakes:	With Park Brake for enhanced safety
Tool Box:	1.5m x 1.5m for secure storage
Rear Tray:	2.4m x 1.5m
Solar Panels:	2 x 100W, 18V, 10A Monocrystalline Cells for independent power
Solar Controller:	20A PWM 12V/24V Solar Controller for efficient energy management
Batteries:	2 x 100AH Deep Cycle Sealed Lead Acid Batteries
Battery Charger:	30A ACDC Smart 9-Stage Charger for optimal battery performance
Inverter:	2000W Pure Sine Wave with Added In-Rush Current Protection
Interior Lighting:	12V Strip lighting for bright and efficient illumination
12V Input:	2 x 50A Anderson Plugs for reliable power access
240V Input:	1 x 15A Clipsal Inlet Socket - 435VFS15
240V Output:	3 x 10A GPO's for powering devices
Circuit Protection:	Built-in Current Leakage Protection (RCD's) for safety

FEATURES

13 x 5 Model:	Aggregate Trailer Mass (ATM): 3400KG
5-Tonne Hydraulic Lift Fitted To Rear Tray	Hydraulic Tipper Installed to rear tray
16 Inch Rims and 265/75 Tyres:	Navigates rough terrain and climbs gutters easily, ensuring stable towing.
Dual Axle:	Allows the trailer to be free-standing when unhooked, preventing it from tipping.
Light Weight:	Easy to tow, park, and maneuver. It's balanced for one-person operation, with a Tare Mass is 2,050KG
Commercial Grade High Quality:	Durable handles, latches, and fittings ensure long service life and ease of use.
4 Wheel Electric Brakes:	Provides peace of mind while towing and parking with the onboard handbrake.
